AN EQUAL EDUCATIONAL OPPORTUNITY INSTITUTION

It is the policy of Texarkana College not to discriminate on the basis of sex, disabilities, race, color, age, or national origin in its educational and vocational programs, activities or employment as required by Title IX, Section 504 and Title VI. The Texarkana College campus is accessible to the disabled. Texarkana College is committed to full compliance with both the Drug Free Workplace and the Drug Free Schools and Communities Acts.

This catalog contains policies, regulations, and procedures which were in existence as the publication was first published. The College reserves the right to modify or amend any statements or policy to reflect current board policies, administrative regulations, or procedures and applicable state or federal laws or regulations.

WELCOME FROM THE PRESIDENT

Thank you for choosing Texarkana College as your institution of higher education. Texarkana College has an 88-year legacy of educating students through its varied degree and certificate programs. Since 1927, our College has been a prime resource for higher education in the region. From preparing students to transfer to four-year colleges and universities to awarding workforce degrees and certificates that qualify students for jobs in our region, Texarkana College has something for everyone.

You've made a great choice. Texarkana College has some of the best instructors in our region. They are authorities in their subject areas and have published books, earned recognition on a local level on up to the international level, and are committed to helping you succeed. Class sizes are small and you can get the personal attention you need right here at Texarkana College.

If you run into roadblocks along the way, don't be afraid to talk to your instructors. They want to see you graduate as badly as you want to graduate.

You are starting your college journey at Texarkana College because you know that obtaining a higher education puts you on the path to an unlimited amount of potential and future success. With today's job market, you probably know that just showing up to class isn't enough. When you leave Texarkana College, we want you to leave with the skills, certification or degree you need to succeed.

I hope that you will commit to completing those goals. Your goal should be to learn skills at TC that will help you find a better job; earn a certificate that prepares you to enter our workforce; or earn an associate's degree and transfer to a four-year university as soon as possible to complete a baccalaureate degree.

We'll do everything in our power to help you complete your goals. You're going to have a great year at TC!

James Henry Russell, CPA
President

Welcome from the Dean of Students

Welcome to Texarkana College. As Dean of Students I would like to welcome you to Texarkana College. Whether you are a new or returning student, a recent high school graduate or a returning adult, you will find Texarkana College to be a learning institution that supports, encourages and empowers our students. Texarkana College is an Achieving the Dream college, which means we do more than just talk about helping our students be successful. Texarkana College collects data and uses the information to make changes that will benefit all of our students.

The mission of the Dean of Students is to provide you with services and information that support your educational endeavors. We encourage you to be an independent thinker, accept responsibility and make informed decisions for your own educational experience.

I am glad you have chosen Texarkana College, and every effort will be made to ensure that your experience is rewarding. I strongly encourage you to participate in student clubs. Getting involved will enhance your educational experience while making your life at Texarkana College profitable and enjoyable.

I wish you great success in obtaining your educational, personal and professional goals. Remember we are here to assist you in achieving your educational goals. Please let me know how we can help! Don't forget that Texarkana College is a great place to start ... Or start over.

Robert A. Jones
Dean of Students

FOREWARD

The Texarkana College Catalog/Student Handbook is a source of important information, including student responsibilities, obligations, and privileges. Students are expected to familiarize themselves with the catalog/handbook and use it as a reference tool.

This catalog is published for informational purposes only. Every possible effort is made to ensure accuracy. However, the provisions of this catalog are not to be regarded as an irrevocable contract between the student and the college. Texarkana College reserves the right to change any provision or requirement at any time.

Texarkana College provides equal opportunity in education and employment in accordance with Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1978.

Texarkana College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees and certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 or visit the website at <http://www.sacscoc.org> for questions about the accreditation of Texarkana College.

MISSION STATEMENT

Texarkana College is a publicly-supported, two-year community college **Dedicated** to serving the educational needs of diverse individuals, businesses, and the community through **Relevant** programs and services that are high quality, affordable and accessible. These programs are offered in an Environment of **Excellence** supported by a highly qualified, engaged, and informed faculty and staff committed to promoting and increasing student **Achievement** and success in the development of knowledge and skills necessary for a rapidly changing world. **Measureable** student learning and institutional outcomes provide a culture of continuous improvement and data-driven decision making. In fulfillment of this mission, Texarkana College prepares individuals for **Success** in life and **HOPE** for a better tomorrow.

INSTITUTIONAL BELIEFS

- We believe student success and the completion agenda must be the highest priority at Texarkana College.
- We believe that Texarkana College must restore daily operations to a system of excellence in the areas of financial management, aesthetically pleasing facilities and grounds, and a safe/secure learning environment.

- We believe that Texarkana College must be sustained and that community trust and support are critical to the success of our College.
- We believe that Texarkana College is the economic engine of our area and that all academic and workforce programs offered must be top quality and provide a high return on investment related to the time and resources of our community and students invest.
- We believe a diverse population of well-qualified, competent, committed and caring faculty and staff members who are engaged and informed are paramount to supporting and attaining student success.

HISTORY OF THE COLLEGE

Texarkana College was established in 1927 as a public junior college and as a branch of the Texarkana, Texas, Public School System governed by the Texarkana Independent School District Board of Trustees. First located at 16th and Pine Streets, the campus was composed of classrooms, laboratories, offices, and a gymnasium. The laboratories and gymnasium were jointly used by the college and the high school. Following legislation by the State of Texas in 1941, the Texarkana College District was established by an election of the taxpayers of the public school district and a tax rate of 20 cents per 100 dollars of assessed valuation was passed at the same time.

The College experienced continuous growth from the 109 students in 1927 to the end of World War II. After World War II, it became increasingly apparent that the growth in enrollment caused by returning veteran demanded expansion. A \$40,000 bond issue election passed in 1948 to buy land and finance construction of a new campus. Twenty acres were purchased and construction of an administration buildings and gymnasium began in 1950. In 1953, the College relocated to its present site on Robison Road with an enrollment of 589 students.

In 1957, The Texarkana Independent School District Board of Trustees voted to “divest itself of control, management and operation of the Texarkana Junior College District” and to create a separate nine-member Board of Trustees for Texarkana College.

In 1958, through the issuance of \$475,000 in revenue bonds, the original student center building was constructed and opened for use early in 1959. Through the issuance of more revenue bonds, the college acquired additional acres and using the same source of revenue, the boys’ dormitory was constructed, the music building was air-conditioned, and numerous improvements were made to other facilities on campus.

In November, 1959, Dr. Stilwell died and Dean W. P. Akin was appointed acting president until Dr. Stilwell’s successor, Dr. W. H. Hinton was hired in March, 1960. Mr. Akin then became Vice-President and served in this capacity until the resignation of Dr. Hinton in June, 1962. Mr. Akin was then made President and served until his death in September, 1963. Dean C. C. Burrus was named acting president upon the death of Mr. Akin and served until March 1964, when Dr. J. W. Cady was elected as the fourth president of the college. During Dr. Cady’s administration,

new chemistry, biology, engineering, mathematics, physics and library buildings as well as an aquatic center housing an Olympic size swimming pool, were added.

In 1971, Texarkana College joined forces with East Texas State University, Now A&M Texarkana, in a unique cooperative venture that allowed Northeast Texas residents greater access to higher education. Expansion and growth continue today with the addition of new programs and partnerships with surrounding school districts and high-quality continuing education available to all members of the community.

In March, 1975, Dr. Cady resigned and Dean Levi Hall served as acting president until August, 1975, when the board selected Dr. Carl M. Nelson as President. Dr. Nelson was the fifth President to serve Texarkana College in its 80-plus year history. Construction during Dr. Nelson's administration includes: Stilwell Humanities Building, Pinkerton Recreation Center, Career Education Center Annex, Word Processing Building, expansion of Engineering, Math, and Physics Building, library expansion by A&M Texarkana, the TC Administration Building, Truman Arnold Student Center, and the Social Science Building. In Fall 2000, the new business building was completed and named the W. P. Akin Business and Computer Technology Building.

In July, 2001, Dr. Carl Nelson Died and Dean Frank Coleman was appointed interim president until July 2002, when he was named the sixth president of Texarkana College. Dr. Alan Rasco was appointed by the College Board of Trustees in February, 2009, to serve as the College's seventh president. Dr. Rasco resigned in 2011 and James Henry Russell, CPA, was appointed president in June 2011.

Texarkana College is dedicated to providing academic and vocational leadership to the intellectual, cultural, social and economic life of the northeast Texas region.

GOVERNMENT

Due to restructuring and legislative approval, the Texarkana College Board of Trustees will consist of seven members after the general election in November, 2014. Administration of the policies of the Board is delegated to the President of the College.

CLASSIFICATION, AFFILIATION, STANDING

Texarkana College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees and certificates, the Texas Higher Education Coordinating Board, Texas Board of Nursing, and National League for Nursing Accrediting Commission. The College is also a member of the Southern Association of Junior Colleges, Texas Association of Junior Colleges, National Commission on Accrediting, Texas Association of Collegiate Registrars and office of Admissions, American Council on Education, Texas Junior College Speech and Theatre Association, Texas Music Educators Association, Texas Association of Art Schools, American Technical Education Association, Inc., National League for Nursing,

National Organization for Associate Degree Nursing, Pivot Point International, American Welding Society, Texas Association of Music Schools, National Certification Program of HVAC Excellence, Nation Association of Developmental Educators, National Center for Construction Education and Research, Achieving the Dream, Texas Association of Student Financial Aid Administrators, and the National Association of Student Financial Aid Administrators.

LOCATIONS

Texarkana College's beautiful main campus is located in the northeast border of Texarkana, Texas, at the junction of Robison Road and Tucker Street, which is approximately one mile south of Interstate 30 in Bowie County, Texas. Texarkana College sits on a 90 acre campus, and includes a two acre nature reserve.

The twin cities of Texarkana, Arkansas-Texas are located half way between the Dallas/Fort Worth Metroplex and Little Rock, Arkansas. They are part of a Metropolitan Statistical Area of 129,000. The two cities are widely known for manufacturing, transportation, railroad, lumber, and dairy industries. The area is a sportsman's paradise and offers fine hunting and fishing opportunities.

For the Fall 2010 semester, Texarkana College expanded the course offerings in our Service Area by creating the TC on Main training site. This training site consists of a computer classroom and a lecture classroom, and is located in downtown Atlanta, Texas, at the intersection of Main and William Streets. It is our goal to more efficiently and effectively serve the education needs of the residents of Cass County. Both Academic Credit and Continuing Education CEU course offerings will continue to be the focal point of both the daytime and evening course offerings at the TC on Main Extension Site. This new extension site is open and staffed five days a week by professional admissions and academic counselors.

Texarkana College @ TexAmericas Center was established in 2011 to provide training and education courses for those working at Red River Army Depot and at the TexAmericas Center, as well as to provide easier access to learning in the western part of Texarkana College's service area. The training site consists of two large multipurpose classrooms and an approximately 17,000 square feet of workshop/lab space for workforce training. Academic Credit, Continuing Education CEU courses, and workforce and industry specific courses are offered.

Texarkana College currently offers dual credit classes to the following high schools in our service area: Atlanta, Avery, Bloomburg, DeKalb, Hooks, Simms, Liberty-Eylau, Linden-Kildare, Maud, McLeod, New Boston, Pleasant Grove, Queen City, Redwater and Texas High.

I. ADMISSIONS REQUIREMENTS

It is the policy of Texarkana College to admit students without regard to race, color, sex, disability, age, or national origin.

A. METHODS OF ADMISSION

A person may be admitted to Texarkana College by any one of the following methods:

- Graduates of accredited high schools: Includes both academic and vocational/technical students.
- Individuals with General Education Development (GED) Certificates: Includes both academic and vocational/technical students.
- Individual Approval: A student who is not a graduate of a state accredited high school, but who is 18 years of age or older may be admitted conditionally at the discretion of the Coordinator of Admissions. Students admitted by this method are placed on probationary status for the first semester and remain subject to the requirements of probation until that student has a grade point average of “C” or better.
- Early Admission: A high school student, with the consent of a parent or legal guardian, may be considered for admission. The student must demonstrate outstanding academic performance and capability (as evidenced by a minimum 3.0 GPA and either meet or exceed TSI course requirements) and receive signatures from both the high school principal and chief instructional officer.
- Transfer Students: Texarkana College welcomes transfer students. No more than 75% of the credits required for an associate degree will be accepted for transfer. Military personnel may qualify for additional credits upon presentation of proper documentation and subsequent evaluation according to recommendations set for in ACE guidelines.

B. ADMISSION OF INTERNATIONAL STUDENTS

A citizen of a nation other than the United States of America wishing to apply for admission to Texarkana College should write to the Office of Admissions, Texarkana College, 2500 North Robison Road, Texarkana, Texas 75599. Application forms and instructions are available online.

The completed application and ALL supporting documents (1-6 below) must be received by the Office of Admissions at least two (2) months prior to the desired enrollment date. The applicant will be informed by mail of his/her admission status.

International applicants must provide the following documents prior to the issuance of the I-20 form:

1. Application Form – A formal application for admission must be completed online at www.applytexas.org.
2. Authenticated Copies of all Academic Records - These records should describe the courses of instruction in terms of years spent in school, types of subject matter covered, and grades earned in each subject. Evaluation of the applicant's transcripts and records must reveal that the academic background is equivalent to high school graduation in the United States. Students seeking to transfer from another university or college must submit official transcripts from those institutions. Students seeking advanced standing for academic coursework completed at foreign institutions must have their transcripts evaluated by an independent agency. For more information, contact the Office of Admissions. Student issued copies of high school/university work will NOT be accepted.
3. Proof of English Proficiency – This requirement is normally waived for citizens of the British Isles, Australia, the English-speaking portions of Canada, and New Zealand. All other students will be required to take the Test of English as a Foreign Language (TOEFL). Minimum requirements are a score of 500 on the paper-based TOEFL or 173 on the computer-based TOEFL, or 71 on the Internet-based TOEFL.
4. Financial Affidavit – A letter of certification (dated not more than six months prior to desired enrollment date) from a reputable financial institution (acceptable to the college) stating that the applicant possesses financial resources of at least \$10,900 (U.S.) for each academic year of planned attendance at Texarkana College. College funds are not available for financial aid to students who are not citizens of the United States of America unless they have established resident alien status.
5. Deposit – In addition to the financial affidavit, a minimum deposit of \$2,000 (U.S.) must be made to the Student Accounts Office prior to issuance of the I-20 form. This deposit will be refunded in full if the student does not enroll for the desired semester.
6. Proof of Immunization against Measles-Rubola and Rubella – Immunization is required if the applicant was born after January 1, 1957. The immunization must have been administered after the applicant's first birthday and after January 1, 1968.

If determined to be eligible for admission, the student must file with the registrar proof of adequate medical insurance that includes a repatriation provision and signed authorization for emergency medical treatment. At each subsequent enrollment, the student must file with the registrar evidence that a health insurance program is being maintained.

International students already in the U.S. will be allowed to register for developmental classes by taking the Texas Success Initiative (TSI) test prior to registering for classes. Admission to college-level courses may require completion of some or all of the six steps listed above.

International student are not allowed to participate in late registration. Registration must be completed prior to the end of the regular registration period for each academic term of enrollment.

C. GENERAL REQUIREMENTS FOR ADMISSION

First Time Freshmen

- Complete the application for admission at www.applytexas.org .
- Provide an official high school transcript or GED and all transcripts of credit earned from post-secondary, regionally accredited, institutions. Transfer credits will be evaluated by the Registrar.
- Provide evidence of immunizations as required by state law as required in certain health-related programs.
- Furnish TSI, ACT, SAT, and/or local placement test scores. The new TSI Assessment went into effect the first day of the Fall 2013 semester. Previous TSI assessment test scores will no longer be used to access college readiness after that date.
- All students must see an advisor.
- Graduates who receive their high school diplomas or equivalent from a non-traditional means such as home study, private schools, etc. must satisfactorily pass all parts of the ACT, SAT, TSI, or Local Placement Exams prior to enrollment in order to enroll in good standing. Students who elect not to take any of these tests or score below passing on any part, are admitted on probationary status and are not eligible to receive any financial aid for the first semester of enrollment.
- Texas Senate Bill 1107 as amended by Senate Bill 62, requires that students under the age of 22 entering a public, private, or independent institution of higher education in Texas provide proof of immunization for bacterial meningitis. **The vaccination or booster dose must have been received during the five years prior to enrollment and at least ten days before the start of classes.** Students who have been previously enrolled at Texarkana College, and are enrolling following a break in enrollment of at least one fall or spring semester will be subject to the vaccination requirement. Students transferring from another institution of higher education will also be subject to the vaccination requirement. **Texarkana College requires you to meet this requirement before you will be allowed to register for classes.** To find out what forms you must

submit or to see if you might be exempt from the requirement visit our website at www.texarkanacollege.edu/meningitis.

Transfer Students

- Complete the application for admission at www.applytexas.org .
- Provide an official high school transcript or GED and all transcripts of credit earned from post-secondary institutions. Transfer credits will be evaluated by the Registrar.
- Provide evidence of immunizations as required by state law as required in certain health-related programs.
- Furnish TSI, ACT, SAT, and/or local placement test scores. The new TSI Assessment went into effect the first day of the Fall 2013 semester. Previous TSI assessment test scores will no longer be used to access college readiness after that date.
- All students wishing to enter a workforce program must see an advisor.
- Graduates who receive their high school diplomas or equivalent from a non-traditional means such as home study, private schools, etc. must satisfactorily pass all parts of the ACT, SAT, TSI, or Local Placement Exams prior to enrollment in order to enroll in good standing. Students who elect not to take any of these tests or score below passing on any part, are admitted on probationary status and are not eligible to receive any financial aid for the first semester of enrollment.
- Texas Senate Bill 1107 as amended by Senate Bill 62, requires that students under the age of 22 entering a public, private, or independent institution of higher education in Texas provide proof of immunization for bacterial meningitis. **The vaccination or booster dose must have been received during the five years prior to enrollment and at least ten days before the start of classes.** Students who have been previously enrolled at Texarkana College, and are enrolling following a break in enrollment of at least one fall or spring semester will be subject to the vaccination requirement. Students transferring from another institution of higher education will also be subject to the vaccination requirement. **Texarkana College requires you to meet this requirement before you will be allowed to register for classes.** To find out what forms you must submit or to see if you might be exempt from the requirement visit our website at www.texarkanacollege.edu/meningitis.

Transient Students

- Definition: Applicants who are currently attending another college or university and want to attend **Texarkana College** for **one semester**, then return to their home college.

- Students enrolled at other colleges or universities may apply for temporary admission and registration at Texarkana College as a transient student. Transient students are expected to return to the college or university in which they were previously enrolled to complete degree requirements at those institutions.
- A **Transient student** must do the following to be considered for this applicant status:
 - Submit a student application at www.applytexas.org. *The student admissions basis would be “Transient – non degree seeking”*
 - Provide official transcript from the college or university they are currently attending.
 - Provide proof of meningitis immunization if under 22 years of age.
 - Meet TSI requirements.

Students wishing to seek transient status for two consecutive semesters must provide a written statement from the registrar or academic dean at their institution recommending continued admission to Texarkana College.

Transient students who plan to transfer to Texarkana College must apply for readmission and meet all transfer student guidelines as outlined in the college catalog.

D. TEXAS SENATE BILL 1107 – BACTERIAL MENINGITIS

This information is being provided to all new college students in the state of Texas. Bacterial Meningitis is a serious, potentially deadly disease that can progress extremely fast – so take utmost caution. It is an inflammation of the membranes that surround the brain and spinal cord. The bacteria that causes meningitis can also infect the blood. This disease strikes about 3,000 Americans each year, including 100-125 on college campuses, leading to 5-15 deaths among college students every year. There is a treatment, but those who survive may develop severe health problems or disabilities.

WHAT ARE THE SYMPTOMS?

- High fever
- Severe headache
- Rash or purple patches on skin
- Vomiting
- Light sensitivity
- Stiff neck
- Confusion and sleepiness
- Nausea
- Lethargy
- Seizures

- There may be a rash of tiny, red-purple spots caused by bleeding under the skin. These can occur anywhere on the body.
The more symptoms, the higher the risk, so when these symptoms appear seek immediate medical attention.

HOW IS BACTERIAL MENINGITIS DIAGNOSED?

- Diagnosis is made by a medical provider and is usually based on a combination of clinical symptoms and laboratory results from spinal fluid and blood tests.
- Early diagnosis and treatment can greatly improve the likelihood of recovery.

HOW IS THE DISEASE TRANSMITTED?

- The disease is transmitted when people exchange saliva (such as by kissing, or by sharing drinking containers, utensils, cigarettes, toothbrushes, etc.) or come in contact with respiratory or throat secretions.

HOW DO YOU INCREASE YOUR RISK OF GETTING BACTERIAL MENINGITIS?

- Exposure to saliva by sharing cigarettes, water bottles, eating utensils, food, kissing, etc.
- Living in close conditions (such as sharing a room/suite in a dorm or group home).

WHAT ARE THE POSSIBLE CONSEQUENCES OF THE DISEASE?

- Death (*in 8 to 24 hours from perfectly well to dead*)
- Permanent brain damage
- Kidney failure
- Learning disability
- Hearing loss, blindness
- Limb damage (fingers, toes, arms, legs) that requires amputation
- Gangrene
- Coma
- Convulsions

CAN THE DISEASE BE TREATED?

- Antibiotic treatment, if received early, can save lives and chances of recovery are increased. However, permanent disability or death can still occur.
- Vaccinations are available and should be considered for:
 - Those living in close quarters
 - College students 22 years old or younger

- Vaccinations are effective against 4 of the 5 most common bacterial types that cause 70% of the disease in the U.S. (but does not protect against all types of meningitis).
- Vaccinations take 7-10 days to become effective, with protection lasting 3-5 years.
- The cost of vaccine varies, so check with your health care provider.
- Vaccination is very safe – most common side effects are redness and minor pain at injection site for up to two days.
- Vaccination may be available at your health care provider or local or regional Texas Department of Health Office.

HOW CAN I FIND OUT MORE INFORMATION?

- Contact your own health care provider.
- Contact your local or regional Texas Department of Health office.
- Contact web sites: www.cdc.gov/ncidod/dbmd/diseaseinfo; www.acha.org

E. SPECIAL ADMISSION REQUIREMENTS

Texarkana College reserves the right to require additional information for admission to certain programs. Some examples are Emergency Medical Technology, Associate Degree Nursing, and Vocational Nursing. The specific requirements can be found with the individual programs in the College catalog/handbook. Please check requirements and plan ahead.

F. REQUIRED ASSESSMENTS & EXEMPTIONS

The Texas Success Initiative (TSI) requires students to be assessed in reading, math, and writing prior to enrolling in college. Beginning in the Fall of 2013, Texas only accepts the TSI Assessment as fulfillment for this requirement. All students must complete a Pre-Assessment Activity before they can take the Assessment. The Pre-Assessment Activity can be found at <https://www.tsipreview.com/welcome/Texarkana-College>. Upon completion of the Activity, the student will be emailed verification that he/she has completed the activity. Students must then take a copy of this email to an Advisor in the Advising Center. The Advisor will then give the student a referral form to take to the Testing Center. Upon payment of the testing fee, the student will be allowed to take the TSI Assessment. Once the TSI Assessment has been completed, the student will receive a copy of his/her scores to take back to the Advising Center. If indicated by the scores on the assessment, the Advisor will place the student in developmental education courses.

Texas Success Initiative (TSI) Exemptions

- Transfer coursework from an out-of-state institution with a grade of C or better in certain courses;

- Transfer coursework from a state, private, or independent institution of higher education with a grade of C or better in certain courses;
- Active duty military service or members of reserve armed forces serving for at least 3 years preceding enrollment;
- Student who on or after August 1, 1990, was honorable discharged, retired, or released from active duty as a member of the armed forces of the United States or the Texas National Guard or service as a member of a reserve component of the armed forces of the United States;
- Earned Associate or Baccalaureate degree from an institution of higher education;
- ACT composite score of 23 or higher with a minimum of 19 on the math and/or English sections (scores are good for 5 years);
- SAT total score of 1070 combined with a minimum of 500 on the math test and/or 500 on the test (scores are good for 5 years);
- TAKS (exit level): 2200 ELA + 3 on essay; 2200-MATH; (scores are good for 5 years)
- Students with previous TASP exemptions may be determined to have satisfied TSI criteria

Waivers

- Non-degree or non-certificate seeking student;
- Enrollment in most Level 1 certificate programs.

Workforce & Certificate Requirements

All students must take the TABE exam and meet with an Advisor in the Advising Office. The following programs require that a student make a certain score on the TABE exam:

- Auto Body Technology (TABE score of 8.7)
- Automotive Technology (TABE score of 8.9)
- Certified Nursing Assistant (Reading TABE score of 8.7; Math TABE score of 8.6)
- Cosmetology (TABE score of 12.5+)
- Construction Technology (TABE score of 8.7)
- Culinary Arts (TABE score of 8.9)
- Diesel Technology (TABE score of 8.9; Academic Prep is required for this group on the Main Campus)

- Electronics/Instrumentation Technology (TABE score of 8.9)
- Electrical Technology (TABE score of 8.9)
- Emergency Medical Technician (Reading TABE score of 12.5+; Math TABE score of 12.2+)
- Air Conditioning/Heating & Refrigeration Technology (TABE score of 8.9)
- Industrial Maintenance (TABE score of 8.9)
- Office Careers (TABE score of 12.5+)
- Pharmacy Technician (Reading TABE score of 9.4; Math TABE score of 8.9)
- Welding (TABE score of 8.9)

G. TRANSFERS/RESOLUTION OF TRANSFER DISPUTES

Texarkana College works closely with colleges and universities to make the transfer process as smooth as possible for courses transferred to TC from the other institutions and follows guidelines to resolve transfer disputes.

The Texas Higher Education Coordinating Board has established procedures (see below) to be followed when transfer credit for lower-division courses listed in the Academic Course Guide Manual (ACGM) are disputed. The individual courses covered by this procedure are defined in the Coordinating Board's guide entitled, "Transfer of Credit Policies and Curricula."

Resolution of Transfer Disputes for Lower-Division Courses

The following procedures shall be followed by public institutions of higher education in the resolution of credit transfer disputes involving lower-division courses.

- If an institution of higher education does not accept course credit earned by a student at another institution of higher education, the receiving institution shall give written notice to the student and to the sending institution that transfer of a course is denied. The receiving institution will also give the reasons for denying credit for a particular course or set of courses at the request of the sending institution.
- The two institutions and the student shall attempt to resolve the transfer of the course credits in accordance with the Texas Higher Education Coordinating Board rule and/or guidelines.
- If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the institution whose credit is denied for transfer shall notify the Commissioner of the Higher Education Coordinating Board of the denial.
- The Commissioner of the Higher Education Coordinating Board, or the Commissioner's designee, shall make the final determination about the dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions.

NOTE: It is the responsibility of the student to check with the college or university to which they plan to transfer for all requirements. The student should know admissions policies, specific department requirements, deadlines, and courses that will satisfy degree requirements.

H. What is Prior Learning?

Prior Learning Assessment (PLA) is the process of earning college credit for college-level learning acquired from other sources, such as work experience, professional training, military training, or open source learning from the web.

A student who can show he/she has the knowledge and/or ability may be able to earn credit for a specific class at Texarkana College without enrolling in it.

Guidelines

1. Credit for Prior Learning evaluative processes must be initiated by the student requesting credit. Students must complete the Prior Learning Credit Application and turn it in to the Texarkana College Student Accounts Office.
2. Meet all Texarkana College admissions and TSI requirements
3. Complete six hours of Texarkana College non-developmental credit hours prior to receiving credit for prior learning
4. Provide official documentation (transcripts, license/certification, etc.) supporting the request for credit for prior learning
5. Academic credit will be awarded only for those courses directly applicable to curriculum requirements at Texarkana College and to the student's declared certificate or degree program as outlined in college publications.
6. **No more than 50%** of a credit certificate or Associate of Science/Associate of Arts degree may be earned through credit for prior learning. **No more than 75%** of an Associate of Applied Science degree may be earned through credit for prior learning.
7. If necessary, pay assessment fees in the Student Accounts Office
8. Financial aid/veteran's assistance is not available for CPL credit.

Students interested in earning credit through Prior Learning may want to take:

Developing Your Portfolio for College Credit: *Developing Your Portfolio for College Credit is an online self-paced course that guides students step-by-step through the preparation of components required for a LearningCounts prior learning assessment portfolio evaluation, which may be worth college credit. After completing the course, students can submit a portfolio for assessment by CAEL-trained faculty (cost for each portfolio assessment is \$125).*

Please be aware that credit for prior learning awarded at Texarkana College may not be applicable to certificates or degrees at other colleges or universities. A student who intends to transfer to another college or university should consult with a transfer advisor at that institution concerning the transferability of Texarkana College prior learning credit.

Credit by Examination

College Level Examination Program (CLEP)

Texarkana College awards credit for appropriate scores on the nationally-recognized CLEP exams. Information on how to sign up to take CLEP exams can be found on the Assessment and Testing Center's web site at <https://www.texarkanacollege.edu/admfinaid/credit-by-exam/>.

Cost of CLEP examinations: The College Board Charges \$80 for each exam. In addition, Texarkana College charges an administrative fee of \$20 per exam and an additional \$10 for the grading of the ENGL 1301 essay. A grade of "CR" is posted on the transcript. There is no charge for transcription of the grade. Please indicate that you want your score(s) sent to Texarkana College when filling out the CLEP paperwork.

The table below indicates which CLEP exams Texarkana College will accept and how much credit will be awarded if accepted. There are more CLEP exams than listed in the table below, but TC will only accept credit for those listed below. There is no charge for transcription of CLEP credit.

Subject Examinations	Equivalent Course(s)	Semester Hours	Score
Financial Accounting	ACCT 2301,2302	6	50

International Baccalaureate (IB)

Texarkana College will award college credit in subject appropriate areas of all IB exams scores of 4 or above as long as the incoming freshman has earned an IB Diploma. However, course credit does not have to be awarded on any IB exams where the score received is a 3 or less. Students must send an IB transcript confirming credit to the college. A grade of “CR” is posted on

transcripts. All IB students must show proof of meeting the TSI requirements. There is no charge for transcription of IB credit.

Subject appropriate scores are listed in the table below.

IB Exam	Equivalent Course	Semester Hours	Score
English Language and Composition	ENGL 1301	3	4+
Biology	BIOL 1406 & 1407	8	4+
Chemistry	CHEM 1411 & 1412	8	4+
Economics	ECON 2302 & 2302	6	4+
History	HIST 1301 & 1302	6	4+
Psychology	PSYC 2301	3	4+

Assessment by Local Exam

Some Texarkana College courses are available for credit by way of an internal proficiency exam developed by the division. These exams are developed and graded by faculty members. For information on these exams, please contact the division chair. Approval to take examinations does not guarantee award of credit: other conditions, such as appropriate score, must be satisfied. Students must make at least a “C” on the exam to receive credit for the course. A grade of A, B, or C will be entered on the transcript with a notification that the assessment was given by local exam.. The fee charged for an internal proficiency exam is equal to the amount of tuition charged for the similar amount of credit if a student took a face-to-face class. Students must submit the non-refundable payment to the Student Accounts Office in the Administration Building prior to taking the exam.

Students may not request credit by local exam for previously taken or attempted courses.

1. **Previously Taken** - Record of the course appears on Texarkana College or transferring institution’s transcript
2. **Attempted** - Course dropped after official census date resulting of a “W” on the transcript

Professional Exams

If you have mastered a skill or competency through the completion of nationally recognized professional exams, you may be eligible for credit related to your Texarkana College degree or certificate requirements. Faculty members in the discipline will determine whether and how much credit will be awarded for specific professional exams. In these instances, the exam must directly align with a college course. Credit awards are based on the [American Council of Education](#) recommendations. The student must submit a Prior Learning Credit Application along with a

\$50.00 non-refundable application fee to the Student Accounts Office. If the faculty committee determines that credit can be awarded for a specific number of semester credit hours, the student will be notified. If the student wants the credit transcribed to his/her TC transcript, the fee charged for transcription of credit is equal to the amount of tuition charged for the similar amount of credit if a student took a face-to-face class. The awarding of credit is dependent upon faculty recommendation. If credit is given, a grade of “CR” is posted on the student’s transcript.

Credit for Military Training and Service

You may be able to receive credit for training received while in the military. For military training to be considered for credit, please order a copy of your Military Joint Services Transcript (JST) by going to <https://jst.doded.mil/smart/signin.do> or an Air-Force/CCAF transcript at www.au.af.mil/au/ccaf/transcripts.asp. Request that the transcript be sent to the registrar’s office.

You will need to complete the Prior Learning Credit Application and specify what documents you would like evaluated for military and previous college transcripts. There will be no charge for transcription of credit given for military training and service from a Joint Services Transcript or CCAF transcript.

Industry/Professional Certification Credit

Certain industry and professional certifications are eligible for Texarkana College credit. The student must contact the appropriate division dean during his/her first term if certification credit is being sought. The student must provide direct evidence of the secured certification. The certification or license must be current. For example, a student with a current certified nursing assistant certificate, Texas or Arkansas, may apply for prior learning credit for NURA 1301 and NURA 1160. Faculty members in the discipline will determine if and how much credit will be awarded for a specific certification. In these instances, the training must directly align with a college course. The student must submit a Prior Learning Credit Application along with a \$50.00 non-refundable application fee to the Student Accounts Office. If the faculty committee determines that credit can be awarded for a specific number of semester credit hours, the student will be notified. If the student wants the credit transcribed to his/her TC transcript, the fee charged for transcription of credit is equal to the amount of tuition charged for the similar amount of credit if a student took a face-to-face class. The awarding of credit is dependent upon faculty recommendation. If credit is given, a grade of “CR” is posted on the student’s transcript.

CEU Mirror SCH Classes

A Mirror Course is the articulation of a CEU or non-credit (concurrent) course into a for-credit course applicable toward a certificate or associate’s degree. The continuing education courses must meet the same rigor, evaluation process, and faculty guidelines as the equivalent for-credit courses. The documentation must demonstrate that individual continuing education students have met the same competencies as the successful for-credit students prior to making the decision to award credit for a course taken as continuing education. The course must be offered as both credit and

non-credit following THECB and WECM guidelines. There will be no charge for transcription of credit for mirrored CEU courses.

If a student is completing a mirrored class as part of a grant program, the student must complete the requirements set forth in the grant in order for the credit to be articulated.

To start this process, the student must see her/his advisor at the college to obtain the Application for Prior Learning Credit Application for CEU to Credit. At this time the advisor will review the student's records to verify the course was taken. If a CEU to Credit articulation agreement is in effect, only students who have earned CEU's with a grade of "P" may apply for articulated credit.

I. RESIDENCY DEFINITIONS FOR TUITION AND FEES PURPOSES

A **Texas resident** is defined as a U.S. citizen (or dependent of a U.S. citizen for the current and preceding year) who has resided continuously in Texas for at least 12 months immediately preceding registration.

An **In-District Resident**: A resident of the State of Texas who:

1. has resided continuously in Texarkana College's taxation district for a period of at least six months preceding registration and who was not claimed as a dependent for federal income tax purposes by the individual's parent or guardian for the current tax year or for the preceding year in which the individual registers. A residence change from within the district to outside of the district during the first 12 class days of the fall or spring semester (first 4 class days of the summer sessions) will result in the student being charged the additional out-of-district tuition fees.
2. is a dependent of a Texas resident (claimed as a dependent for federal income tax purposes by the individual's parent or guardian at the time of registration and for the preceding tax year) whose parent or guardian has resided continuously in Texarkana College's taxation district for a period of at least six months immediately preceding registration.

An **Out-of-District Resident**: A resident of the State of Texas who:

1. has not resided continuously in Texarkana College's taxation district for a period of at least six months immediately preceding registration and is independent for income tax purposes for the current year and preceding tax year.
2. is a dependent of a Texas resident (claimed as a dependent for federal income tax purposes by the individual's parent or guardian at the time of registration and for the preceding tax year) whose parent or guardian has not resided continuously in Texarkana College's taxation district for a period of at least six months immediately preceding registration.

A **Resident Alien**: An alien living in the United States who:

1. is under a visa permitting permanent residence and has the same privilege of qualifying for Texas resident status for tuition purposes as do United States citizens. Under this status the Resident Alien card or appropriate documentation indicating that the student has filed an I-485 form with the Immigration and Naturalization Service must be submitted before the student may register. Students who fail to present the Resident Alien card or appropriate documentation during the registration process will be required to pay non-resident tuition. Resident aliens wishing to be classified as Texas residents must also verify that they have resided in the state at least 12 months prior to registration.

A **Non-Resident** is a non-resident of the State of Texas, but a citizen of the United States of America who:

1. has not resided continuously in the State of Texas for a period of at least 12 months immediately preceding registration and is independent for income tax purposes for the current year and preceding tax year; or
2. is a dependent (claimed as a dependent for federal income tax purposes by the individual's parent or guardian at the time of registration and for the preceding tax year) whose parent or guardian has not resided continuously in the State of Texas for a period of at least 12 months preceding registration.

Ad Valorem: The Board of Trustees of Texarkana College authorizes the waiver of the difference in the rate of tuition for the out-of-district or non-resident and in-district student or his/her dependent(s) who owns property purchased by or before the time of enrollment which is subject to ad valorem taxation by the Texarkana College District. The individual, or his/her dependents, applying for such waiver shall verify property ownership by presentation of an ad valorem tax statement or receipt, issued by the tax office of the District; or by presentation of a deed, property closing statement, or other appropriate evidence of ownership of property which is subject to ad valorem taxation by the District. This must be done prior to registration.

An **Alien or Foreign student** is defined as a student who is a citizen of any country other than the United States of America.

J. RESIDENCY VERIFICATION REQUIREMENTS

New students as well as returning students who were not enrolled the previous semester are required to submit proof of the Texas and In-District residency (when applicable). Verifications should be submitted when application is made or during registration. Failure to provide residence verification or the addition fees owed will result in denial of future registrations as well as a hold being placed on the student's records.

Students planning to apply for a partial tuition refund by providing residence documentation that will result in a residence status changes must do so before the official reporting date (as set by the Coordinating Board of Texas) for the current semester. Such refunds will be made for the current semester only and not for prior semesters attended

Official reporting dates are as follows:

- Fall and Spring semesters: 12th class day
- Summer Sessions: 4th class day
- Classes of varying lengths: prorated accordingly

If an error is detected in residency determination – either by administrative staff or by erroneous information on the residence portion of the application – additional tuition may be charged during the semester. Failure to pay the additional charges will result in a hold being placed on the student’s record.

K. TUITION, FEES & EXEMPTIONS

Tuition and fees are subject to change upon approval by the TC Board of Trustees.

Review the charts on the next three pages to determine your tuition and mandatory fees for a semester at Texarkana College. Please note that these amounts do not include the Course Fees or Other Fees that may apply. These rates are effective Fall 2015.

In-district denotes students who are residents of the Texarkana College district (Bowie County). Out-of-district students are those who do not reside within the Texarkana College district (Bowie County), but live in Texas, Arkansas or Oklahoma. All others are considered non-residents.

VN ATI.....	- <i>per semester</i>

State law requires that students who receive exemption and/or waivers to tuition and fee charges make due progress toward the completion of a degree or certificate in order to continue receiving benefits. At Texarkana College, students receiving exemptions and/or waivers to tuition and fee charges must maintain all requirements listed in the Financial Aid Standards of Academic Progress (FA-SAP). These requirements can be found at <https://www.texarkanacollege.edu/admfinaid/finaid/satisfactory-academic-progress/>.

L. PAYING FOR COLLEGE

Students are encouraged to pay in full when they register. However, students are allowed to register without immediate payment to allow for processing or setup of financial aid, scholarships, third-party billing, installment plans, etc. All registered students **MUST PAY IN FULL** by the **PAYMENT DEADLINE** each term. The payment system will run daily after the payment deadline. Students registering for the first time or re-registering after the payment deadline will be

required to pay in full the same day they register. The balance due must be zero. Example: Students who register on Monday must pay in full on the same Monday.

If a student's balance does not equal zero or less, the following actions are taken:

TOTALLY UNPAID: Students registered for courses who have not:

- made any payment
- received and applied any financial aid and/or scholarships
- applied third party billing to their account

will be dropped from ALL registered courses.

PARTIALLY UNPAID: Students registered for courses that have partially unpaid balances due to any reason, including but not limited to:

- additional courses added after original registration and payment
- dropped courses replaced with a course(s) resulting in an increased balance
- total balance not covered by financial aid, third party billing, or scholarships

will be dropped from unpaid course registrations until the account balances to zero. Courses with the latest start date will be dropped first. Then courses will be dropped according to registration date and time. These courses will be dropped the following business day.

Students are responsible for ensuring that their financial aid, third party billing, or scholarship has been applied to their account by the payment deadline.

METHODS OF PAYMENT

The college accepts the following methods of payment:

- Online Payments
 - Credit Cards: MasterCard or Visa
 - Debit Cards: Must have a MasterCard or Visa affiliation
- In-person payments to the Student Accounts Office during regular business hours
 - Credit Cards: MasterCard or Visa
 - Debit Cards: Must have a MasterCard or Visa Affiliation
 - PIN based
 - Checks
- Personal Checks
- Company checks, cashier checks, money orders, or loan checks from credit cards or other financial institutions will be processed as a normal paper check and included with the normal deposits of the College.

- The College assesses a \$30 processing fee for each stopped payment or returned check. An individual who has had a check returned must then pay the College by cash, cashier's check, money order or credit card.
 - Cash: Legal currency of the United States
- Third Party Payment: Payments made by third party vendors via letters, purchase orders, or invoices must be presented in person to the Student Accounts Office each semester in order for the student's account to be updated. Students are liable for any unpaid balances.
- Exemptions/Waivers-Documentation must be submitted in person to the Student Accounts Office each semester in order for the student's account to be updated. Students are liable for any unpaid balances.
- Scholarships – Funds from outside scholarships must be received before student accounts can be updated. TC scholarships will be posted upon registration and verification of award.
- Financial Aid – Funds from TC grants or student loans will be posted upon registration and verification of award.
- Installment Payment Plan – See below for details on setting up and paying through an installment plan.

INSTALLMENT PAYMENT PLAN

Texarkana College offers a payment plan through **Nelnet Business Solutions** (formerly FACTS Management) for the total of tuition, fees, and any on campus housing. Students sign up for the payment plan online through the "myTC" link on www.texarkanacollege.edu. In the "Payment" box, choose the link to "Make a payment plan." Payment options vary by semester and registration date. Payment plans are not available for mini-mester or summer academic terms.

A student who fails to make full payment for the balance due, including incidental fees, by the final payment due date will be prohibited from registering for classes until the balance due is paid in full. A student who fails to make payment prior to the end of the semester may be denied credit for the work done that semester.

The payee (Texarkana College) reserves the right to withdraw the student from class if the Note (balance due) is not paid in full by the final payment due date. If the Promiser (student) is withdrawn and subsequently pays the balance due in full, the Promiser may petition the Registrar, through Enrollment Services, for reinstatement.

Students who default on an installment plan through Nelnet may have future installment plan privileges revoked by Texarkana College.

Step by Step instructions

Payment Methods

- Automatic bank payment (ACH)
- Credit card/debit card

Cost to Participate

- \$30.00 Enrollment Fee per semester
- \$30.00 Nonrefundable returned payment fee if a payment is returned

Simple Steps to Enroll

- Log into myTC and click on the Student Tab
- Click on Billing and Payments
- Click on Installment Payments (right hand side of screen)
- Select Year/Term from drop down menu - click 'Submit'
- Scroll down to the bottom and click the 'Calculate My Bill' button
- It will show your Balance Due
- Click on logo - Ecashier Monthly Payment Plan
- Follow Nelnet Instructions

Payments are processed on the 5th of the month and will continue until the balance is paid in full. Should a payment fail, your reprocess date will be provided on the Missed Payment Notification.

How do I access my payment plan AFTER I have set it up?

Once you receive your Confirmation Letter, log on to www.mypaymentplan.com. The Confirmation Letter will have all of the information you will need for setting up your account. You will receive your Confirmation Letter within a day or so after setting up your payment plan agreement.

Payment Plan Benefits:

- Easy online enrollment
- Flexible payment options
- No interest

Target Dates To Enroll By

Fall 2014 will be available on April 28, 2014

Fall 2015 will be available on April 20, 2015	Required Down Payment	Number of Payments	Months of Payments
June 30	none	5	July - Nov
Aug 11	25%	3	Sept - Nov

NOTE: All down payments, full payments and enrollment fees are processed immediately and cannot be stopped once you click Submit and Activate.

Payment Plan Availability

Availability of the Payment Plan is determined by Texarkana College. Please be aware the college may elect not to have the Payment Plan available during specific times and dates during registration.

Please **do not assume your balance will automatically be adjusted** if financial aid is received or a class is dropped or added. You should review your agreement balance online through mypaymentplan.com or call Texarkana College at 903-823-3331 to confirm the change.

DELINQUENT ACCOUNT

Any student who is delinquent in paying debts to Texarkana College will be placed on “hold.” “Hold” status means that you will be unable to transact any business on campus. You will not be able to get a transcript, and you will not receive grades for your classes.

Debts include:

- 1) Tuition
- 2) Fees
- 3) Fines
- 4) Returned check penalties
- 5) Payment plan payments
- 6) Amounts owed on student aid (grants, scholarships, etc.)
- 7) Restitution for loss or damage to college property

Students must pay all debts in full before they are taken off “hold.” You will not be able to re-enroll for the next semester until this is completed.

LATE CHARGES AND OTHER EXPENSES

Texarkana College charges a \$30 processing fee for each stopped payment or returned check. Returned checks include electronically converted checks that have been rejected by the bank. An individual who has had a check returned must then pay the College by cash, cashier's check, money order, or credit card.

Nelnet charges a \$30 fee for each payment that is drafted unsuccessfully on our Installment Payment Plan.

M. REFUND POLICY

To be eligible for a refund, students must officially drop individual courses or completely withdraw from the College by the deadline in the Refund Schedule. Students may find the specific dates for the Refund Schedule online for each term. Specific provision of the Texas Administrative Code, Title 19, Part I, Chapter 21, Subchapter A, Rule 21.5 "Refund of Tuition and Fees at Public Community/Junior and Technical Colleges," governs the refund schedule. Only the Texas Legislature or the Texas Higher Education Coordinating Board, authorized by the Legislature, can alter this schedule.

Certain costs such as a registration fees, parking, and insurance are not refundable. A class day is defined as any day on which classes are held at the college – normally Monday through Friday.

The College will process refunds only after completion of all other registration responsibilities.

REFUND TABLE

100% refund.....	Prior to the first class day (less \$15 matriculation fee)
70% refund.....	First through fifteenth class day
25% refund.....	Sixteenth through twentieth class day

NOTE: If you are on the Installment Payment Plan and have not made all installments, your refund may apply to any outstanding payments

Non-course related fees such as registration, parking, public safety fee, and insurance are not refundable.

A class day is defined as any day which classes are held at Texarkana College – not just the particular class you are enrolled in and have dropped.

Any term other than a 16 week term will have refund dates adjusted according to state refund policies. Please look online at the class term schedule or phone Texarkana College at 903-823-3331.

N. AUDIT POLICY

Permission to audit certain courses is granted by the Registrar to students who meet the regular admission requirements if vacancies exist at the close of regular registration. No class or registration records are maintained on audit students.

“Application for Audit” forms may be obtained in the Office of Admissions. Charges for auditing eligible courses are the same as for regular registration in the course. No refunds are made on audit fees or tuition.

O. REPEATED COURSES

Courses may be repeated for possible grade improvement. The only way a course grade may be raised is by repeating the course and earning a higher grade. If a course is repeated and a lower grade is earned, then the first grade will remain the grade of record. However, when a student repeats a course, all grades remain on the record with a notation for the course(s) no longer used in GPA calculation. It is the student’s responsibility to fill out a course repeat form which will adjust the cumulative grade point average to reflect the higher grade received for the course. When a course is repeated, the credit hours will be counted only once toward graduation, unless a degree plan specifies that a course may be repeated for additional credit. If a student registers again for a course with a current mark of “I,” the “I” becomes an “F.”

For example, students may take the same P.E. two times for credit at TC. Students are encouraged to take a P.E. class each semester for their present and future health. Texarkana College students should check with the school to which they plan to transfer to determine the number of physical education courses required by that institution. No more than four (4) SCH of PE Activity courses can be applied toward meeting degree/certification requirements.

REPEAT COURSE FEES

The Texas Legislature has mandated that a course repeated by a student more than twice at a public institution of higher education may not be reported for state funding. This mandate is called the “3-Peat Rule.” For a course being “3-Peated” (taken for a third or more time), students will be charged an additional fee of \$75 per semester credit hours (\$225 for a three credit hour course) in addition to the regular tuition and required fees associated with the course. These fees will apply unless the course may be repeated for credit according to a degree plan. Texarkana College scholarship funds will not be applied for a course repeated for the third or more times: students will be responsible for the “3-Peat” course fees.

P. SIX DROP POLICY

Under Section 51.907 of the Texas Education Code, “an institution of higher education may not permit a student to drop more than six courses, including any course a transfer student has dropped at another institution of higher education.” This statute was enacted by the State of Texas in spring 2007 and applies to students who enroll in a public institution of higher education as a first-time freshman in the fall 2007 or later. Any course that a student drops is counted toward the six-course limit if “(1) the student was able to drop the course without receiving a grade or incurring an academic penalty; (2) the student’s transcript indicates or will indicate that the student was enrolled in the course; and (3) the student is not dropping the course in order to withdraw from the institution.” Some exemptions for good cause could allow a student to drop a course without having it counted toward this limit, but it is the responsibility of the student to establish that good cause. Contact the Office of the Registrar for more information before you drop a course.

Texarkana College recommends that students give careful consideration before dropping a course due to the six drop policy and the potential impact on student financial aid.

Q. UNDERGRADUATE CREDIT HOUR LIMITATION

According to the Texas Education Code, Section 54.068, institutions of higher education may charge a higher tuition rate, not to exceed the rate charged to nonresident undergraduate students whose hours exceed the following limitations:

- 45 or more semester credit hours beyond the minimum number of hours required for completion of the degree program in which the student is enrolled;
- an undergraduate student at a four-year institution who is not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours;
- students who enroll on a temporary basis in a university or health-related institution, and are also enrolled in a private or independent institution of higher education or an out-of-state institution of higher education are considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours;
- an undergraduate student who has entered into a master’s or professional degree program without first completing an undergraduate degree is considered to no longer be an undergraduate after having completed the equivalent of a bachelor’s degree or all of the course work normally taken during the first four years of undergraduate course work in the student’s degree program;
- students are treated for funding purposes as having whatever major they had on the official census day of the term in question. If a student changes majors during a term, that act does not retroactively change their eligibility under the limit;

- the following types of credit hours are exempt and do not count toward the limit:
 - hours earned by the student before receiving a baccalaureate degree that has been previously awarded to the student;
 - hours earned through examination or similar method without registering for a course;
 - hours from remedial and developmental courses, technical courses, workforce education courses, or other courses that would not generate academic credit that could be applied to a degree at the institution;
 - hours earned by the student at a private institution or an out-of-state institution; and
 - any hours not eligible for formula funding.

Questions regarding this law should be directed toward the Office of Admissions.

R. MYTC & IDENTIFICATION CARDS

WE NEED YOUR PICTURE

If you are a new student, make sure you have your picture taken in the Office of Admissions for your myTC Card. If you are a returning student and have not had your picture taken and/or do not have your myTC Card, you will also need your picture taken in the Office of Admissions. Students are also required to get an official Student ID from the Office of Admissions.

WHO NEEDS A MYTC CARD?

Applying for financial aid? You will need the myTC Card. Not receiving financial aid? Yes... even you will need to have this card. The Texarkana College myTC Card will be issued to students when they have completed their registration process. The cards are automatically issued by TC and mailed by Higher One to students. NOTE: the envelope is a bright green color and does not have Texarkana College written on the outside. Make sure you do not mistake this for junk mail and throw it away. All students will receive the card, whether they are scheduled to receive financial aid or not. This is not a credit card.

The debit MasterCard ensures fast delivery of funds through electronic means, ending the process of issuing paper financial aid and refund checks. Students need to make sure their address and personal information is correct on their student account (verify with our Office of Admissions). It

is important that you activate your myTC Card immediately upon arrival, via the web site listed on the back of the card, and keep it throughout your entire duration with the College for future financial aid/refund uses. For more information, please visit www.myTCcard.com.

HOW TO AVOID FEES ON YOUR CARD

- Withdraw money from the HigherOne ATM located in the Truman Arnold Student Center.
- When using your card to make a purchase, be sure to swipe as a CREDIT CARD. DO NOT USE A PIN.
- If you swipe it as a debit card, HigherOne will charge a debit fee for your transaction.
- Keep your account active to avoid additional charges.
- There is a \$25 fee for a replacement card – keep your card in a safe place.
- You can view a list of all fees at:
<https://mytccard.higheroneaccount.com/studentaccount/feeschedules.do>

WHO TO CONTACT IF YOU NEED HELP

- By mail: HigherOne, 25 Science Park, Box 201, New Haven, CT 06511
- By phone: toll free 1-877-405-1817
- Online: www.myTCcard.com

FINANCIAL AID DISBURSEMENTS

Financial Aid funds are officially applied (disbursed) to your student account after the census date. The census date may be different depending on the length of the term.

Once the financial aid funds are applied to your account, any balance must be paid in full by the student. If there are funds not used, this amount is disbursed to the student. All of these issues depend on the student's enrollment status, number of hours enrolled, etc.

Student refunds are issued within 14 days of the disbursement of aid to the student account. This date is different for each semester and subterm.

S. GUARANTEE FOR TRANSFERABILITY/JOB COMPETENCY

Texarkana College guarantees to its Associate of Arts and Sciences graduates and other students who have completed a formal transfer plan the transferability of course credits to cooperating Texas colleges and universities. If such courses are rejected by a college or university, a student may take tuition-free alternate courses at Texarkana College, which are acceptable to the university.

Texarkana College guarantees the job competencies of its graduates. If an Associate of Applied Science or certificate graduate is judged by his/her employer to be lacking in technical job skills identified as exit competencies for his/her specific degree program, the graduate will be provided up to nine tuition-free credit hours of additional skills training by Texarkana College. Additional information on the guarantee is available in the Office of Admissions or Advising Center.

T. BACCALAUREATE TUITION REBATE

A tuition rebate program was created by Senate Bill 1907, 75th Texas Legislature, and is authorized by Section 54.0065 of the Texas Education Code. It applies to students who entered an institution of higher education in fall 1997 or later.

The purpose of this program is to provide tuition rebates that will provide a financial incentive for students to avail themselves of academic advising, make early career decisions, and complete their baccalaureate studies with as few courses outside the degree as possible.

Students are required to apply for the rebate during the semester in which the student plans to graduate with a Baccalaureate degree. For more information and eligibility requirements, please contact the Texarkana College Advising Center.

U. INSURANCE STATEMENT

Texarkana College does not provide health and/or accident insurance for students. The College encourages students who do not have health/accident insurance through a group plan (parents, spouse, employer, etc.) to consider obtaining individual health/accident insurance coverage.

II. RULES AND REGULATIONS

A. ABSENTEE POLICY

Texarkana College's absentee policy allows instructors to withdraw a student from a course due to excessive absences. If a student leaves and returns during class or leaves the class before the class is over, he/she **may** be considered absent. Three tardies constitute one absence. It is the student's responsibility to check the syllabus for each instructor's tardy policy.

In some workforce/vocation areas, such as nursing and cosmetology, certification requirements necessitate an absentee policy that is more stringent than the institutional policy. In these instances, the matter of certification takes precedence over local policies, since certification policies are established by the State of Texas.

Faculty members **are not** obligated to provide opportunities for students to make up missed assignments and tests as a result of a student's absence from class. The institution is not required to take attendance with the exception of workforce/vocation areas, where certification requirements require taking attendance. However, experience demonstrates that regular attendance enhances academic success. As such, students are expected to attend each meeting of their registered courses.

A student should not stop attending a class without formally withdrawing from the course by the institution's published Last Day for Students to Drop. If a student stops attending class after the published Last Day for Students to Drop, the student **may** receive a grade of "F" in the class. The instructor will submit the last date of attendance for students receiving a grade of "F," "W," or DR.

Withdrawal from a course(s) may affect a student's current or future financial aid eligibility. Students should consult the Financial Aid Office to learn both short and long term consequences of a withdrawal.

Excused Absences

A student's absence due to school trips and/or school business will not be counted against a student's allowable number of absences. Military duty and absences for Holy Days (FBD LEGAL) are covered in a separate section of the catalog/handbook. These are the only excused absences that are considered by Texarkana College. Responsibility for work missed for any absence is placed on the student. Instructors are required to allow students to make up work missed if the absence is due to military duty* or religious holy days when students follow the correct notification procedures. Instructors are not required to allow students to make up work for absences due to other reasons. Make-up policies are listed in each individual instructor's syllabus.

**Students interested in Health Occupations should check with the division chair prior to entering the program.*

Online/Hybrid Course Absences

Absence in an online course is defined as the lack of an active post or submission within the course, including discussion board posts, written assignments, and tests. This standard will be used to determine all absentee issues, including but not limited to 12th Day Census reports, last date of attendance, and involuntary withdrawal from a course due to absences. All online students must complete an Enrollment Verification Activity within the first week of class (activity depends upon the professor); otherwise the professor **may** drop the student for not having attended. Students must complete at least one activity in their online class per week. Each week in which a student does not complete an activity will be counted as an absence.

If a student is taking a hybrid course and it does not meet during the first week of class, the student must also complete an Enrollment Verification Activity within the first week of class; otherwise, the student **may** be dropped for not having attended.

Maximum Allowable Absences

After official registration, the following number of unexcused absences will be the maximum allowable before a student **may** be dropped from the class. Mandated program certification requirements detailed for certain programs regarding the maximum allowable unexcused absences takes precedence over the following information. Three tardies count as one absence.

A course that meets for the full 16-week semester	
<i>Class or lab meets.....</i>	<i>Instructor may withdraw student from course if absences exceed</i>
Once a week (night or Friday classes).....	2 absences
Twice a week (MW or TR classes).....	4 absences
Three times a week (MWF or TRF classes).....	6 absences
Four times a week (MTWR classes).....	8 absences

A course that meets for 14 weeks of the semester	
<i>Class or lab meets.....</i>	<i>Instructor may withdraw student from course if absences exceed</i>
Twice a week (MW or TR classes).....	4 absences

A course that meets for 8 weeks of the semester	
<i>Class or lab meets.....</i>	<i>Instructor may withdraw student from course if absences exceed</i>
Four times a week (MTWR classes).....	4 absences

A course that meets for 5 weeks of the semester (Summer Sessions)

<i>Class or lab meets</i>	<i>Instructor may withdraw student from course if absences exceed</i>
Three times a week (MTW evening classes).....	2 absences
Four times a week (MTWT day classes).....	4 absences

Workforce Classes

This does not include Health Occupations. See Health Occupations Handbook regarding absences for that program.

Day classes:

Class meets 5 days a week (MTWRF): The instructor may withdraw a student from a course if absences exceed five (5) up to the published Last Day for Students to Drop. Absences that exceed this number after the drop day may result in the student receiving an “F” in the program for that semester. Three tardies count as one absence. You are considered tardy from the designated class start time through the first 15 minutes of class. After that you will be counted absent.

Evening classes:

Class meets 4 evenings a week (MTWR): The instructor may withdraw a student from a course if absences exceed five (5) up until the published Last Day for Students to Drop. Absences that exceed this number after the drop day may result in the student receiving an “F” in the program for that semester. Three tardies count as one absence. You are considered tardy from the designated class start time through the first 15 minutes of class. After that you will be counted absent.

B. EXCUSED ABSENCES FOR MILITARY SERVICE

§51.9111. EXCUSED ABSENCE FOR ACTIVE MILITARY SERVICE.

(a) In this section:

- (1) “Institution of higher education” has the meaning assigned by Section 61.003.
- (2) “Active military service” includes active military service performed by a member of the Texas National Guard or the Texas State Guard.

(b) This section applies only if:

- (1) a student enrolled in an institution of higher education fails to attend classes or engage in other required activities because the student is called to active military service that is of a reasonably brief duration, as determined by rule adopted under Subsection (d); and
 - (2) the student chooses not to withdraw as authorized by Section 54.006 (f).
- (c) An institution of higher education shall excuse a student from attending classes or engaging in other required activities, including examinations, in order for the student to participate in active military service to which the student is called, including travel associated with the service. A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to complete an assignment or take an examination from which the student is excused within a reasonable time after the absence. An instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a reasonable time after the absence.
- (d) The Texas Higher Education Coordinating Board, in consultation with institutions of higher education, shall adopt rules as necessary to administer this section. The rules must establish a maximum period for which a student may be excused under this section. In establishing that period, the board shall consider the maximum period a student may be absent without significantly interfering with the student's ability to learn the course material, complete course assignments, and succeed academically during the applicable semester or other academic period.

Added by Acts 2005, 79th Leg., Ch. 583, §1, eff. June 17, 2005.

C. EXCUSED ABSENCES FOR RELIGIOUS HOLY DAYS

Students may take an examination or complete an assignment scheduled for that day within a reasonable time for the observance of a religious holy day if: The student notifies the instructor of each class scheduled on the date that the student would be absent for a religious holy day no later than the 15th day after the first day of the semester (In accordance with Texas Education Code 51.911).

The notice must be in writing and must be delivered by the student either:

- (a) Personally to the instructor of each class , with receipt of the notification acknowledged and dated by the instructor or
- (b) By certified mail, return receipt requested, addressed to the instructor of each class.

A “religious holy day” means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code.

A student who is excused under this section may not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a reasonable time after the absence. Such provisions must be communicated

to the student by the instructor when the student notifies the instructor of a planned absence under this section.

D. INCLEMENT WEATHER POLICY

Texarkana College has scheduled its instructional program to comply with the Common Calendar of the Texas Higher Education Coordinating Board, as well as to meet instructional requirements for awarding credit hours earned. College instructors are obligated to meet all scheduled classes. If severe weather makes it necessary to cancel classes, the Texarkana College Department of Public Safety will notify students through emails, text messages, local television, and radio stations. If the College President cancels classes then all work is delayed until the next class meeting or until a date determined by the instructor. If a student is in an area which experiences severe weather and the College has not officially closed, then it is that student's responsibility to decide whether or not to attend class. The student must then contact the instructor for information concerning make-up of work missed.

E. DATE OF LAST ATTENDANCE

Date of last attendance, as defined by Texarkana College according to the Code of Federal Regulations, Title 34, Part 668.22, includes but is not limited to:

1. Physically attending a class where there is an opportunity for direct interaction between the instructor and students
2. Participating in an online activity (just logging into an online class without active participation is not considered as attendance)

F. CHANGE OF CLASSES

Students may make schedule changes on any day that is considered a registration day. During late registration, a class cannot be added that has met two times without approval from a division chair or the Vice President of Instruction. Classes meeting once weekly may not be added after one meeting. A \$100 schedule change fee will be charged and must be paid the same day.

G. FAMILY EDUCATION RIGHTS AND PRIVACY ACT OF 1974

Texarkana College complies with the Family Education Rights and Privacy Act of 1974, which was designed to protect the privacy of education records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction in inaccurate or misleading data through informal and formal hearings.

Students also have the right to file complaints with The Family Education Rights and Privacy Act Office (FERPA) concerning alleged failure by the institution to comply with the Act. For additional information, please contact the Admissions Office.

Texarkana College considers students to be independent of their parents in regard to their educational records. However, information may be disclosed to the parents by obtaining the student's written consent to do so.

H. DIRECTORY INFORMATION

The College will release the following items of directory information (as defined by the Family Education Rights and Privacy Act) without the written consent of the student: name, address, college email address, major, dates of attendance, degrees awarded, full and part-time status, enrollment and withdrawal verifications, student classification and most recent previous institution attended. The College reserves the right, under the Family Education Rights and Privacy Act, to publish this information and routinely furnish it to loan agencies, insurance companies, prospective employers, family members, etc. Students are responsible for informing the Registrar's Office in writing each semester if the above information is not to be released.

I. CONFIDENTIALITY AND ACCESS OF STUDENT RECORDS

The Registrar's Office maintains permanent education records of both credit and non-credit courses. The permanent record for credit courses contains the following, student's name, social security number, address, sex, date of birth, mode of admission, TASP/THEA/TSI or alternative exam scores, academic work undertaken, grades and grade points and credit hours earned, scholastic standing, and degrees and/or certificates awarded. The permanent record for non-credit courses from 1990-present contains the following: student's name, address, social security number, date of birth, sex, courses taken, satisfactory or unsatisfactory completion, CEUs earned, and contact hours.

Student records are released only for use by faculty and professional staff for authorized College-related purposes. The release of student records (transcripts) for off-campus use occurs only with the student's knowledge and consent, or where required by law. Students may obtain an official or unofficial student copy of the permanent record from the Registrar's Office only with appropriate ID unless the student properly authorizes a third party.

J. TRANSCRIPTS

Official transcripts will be issued only with a written, signed request by the student or through his/her TC self-service account. The student may obtain transcripts from the Texarkana College Office of Admissions and Records with proper identification. Transcripts may also be requested and paid for online at myTC. There is a \$5 per transcript charge for current or former students. Fees for diplomas are included in registration charges. The Registrar may deny a student's request for a copy of the permanent record if there is a hold on the record. The hold may be caused by

financial obligation, disciplinary action, library fine, science department fee, parking fines, or failure to comply with admission and residency verification requirements.

K. NAME, ADDRESS, SOCIAL SECURITY NUMBER CHANGES

Name and address changes may be made in the Texarkana College Registrar's Office by completing and signing a change form. Social Security number changes may be made only by presenting the Social Security card. Name changes require some form of official documentation such as a marriage certificate or court document. Basic information such as phone numbers and mailing address can be changed in myTC.

L. DISTRIBUTION OF LITERATURE ON CAMPUS

Distribution of non-commercial literature or leaflets by organizations chartered by the College or individual students is permitted in areas designated for this purpose. Prior to posting a sign on College-controlled property, a student or registered student organization must contact the Dean of Students and follow the procedure pertaining to this activity. Literature and materials for distribution on College-controlled property must not contain: 1) Writings which are libelous, obscene, or in violation of federal, state, or local laws; 2) Material which attempts to exploit for commercial purposes the name, image, or reputation of Texarkana College through the sale of subscription copies or advertising space.

M. SOLICITATION

Individual salespersons or solicitors will not be permitted to contact students on campus, except in connection with sales through the College Bookstore. On-campus solicitation or sales by employees or students on behalf of any group or organization, profit or non-profit, is prohibited.

N. CAMPUS VISITORS

Those persons not enrolled in at least one class, either credit or non-credit, and who are not guests of a faculty or staff member, not to include such persons visiting the campus on calls of a business nature, must be cleared for campus visits by the Vice President of Instruction or Dean of Students. Visits must be confined to areas open to the public. Students are not allowed to bring their children to class, clinical labs, Testing Center, dorms, or leave them unsupervised on campus. No loitering by unapproved visitors is permitted.

O. AIDS POLICY

Texarkana College recognizes that Acquired Immune Deficiency Syndrome (AIDS) and HIV-related conditions such as AIDS-Related Complex (ARC) pose significant issues in an academic setting. Because of our commitment to maintaining a healthy and safe campus environment, this policy and other procedures emphasize the education of employees and students concerning AIDS

and the management of each case of AIDS individually with sensitivity, flexibility, and concern for the affected individual as well as other employees and students.

Students may obtain educational information on HIV/AIDS from the National Institute on Drug Abuse's website at the following web addresses:

<http://www.drugabuse.gov/publications/research-reports/hiv aids> and

<http://www.drugabuse.gov/publications/drugfacts/hiv aids-drug-abuse-intertwined-epidemics>.

Texarkana College, in accordance with the Family Education Rights and Privacy Act of 1974, shall not give specific or detailed information concerning complaints or diagnosis without the expressed written consent of the affected student or employee.

No student will be denied enrollment or the right to attend classes or participate in college functions solely on the basis of diagnosis or suspicion of having HIV, AIDS, or ARC.

III. ACADEMIC GUIDELINES

A. ACADEMIC STANDING

Academic accountability at Texarkana College is based on maximizing student progress toward successful course and program completion. Students enrolled at Texarkana College are expected to maintain a 2.0 semester/term grade point average on all work attempted. Academic standing is designed to monitor student progress so that college staff can intervene and explore options with students who have difficulty meeting the minimum requirements for successful completion.

Academic standing is computed at the end of each fall and spring semester and is based on a cumulative grade point average derived from all work completed and/or accepted in transfer at Texarkana College.

A student is considered in **good standing** as long as his/her cumulative GPA is a 2.0 or higher on a 4 point scale. [*For financial aid standards of satisfactory academic progress, refer to that particular section under the Financial Aid portion of this catalog/handbook.*] The primary responsibility for acceptable standards of academic student success at Texarkana College lies with the student. It is up to the student to maintain his/her GPA in accordance with established academic standards. Once the student's cumulative GPA falls below 2.0, the student is considered on **academic warning** and remains on academic warning until his/her cumulative GPA reaches 2.0 or higher and is again considered in good standing. Please be advised that if a student is receiving financial aid through our Financial Aid office, please refer to the section in this catalog/handbook that applies to Satisfactory Academic Progress (SAP). Academic warning may affect any private grant or loan the student may have. Academic warning may also affect the student if he/she transfers to another college or university.

B. ACADEMIC STANDING OF TRANSFER STUDENTS.

Students transferring from another college to Texarkana College who have been placed on warning by their former college/university will be admitted on scholastic warning.

C. TEXAS SENATE BILL 1321 – ACADEMIC FRESH START

Texas Senate Bill 1321, entitled “Right to an Academic Fresh Start” allows a person who is a resident of Texas to apply for undergraduate admission and not have coursework completed 10 or more years prior to the date of anticipated enrollment included as consideration in the admission decision. This allows undergraduate students to begin a new course of study with a clear academic record.

Note: This is an “all or nothing” option. You are not able to pick and choose which courses to ignore and which courses to count. If you choose the “Academic Fresh Start” option, you will not receive any credit for courses you took 10 or more years ago.

This means that:

- Courses taken previously cannot be used to fulfill new prerequisite requirements
- Course taken previously cannot be counted towards your new degree
- Courses taken previously will not be counted in your new GPA calculations

The provision does not affect coursework completed between the 10 year prior date and the new enrollment date.

Even if you choose the Academic Fresh Start option, you must still complete the usual admissions process, including providing information on all colleges or universities previously attended and providing official copies of transcripts from all schools you attended. Nothing in the law prohibits a public university from applying standard admissions requirements.

Students under the Fresh Start provision must still meet the criteria for the Texas Success Initiative unless they have met one of the exemptions. The Academic Fresh Start Provision does not affect Texas Success Initiative exemptions claimed on the basis of college credit earned prior to September, 1989.

Additional Notes

- Academic Fresh Start may be claimed only upon application to Texarkana College and will not be applicable to currently enrolled Texarkana College students.
- Once enrolled, Academic Fresh Start may only be requested upon application for readmission to the College. Students can apply for readmission and request Fresh Start only after resigning for one calendar year. The Fresh Start application must be completed and granted prior to re-enrolling.
- Once the “Right to an Academic Fresh Start” provision has been claimed, and the student has enrolled, the provision cannot be reversed.
- An applicant may use the Academic Fresh Start provision only once at Texarkana College.

Applying for Fresh Start

Students must submit an application for Fresh Start prior to enrollment at Texarkana College, preferably at the time they apply for admission or re-admission. Students will not be granted Fresh Start until they have completed their admissions process and been admitted to the College.

Download and print an Application for Fresh Start (PDF). The application should be completed and signed. It can be mailed to the Office of Admissions:

Texarkana College
Office of the Registrar
2500 North Robison Road
Texarkana, TX 75599

The application may also be completed at the Registrar's office during regular office hours. The office is located on the first floor of the Nelson Administration Building. Visitor parking is available.

Acceptance of Fresh Start Application

The final authority on applying or interpreting Texas Education Code 51.931, Right to an Academic Fresh Start, is the Texarkana College Registrar. When the Fresh Start application is approved, the Texarkana College Registrar's office will be notified and upon enrollment, a message will be posted to the student's academic record indicating admission has been granted through the Academic Fresh Start provision. If the student was previously enrolled at Texarkana College, the grade point average will be changed on the academic record for any coursework completed here 10 or more years prior to the re-enrollment date. The original course or grades will not be considered in the grade point average, but they will remain on the Texarkana College academic record.

Effect on Financial Aid

Academic Fresh Start clears only your academic record. When deciding your eligibility for financial aid, the school must still count all prior credits earned.

Students who earned a graduate degree prior to enrolling as an undergraduate under the Academic Fresh Start option will only be eligible for aid available to graduate students.

Please contact the Texarkana College Financial Aid Office at 903-823-3267 or financial.aid@texarkanacollege.edu if you need additional information or have any questions.

D. ACADEMIC DISHONESTY POLICY

Scholastic dishonesty, involving but not limited to cheating on a test, plagiarism, collusion, or falsification of records will make the student liable for disciplinary action after being investigated by the Dean of Students. Proven violations of this nature may result in the student being dropped from the class with an "F."

This policy applies campus wide, including the TC Testing Center, as well as off-campus classroom or lab sites.

E. ACADEMIC COURSE LOAD

The unit for counting credits is the semester credit hour. A semester credit hour is defined as one hour of class work a week or its equivalent in laboratory pursued for one semester. Enrollment in twelve or more semester credit hours is considered to be full-time student status. However, the usual recommended load for full-time semester hour students is five courses (15 to 18 semester credit hours). Except by special permission of the Vice President of Instruction, or designee, students will not be permitted to take more than this normal load. Prior approval of the Vice President of Instruction, or designee, may be requested if a student desires to enroll in more than 18 semester credit hours. The student must have maintained a grade point average of 3.0 and must have enrolled for at least 12 semester credit hours in the preceding semester. No more than seven (7) semester credit hours of academic work may be taken by a student each summer session.

F. DEVELOPMENTAL EDUCATION

Texarkana College provides academic support through tutoring and subject specific lab experiences to enhance developmental education for students who need assistance with basic academic skills in reading, writing, and math according to the Texas Success Initiative. The Developmental Education program enhances these basic skills through personalized goals and a variety of instructional methods to ensure college-level coursework success for all students. Developmental education services include preparation for collegiate-level studies and training in the basic skill review of reading, writing, and mathematics for each program's entry-level standards.

Developmental education courses are not counted as credit toward graduation or calculated in the cumulative GPA. However, they are used along with the credit courses for determining course load and satisfactory academic progress for financial aid.

Texarkana College requires that students demonstrating a need for remediation in reading, writing, or mathematics complete the appropriate sequence of Developmental Education courses in consecutive semesters; this excludes summer semesters. All students who are not TSI met must see an advisor before registering for classes. Non-compliance of TSI standards may result in a student not being able to register for 12 semester credit hours, which is full-time status. Students must speak with an academic advisor and the Financial Aid Office before dropping a developmental education course.

G. GRADE POINT AVERAGE (GPA)

The following grades are used in evaluating the student's work: A, B, C, D¹, F, I, and W. Passing grades are A, B, C, and D*; F is failure. The grade "I" indicating incomplete work or absence from examination by excuse must be made up by the end of the next long semester, otherwise, the incomplete "I" becomes an "F".

¹A grade of “D” is not acceptable for ADN Nursing, vocation nursing, or developmental courses. A veteran may not repeat a course in which a grade of “D” is received unless it is in any of these subject areas. A grade of “D” is acceptable in other areas and for transfer to Texarkana College. Students should be aware that a grade of “D” may not transfer to senior institutions; transfer is determined by accepting institutions.

Developmental courses are assigned grades according to the same policy detailed above. Developmental course grades are included in Financial Aid GPA calculation for each semester. They are included in determining the eligibility for financial aid. However, these courses are not included in the final cumulative GPA and will not count as credit toward any degree or certificate.

For computation of the GPA, grades are assigned the indicated number of points for each semester hour of credit earned:

Only grades of A, B, C, D, and F are included in the calculation of the grade-point-average. Grade points are assigned to each regular grade as follows:

Grade:	Grade points:
A	4 points
B	3 points
C	2 points
D	1 points
F	0 points

To calculate the GPA, the unit value for each course in which a student receives one of the above grades is multiplied by the number of grade points for that grade. The sum of these products is then divided by the sum of the semester credit hours attempted.

For example, to calculate the cumulative GPA for these completed courses:

Fall:		Spring:	
BIOL 1409 (4sch)	Grade: A	HIST 1301 (3sch)	Grade: A
SOCI 1301 (3sch)	Grade: A	PHED 1123 (1sch)	Grade: B
ENGL 1301 (3sch)	Grade: B		
MATH 1314 (3sch)	Grade: C		

Multiply the units represented by each grade by the number of points for that grade:

Grade:	SCHs:		Points:		Grade Points:
A	10	x	4	=	40 grade points
B	4	x	3	=	12 grade points
C	3	x	2	=	6 grade points
Total:	17 SCHs				58 grade points

The cumulative GPA is the sum of the grade points divided by the sum of the semester credit hours attempted. In this case: $58/17 = 3.412$

H. SCHOLASTIC HONORS

Semester Honors

Students enrolled for 12 or more college level semester credit hours who make a 3.8 grade point average or higher are placed on the President's List. Those who make a 3.2 or higher are placed on the Dean's List. Developmental courses cannot be used as part of the 12 semester credit hours as they are not considered college level.

Graduation Honors

The College awards to graduates with the Associate of Arts Diploma, Associate of Science Diploma, or Associate of Applied Science Diploma, distinction for excellence in scholarship as follows:

- Diplomas with Highest Honor to all students having a 3.75 or higher grade point average on all their college work.
- Diplomas with High Honor to all students having a 3.5 or higher grade point average on all their college work.
- Diplomas with Honor to all students having a 3.25 grade point average on all their college work.

I. PROCESS FOR APPEALING A FINAL GRADE IN A COURSE

Grade determination and awarding of a final grade in a course is clearly the responsibility of the instructor. Final grade reports will be available to the student within a reasonable time following the end of the course. When a student becomes aware of a final grade that is believed to be incorrect, the student may appeal the final grade received in the course. The student must initiate the appeal process no later than thirty (30) days after the end of the semester in which the grade was given.

Students may not use this procedure to challenge the substance or content of an exam, test item, or assignment. At no step in the process are the instructor's questions or individual test items to be scrutinized. Only the course syllabus (e.g. grading system) and letter or numerical grades as recorded by the instructor will be examined.

The student and instructor shall discuss in private consultation the grade that the student believes is incorrect. At this meeting, only the grades on tests, projects, reports, etc., and the grading system listed in the syllabus will be discussed and recalculated as necessary.

Whenever possible, the matter should be resolved at this meeting. The decision of the instructor will be transmitted to the student in writing. If the student is dissatisfied with the decision, the student must follow the grievance procedure set forth in the Texarkana College Catalog/Student Handbook.

J. WITHDRAWAL FROM CLASSES

Students must initiate a partial or total withdrawal in person at the Office of Admissions and must surrender their student ID card with a total withdrawal. Any student who officially withdraws from a semester hour course up to three weeks before the start of final examinations (fall and spring), or up to one week before the end of a summer session, will receive a “W.”

Students are expected to regularly attend all classes for which they are registered. Responsibility for work missed because of illness, school business, or other circumstances is placed on the student. Poor class attendance or refusal to complete assigned work may result in the student being dropped from the course.

Dates of withdrawal for the 2015-2016 calendar are:

Fall 2015	
Sub-term	Date
NCBO Only 2 Weeks	August 28, 2015
Academic 1 st 8 Weeks	October 2, 2015
Workforce 1 st 8 Weeks	October 2, 2015

Sub-term	Date
Workforce	July 15, 2016
Academic	July 29, 2016
Summer I	July 1, 2016
Summer II	August 5, 2016

K. FINAL EXAMINATIONS

Final examinations are integral parts of the instructional program and should be given in all courses. Unless notified otherwise in faculty syllabi, students should assume that an examination will be given. Final examinations are given during the week of classes set aside for that purpose. Individual students may be granted a variance from that scheduled time if the student and instructor find that the exception is based on good and sufficient reasons, and that such an exception for a changed time will not prejudice the interests of other students in the course.

Fall 2015 – Final Exam Schedule

Class Meeting Days	Class Start Time	Final Exam Date	Exam Time
MW	8:00 am (16 wk) 8:00 am (14 wk)	Wednesday, December 16	8:00 am – 10:00 am
MW	9:30 am (16 wk) 9:40 am (14 wk)	Monday, December 14	8:00 am – 10:00 am
MW	11:00 am (16 wk) 11:20 am (14 wk)	Monday, December 14	10:30 am – 12:30 pm

MW	12:30 pm (16 wk) 1:00 pm (14 wk)	Monday, December 14	1:00 pm – 3:00 pm
MW	2:00 pm (16 wk)	Wednesday, December 16	3:30 pm – 5:30 pm
Class Meeting Days	Class Start Time	Final Exam Date	Exam Time
TR	8:00 am (16 wk) 8:00 am (14 wk)	Wednesday, December 16	10:30 am – 12:30 pm
TR	9:30 am (16 wk) 9:40 am (14 wk)	Tuesday, December 15	8:00 am – 10:00 am
TR	11:00 am (16 wk) 11:20 am (14 wk)	Tuesday, December 15	10:30 am – 12:30 pm

Finals for Late Afternoon classes (those whose start times are after 2pm and before 6pm) are to be held during their normally scheduled class time on Thursday, May 5; Monday, May 9; Tuesday, May 10; and Wednesday, May 11

L. GRADE REPORTS

Reports on the work of students will be posted to the student’s academic record at the end of each term. Students may view their grade online by logging into their myTC account.

M. REQUIREMENTS FOR GRADUATION

Texarkana College confers three major degrees: The Associate in Applied Science (AAS), Associate in Arts (AA), and the Associate in Science (AS). In addition, Texarkana College awards certificates of graduation for completion of programs of less than two years in length.

This catalog reflected the Texas Common Course Numbering system adopted by Texarkana College in cooperation with other Texas colleges and universities. Students earning an Associate of Arts or Associate of Science at Texarkana College must complete TC’s general education requirement in addition to major courses and electives in their particular area of interest, and all requirements of the Texas Success Initiative. Students earning an Associate of Applied Science Degree must complete a portion of TC’s core curriculum and all requirements of the Texas Success Initiative.

For course descriptions and specified prerequisites, see the section of the catalog/handbook providing course descriptions. Students should check the catalog of the senior college of their choice for transfer requirements. At least 25% of semester credit hours earned toward an associate degree from TC must be earned through instruction offered by Texarkana College. The core curriculum requirements for all programs meet SACSCOC general education requirements.

Additional Awards

A student can earn more than one degree at Texarkana College using the same General Education Core with the completion of an additional subsequent 15-18 semester hours of work to meet the degree requirements of the specific area of emphasis.

A student may not earn more than one Associate's degree or certificate per academic year without the approval of either the Dean of Workforce or Vice President of Instruction.

General Requirements for Associate's Degree

1. A minimum of 60 semester hours are required for graduation.
2. A maximum of 50% of the coursework for an AA or AS degree will be accepted as Credit for Prior Learning. No more than 75% will be accepted for an AAS degree.
3. A cumulative grade point average of 2.0 is required for graduation.
4. Students must take at least 25% of their coursework at Texarkana College.

General Requirements for Certificates of Competency

1. Students must fulfill all coursework and credit hour requirements as outlined in the college catalog.
2. Students must maintain a grade point average of 2.0 in courses required for certificate.
3. Students must take at least 25% of their coursework at Texarkana College.
4. A maximum of 75% of the coursework for a certificate program will be accepted through Prior Learning Assessment.

N. STUDENT RESPONSIBILITIES

The following are not simply suggestions for becoming a successful college student: they are your responsibilities as a college student.

Set yourself up to succeed. It is your responsibility to plan a schedule that accommodates your lifestyle. For example, if you know that you are not a morning person, do not schedule 8:00 a.m. classes. On the other hand, if you work in the afternoon, morning classes are your best option. Arriving to class late or leaving early are both unacceptable. Take care not to overload yourself. What looks easy at the beginning of the semester often compounds when you have several papers due at once or final exams to study for. Sign up for a course load that you will be able to handle at the end of the semester. Professors are not obligated or inclined to extend due dates for projects. You have the same amount of time in a day as each of your classmates, and it is your responsibility to carefully schedule your time and use it wisely.

Purchase all of the required materials. You will not be able to pass a class if you do not purchase the required textbook and any supplemental materials that the professor requires. Having those

materials on the first day of class increases your chances of a great start in the class which will contribute to later success.

Attend all classes. It is mandatory and essential that you attend class. One of the main reasons that students fail courses is because they skip classes. However, if you have a genuine emergency and must miss, it is your responsibility to find out what you missed and consult your professor about making up the work. If you are going to be out for more than one class period, or if you know that you are going to have to miss a class, contact your professor in advance. Make missing a class a final option. It always affects your grade negatively.

Schedule your appointments outside of class time. You know when you are supposed to be in class. Plan your doctors' appointments or any other meetings outside of the class schedule. Even meetings on campus, such as academic advising or club meetings, are not excused absences. If you have a job, schedule your work hours around your class schedule. In the event that your work schedule changes, make sure your boss has a copy of your class schedule and understands that your education is a priority and you will not be able to work during the hours that you are scheduled to be in class.

Know what is on the course syllabus. It is your responsibility to frequently read and comprehend the course syllabus. It contains useful information such as dates of tests and other announcements, assignments, instructions, and deadlines. Compare the course syllabi from all of your classes and make a master calendar with deadlines so you are not overwhelmed at key times of the semester.

Read the course materials and stay caught up. If your professor will be lecturing on Chapter 3 in the next class session, you should read Chapter 3 before class meets so you will know what he or she is talking about. Your professors will not always remind you that you need to read and study. In addition, read and study all handouts or study guides that your professor gives you. This is your responsibility!

Take notes in class. Your professors may or may not remind you to take notes. They just expect that you will. It is difficult to remember all of the details of a lecture if you do not write the key points down. Even if you think that you are not good at taking notes, do it anyway. You will improve with practice. Test questions usually come from lectures and your notes will be a great source. However, these notes are not any good if you don't study them!

Know your deadlines. Professors rarely extend deadlines even in exceptional circumstances. You need to schedule your time in order to meet the deadlines, and start early. If you are given a week to do an assignment, do not wait until the day before to begin it. Likewise, if you are given a month to do a project, do not wait until the week before to begin it. If a professor assigns a project with a month deadline, he or she expects more effort than you will be able to put forth in a week.

Behave responsibly and respectfully. Disruptive, crude, or otherwise inappropriate behavior will not be tolerated in the classroom. By the same token, you will encounter many differences of opinions as you pursue your education. When debating ideas with others, do so in a respectful manner. Check your course syllabus for additional classroom behavioral expectations.

Ask your professors for help. If you have problems with an assignment or understanding a particular concept, it is your responsibility to ask your professor for help. All professors have office hours and are happy to meet with students. If you have other classes during those office hours, it is your responsibility to ask for an appointments at a different time. Do this when you first realize that you are having problems. The end of the semester is too late.

The grade that you receive is based on your achievement on the required assignments and is the grade that you earned. It is your responsibility to attend and participate in all classes, study, complete all assignments, and turn them in on time. Grading criteria is spelled out in detail in the course syllabus. Professors will follow this guide and will expect all students to do the same.

It is your job to be a responsible college student: study hard, hold yourself accountable, set high standards, and seek help from additional resources, if necessary, to meet your goal of becoming a college graduate. This catalog/handbook is for your reference while you are attending Texarkana College.

IV. ENROLLMENT SERVICES

Texarkana College's Enrollment Services provides essential services to assist students in the achievement of their educational goals and success. Programs and services offered by the college are designed to help students achieve and cultivate their maximum potential in areas of academic, cultural, social, civic, mental, and physical development. Believing that Enrollment Services provides services that are critical to the success of students and achievement of the institution's educational goals, Texarkana College embraces and supports a culture of programs and services which consistently meet the needs of students and fulfill the mission of the college.

Location: Administration Building

Contact: Director of Enrollment Services (VP of Instruction) | 903-823-3220

Texarkana College Enrollment Services hosts a variety of primary services for students that includes, but is not limited to the following service areas:

- Admissions/Registrar information/transcript requests | 903-823-3012
- Advising | 903-823-3283
- Financial aid information, including work study | 903-823-3267
- Recruitment | 903-823-3200
- Retention and diversity initiatives | 903-823-3349
- Scholarships | 903-823-3010

A. OFFICE OF ADMISSIONS/REGISTRAR

Location: Administration Building

Contact: 903-832-3012

Admissions and Records is responsible for providing the following services:

- Admissions Information
- Student information changes (name, address, etc.)*
- Transcript requests*

- Residency determination
- Credit by Exam
- Grades
- Tech Prep credit
- Graduation*
- Verification of enrollment*

* *Can be completed/requested in myTC*

B. ADVISING CENTER

Location: Administration Building

Contact: 903-823-3283

Texarkana College's staff of professional advisors are available to devote personal attention to everyone in the college community. The Advising Center is located on the first floor of the Nelson Administration Building. Students are seen on a walk-in basis. These services are available to all students (on-campus and off-campus) upon request. Students are encouraged to become personally acquainted with the advising staff and to take advantage of all available services.

The Advising Center's mission is to serve as a central resource which provides students with support while enhancing opportunities for student success. This is accomplished by providing information regarding educational choices, career options, workforce skill development, and the exploration of specific areas of interest.

Services available are:

- Career advising regarding vocational choice, occupational information, self-appraisal of interests, aptitudes, and abilities.
- Academic advisement regarding appropriate choices of courses, educational plans, study skills, and transferability of courses.
- Confidential personal advising regarding adjustment and life decisions.
- Standardized testing to provide additional information about interest, aptitudes, and abilities needed in planning and making decision.

- Referral and advisement regarding assessment testing.
- Support services for special populations.
- Assisting students in selecting transfer institutions.
- Providing resources to assist students in selecting a major.

C. STUDENTS WITH DISABILITIES

Texarkana College accepts students who have potential for academic success in a post-secondary educational institution. Texarkana College is committed to providing qualified students with disabilities equal access to its facilities, activities, and programs. Section 504 of the Federal Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1990 (ADA) require that public colleges and universities provide reasonable accommodations for qualified students with disabilities. Accommodations may include note takers, reader services, adaptive testing, extended time for test, etc. Accommodations are provided on an individual basis following presentation of documentation that confirms the presence of a disability that results in a substantial limitation of a major life function as defined under Section 504 and the ADA.

To request accommodations, a student with a disability should arrange an appointment with an advisor to obtain a Request for Student Accommodations Form. Appropriate documentation of a physical or psycho/educational condition or a referral from an appropriate rehabilitation agency such as the Department of Assistive and Rehabilitative Services or the Texas Commission for the Blind which documents the disability and supports the need for accommodations must be submitted before accommodation can be arranged. Requests for accommodations should be made four weeks prior to initial enrollment to allow time for review and adequate coordination of services. The deadline for applying for special accommodations for a subsequent semester of enrollment is two weeks prior to registration for the semester.

The Advising Center serves as a liaison between students with disabilities and Texarkana College faculty and staff. The provision of support services and reasonable accommodations is guided by college policies and procedures which are implemented through the Advising Center. It is the intent of the ADA and TC that the responsibility for providing need and appropriate support for students with disabilities is shared by student, faculty, and staff. All students are expected to abide by college policies and procedures, including the Standards of Student Conduct as outlined in the TC Catalog/Handbook and other College publications.

Current and prospective students, parents, and others interested in accommodations or additional information should contact the Advising Center, Texarkana College Administration Building @ 903-823-3349 or 903-823-3283.

D. RECRUITMENT SERVICES

The primary goal of Recruitment Services is to attract new students to Texarkana College. This goal is accomplished through various activities including, but not limited to high school visits, school presentations, participation in college fairs, coordinated campus visits, email, and social media.

The recruiters provide pre-college information and admissions assistance for students attending 42 high schools within the Arkansas, Oklahoma, and Texas service area as well as reaching out to non-traditional populations who are seeking educational or occupational opportunities. This partnership enables a seamless transition for participating high school students into postsecondary education and facilitates an informed and convenient college entry process. TC recruiters provide information to high school students, parents, faculty, and the community to educate and promote the value of life-long education and to recognize Texarkana College as a valuable and viable educational option.

TC recruiters are dedicated to maximizing student and community access to Texarkana College and providing information and support for the transition to college regardless of background, socioeconomic status, ethnicity, or age. Our goals are:

- Provide timely information about the college, its policies, procedures for admissions and enrollment.
- Provide support, assistance, guidance, and resources for potential students to meet their higher education aspirations.
- Educate the community about Texarkana College and its programs and benefits through presentations, personal contact, and mailings.
- Work as a team with TC faculty, staff, and former students to attract new students.
- Foster awareness, promote, and support a culture of higher education in the College's service area through outreach and recruiting activities including college fairs, business fairs, and high school visits.

E. RETENTION AND DIVERSITY INITIATIVES

The Retention Initiative at Texarkana College is designed to maximize academic success and build social connections for new, returning, first generation, academically challenged, non-traditional, under-represented, and transitional students of Texarkana College. The goal of the Retention Initiative is to provide students with resources to increase the opportunities for students to

complete their educational goals; additionally, it focuses on assisting and encouraging students to complete an associate's degree or certificate program. Students will benefit from program participation by:

- Individual tutoring and academic advising
- Learning study skills and other valuable learning strategies
- Students are less likely to stop and drop out
- Students are better prepared for high wage, high skill, and high demand jobs in a global market.

Texarkana College is committed to building a diverse and accessible institution that fosters intellectual and social advancement. The purpose of the Diversity Initiative is to establish a structure that defines the roles and relationships necessary for systematic promotion of diversity, equity, and respectful interactions at all levels of the college. Our goal is to build an environment which is welcoming, inclusive, and that promotes and affirms diversity. Diversity initiatives strive to make the academic and social integration of underrepresented students to college life as smooth as possible through mentoring and exposure to academic programs and student services. The availability of leadership training and attendance to regional and national conferences further enhances diverse student's experiences.

The Diversity Initiative established processes for planning, program development, and communication necessary to activate our commitment to diversity. Expected outcomes of this initiative are: 1) development of a structure that provides the basis for regular assessment of campus climates and needs; 2) establishment of relevant training and programs to address identified needs; 3) an organized effort to promote and support diversity within Texarkana College.

F. DUDLEY DAVID CONNER FINANCIAL AID CENTER

The purpose of Texarkana College's Financial Aid Office is to assist student in obtaining the financial aid available while attending college. Assistance is available in the form of grants, student employment, and scholarships. All students who feel that they need financial assistance are strongly encouraged to visit the Financial Aid Office to learn about the various sources of funds and to determine their eligibility. Students who wish to apply for any type of financial aid (except merit-based scholarships and non-Work Study student assistant positions) must:

- Complete an admissions application and be an admitted student to Texarkana College.
- Be enrolled in class that pertain toward their degree plan each semester.

- Complete and submit a Free Application for Federal Students Aid (FAFSA) form. FAFSA forms are available through the FAFSA web site located at www.fafgsa.ed.gov. After submission of the FAFSA to the Federal Processor, students will subsequently receive a Student Aid Report (SAR).
- Submit any documents required by the Financial Aid Office.

If the student's file is selected for verification, the student MUST submit the following:

- A verification worksheet
- A copy of their tax return transcript from the IRS
- Any other forms as requested

High School Students without Transcripts Available

Students who enroll for summer sessions and whose high schools have not yet had the opportunity to issue transcripts will be allowed to temporarily substitute a letter from the high school registrar which states the student has completed all requirements for graduation, including passing all sections of the TAKS/STAAR. This letter must be submitted in a sealed envelope and must include the following:

- Student's social security number;
- Confirmation that the student has successfully completed all requirements for graduation, date of graduation, and type of program completed (i.e. recommended, distinguished, etc.);
- Date issued; and
- Original signature of the school official

Students who enroll using this type of verification must follow up and furnish the Admissions Office with an official copy of their transcript. These regulations were developed to ensure compliance with federal law. Students who have not met these requirements will NOT be awarded Title IV federal financial aid. No exceptions will be made to this policy.

SCHOLARSHIPS

A variety of scholarships are available at Texarkana College. Scholarships include those awarded and administered by the Texarkana College Scholarship Committee as well as those awarded by community and civic organizations. In addition, Texarkana College awards Institutional Scholarships for various programs of study and for academic merit. The criteria for receiving scholarships vary according to standards set by donors and by the Scholarship Committee. Most

scholarships are awarded based on a combination of academic merit and financial need. Some scholarships require that an application be submitted directly to the donors. Scholarships are awarded both to freshmen and to sophomores. Please contact the Texarkana College Scholarship Coordinator for more information about the scholarship program and application process. You must complete an Admissions Application before applying for Texarkana College Scholarships. The application for scholarships can be accessed through the Texarkana College web site at www.texarkanacollege.edu/scholarships.

The following endowment and scholarship funds are administered by the Texarkana College Scholarship Committee. Please contact the Scholarship Coordinator for complete information at 903-823-3010.

Endowed Scholarships

The following Institutional Scholarships are awarded and administered by Texarkana College:

- **Presidents Scholarship:** a full scholarship for freshman and sophomore years awarded for high school graduates with an ACT composite score of 23 or higher (or SAT score of 1620 or higher) and graduated in the top 10% of their graduating class.
- **Eldridge Scholarship:** The Jake and Bessie Eldridge Memorial Scholarship is awarded to students planning to attend a public, four year Texas college or university after completing a minimum of 60 semester credit hours with a cumulative GPA of 3.0.
- **Distinguished Scholar Award:** This is a \$1,000.00 per semester award for up to four semesters. Please click on the scholarship link below to find out more information.

In addition to the scholarships, a number of other awards are presented annually by organization in the TC service area. Inquiries concerning these scholarships may be directed to the Scholarship Coordinator.

Please visit www.texarkanacollege.edu/scholarships for more information regarding scholarships, deadlines, and requirements.

GRANTS

Texarkana College participated in several need-based grant programs which provide funds that do not have to be repaid. Students who wish to apply for any grant must submit a FAFSA. Proceeds from grants are intended to provide assistance with tuition, fees, books, and living expenses.

Federal Pell Grants

The Federal Pell Grant program is regulated by the federal government and is an important source of financial assistance for eligible students. It is recommended that students applying for a Federal

Pell Grant be enrolled for six or more hours. However, a Federal Pell Grant may be available to students who enroll for less than half-time (six hours) (please contact the Financial Aid Office for additional information concerning less-than-half-time Federal Pell Grants). The amount of the Federal Pell Grant award will vary with the number of semester hours carried and the financial need demonstrated by the student. Students who have demonstrated eligibility and have completed the review process with the Financial Aid Office may use Federal Pell Grant funds at registration. Any additional amount due the student will be paid later in the semester. If students are enrolled in courses that do not count toward their degree/certificate, those hours cannot be included in determining their enrollment status.

Federal Supplemental Educational Opportunity Grant (SEOG)

Federal SEOG is a federally funded program that provides additional grant funding for students receiving Federal Pell Grants. Students who have completed the supplication for financial aid by the priority deadlines will be given first consideration for these funds. After this deadline, funds will be awarded on a first-come, first-served basis until all monies are exhausted.

SEOG funds are not available to students on financial aid warning status.

Texas Public Education Grant (TPEG)

The TPEG Grant is funded by Texarkana College and funds from the State of Texas. Awards are made to students who have completed their application for financial aid by the priority deadline. Funds will be awarded on a first-come, first-served basis until all monies are exhausted. Funds are awarded using a need based formula of Federal Pell Grant applicants. Funds are not available to students on financial aid warning status.

Toward Excellence, Access & Success Grant (TEXAS Grant)

The Texas Higher Education Coordinating Board funds the TEXAS Grant. This grant is aimed at assisting students who have graduated from a Texas high school and completed the Recommended High School program or the Distinguished Achievement Program. Eligible students must have financial need and be enrolled either full-time or three-quarter-time at an eligible institution within 16 months of high school graduation to receive this grant. Contact the Financial Aid Office for additional eligibility requirements.

Texas Educational Opportunity Grant (TEOG) (Formerly Known as TEXAS Grant II)

The Texas Higher Education Coordinating Board funds the TEOG Grant. This grant is aimed at assisting students who have a high school diplomas or GED.

Eligible students must have financial need and be enrolled at least half-time at an eligible institution within the student's first 30 credit hours to receive this grant. Contact the Financial Aid Office for additional eligibility requirements.

For a complete list of exemptions and grants, go to www.collegefortexans.com, apply for financial aid, types of financial aid.

FEDERAL STAFFORD LOANS

This is a federal long-term loan designed to help students who have difficulty meeting college expenses. These loans are administered by the William D. Ford Direct Loan program. Federal regulations control the amount that a student may borrow.

Subsidized Loans are need based, meaning that your EFC (Estimated Family Contribution) is taken into consideration when awarding this loan. Unsubsidized loans are non-need based, meaning they can be awarded to any student, as long as other eligibility requirements are met.

Terms of the loan:

- Monthly payments begin 6 months after the student is no longer enrolled in college at least half-time.
- The Direct Loan Program offers several different repayment options. You can find out more by visiting www.studentloans.gov.

INFORMATION SPECIFIC TO LOANS

In-Person Loan Advising Session

Texarkana College is a public two-year college with relatively inexpensive tuition and fee rates. In an effort to keep student loan debt to a minimum, Federal Direct Loans are not automatically awarded to financial aid students at the college. Students are required to attend an In-Person Loan Advising Session to be informed about federal student loans, conditions of the loans, how the loan process works, and about the benefits of borrowing the least amount of money possible. This is not a replacement for the federally required Entrance Counseling for Student Loan Borrowers, but a supplement to the loan advising process that will provide students with necessary information concerning their student loans in a small group environment that encourages questions and an interactive learning format.

After the In-Person Loan Advising Session, students are offered budgeting assistance in order to keep loan amounts requested to the minimum necessary. Thus, borrowers can keep their student loan debt to a minimum.

After completing the session, students will turn in an In-Person Loan Request Form. The form will be used as an active confirmation of the exact amount the student is requesting. Provided that the student's financial aid file has been processed and the student is eligible for the amounts requested, the loan(s) will be added to his/her financial aid award within an average of 72 hours. Loans cannot be added to financial aid awards if the student's financial aid file has not yet been processed.

Students are encouraged to proceed with the online Entrance Counseling for Student Borrowers and the Master Promissory note at <https://studentloans.gov/myDirectLoan/index.action> immediately after their In-Person Advising Session is completed.

Entrance Counseling for Student Loan Borrowers

Prior to the first disbursement, first-time borrowers of Federal Direct Loans at Texarkana College must complete the online Entrance Counseling for Student Loan Borrowers at <https://studentloans.gov/myDirectLoan/index.action>. The online counseling will provide comprehensive information on the terms and conditions of the loan and of the borrower's rights and responsibilities.

Once completed, an electronic file confirming the completion of the Loan Entrance Counseling requirement will be sent to Texarkana College. The average time for the entrance counseling confirmation file to process, be sent, and downloaded into the student information system at the college is 3 to 4 days. Students will be able to confirm the college's receipt of the loan counseling confirmation file by checking the financial aid tab in their school myTC account.

Federal Direct Loan funds will not disburse to your student account until Texarkana College receives confirmation of the student's completion of this requirement.

Master Promissory Note (MPN)

Prior to the first disbursement, first-time borrowers of Federal Direct Loans at Texarkana College must complete the Master Promissory Note (MPN) at <https://studentloans.gov/myDirectLoan/index.action>. The MPN is your legally binding promise to repay the funds you borrow under the Federal Direct Loan Program at Texarkana College. The MPN also contains the fees, interest rates, terms, and conditions of your student loan.

Once completed, an electronic file confirming the completion of the Master Promissory Note requirement will be sent to Texarkana College. The average time for the MPN confirmation file to process, be sent, and downloaded into the student information system at the college is 3 to 4 days. Students will be able to confirm the college's receipt of the MPN by checking the financial aid tab in their school myTC account.

Federal direct loan funds will not disburse to your student account until Texarkana College receives confirmation of the student's completion of this requirement.

Exit Counseling for Student Loan Borrowers

Prior to graduation or dropping to less-than-half time (6 credit hours), student borrowers at Texarkana College must complete the online Exit Counseling for Student Loan Borrowers at <https://studentloans.gov/myDirectLoan/index.action>. The online counseling will provide

comprehensive information on repayment options, repayment plans, loan deferments, loan forbearances, and debt management strategies.

Once completed and electronic file confirming the completion of the Loan Exit Counseling requirement will be sent to Texarkana College. Students will be able to confirm the college's receipt of the loan counseling confirmation file by checking the financial aid tab in their school myTC account.

Not completing exit counseling requirements would mean you would not have the critical information in the management and repayment of your federal educational loans. In addition, not completing loan exit counseling could also affect requests for transcripts at Texarkana College.

FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS

Federal regulations require that a student must be making satisfactory academic progress toward the completion of a degree or certificate at Texarkana College in order to receive federal financial aid. At Texarkana College, the standards that students must meet to fulfill this requirement are stated in the Financial Aid Standards of Academic Progress (FA-SAP). In addition, state law requires that students who receive exemptions and/or waivers to tuition and fee charges also maintain the same FA-SAP standards as students who receive financial aid. Finally, the Department of Veteran Affairs also requires that students who receive veterans' benefits maintain SAP standards in order to continue to receive benefits.

Students should be aware that FA-SAP standards are different from Academic SAP standards at Texarkana College. Students should also be aware that FA-SAP will be evaluated at the end of each semester. Effective the 2014-2015 academic year, VA educational benefits and all exemptions and waivers are held to the same SAP standards as Title IV Financial Aid.

Financial Aid Standards of Satisfactory Academic Progress Are:

I. GPA Requirement:

All financial aid recipients must have a cumulative financial aid SAP grade point average of 2.00.

II. Completion Requirements:

Students must, at a minimum, receive satisfactory grades in 67% of cumulative credits attempted. This calculation is performed by dividing the cumulative total number of successfully completed credits by the cumulative total number of credits attempted. All credits attempted at the College (except audits, which must be entered as such by the class census date) are included. As with GPA, transfer credits are excluded. This evaluation will be made prior to aid being awarded and after grades are posted at the end of each semester a student is enrolled at the college.

Credits with satisfactory grades at the College are those for which a grade of A, B, C, D, S, P, or CR is earned. Courses with a grade of F, W, U, and I are considered unsatisfactory for financial Aid purposes and are included in this calculation. Note: Federal Student Loan borrowers must

meet SAP requirements at the point of loan certification and again prior to the disbursement of any loan proceeds.

III. Maximum Time Frame:

The regulation set by the Department of Education specifies that for an undergraduate program, the maximum time frame may not exceed 150% of the published length of the program. Developmental and ESL course work are included in this calculation. Attempted credit from all enrollment periods at the college is counted; whether the student received financial aid for those terms is of no consequence.

Failure to Meet Satisfactory Academic Progress

Warning Status

Students who fail to meet Satisfactory Academic Progress (SAP) for the first time (excluding students who have already attempted 150% of the credits required for their programs of study) will be automatically placed in a Warning Status for one (1) term and are expected to meet SAP requirements by the end of that term. Students who fail to meet SAP requirements at the end of the warning status term will be placed on Financial Aid Suspension.

Financial Aid Suspension

Unless extenuating circumstances exist and an appeal is granted, a student in Financial Aid Suspension should expect to continue classes at his or her own expense until SAP requirements are again met.

Students who fail to meet SAP and who choose to enroll without benefit of student financial aid may request a review of their academic records after any term in which they are enrolled without the receipt of financial aid to determine whether they have again met Satisfactory Academic Progress standards. If the standards are met, eligibility is regained for subsequent terms of enrollment in the academic year.

Satisfactory Academic Progress Notification

Students who do not meet SAP due to completion of hours or grade point average will be issued a SAP memo by the financial aid office as soon as possible. However, notice of financial aid warning may be retroactively incurred based on an evaluation of the student's previous academic record.

Note: Any student who wishes to appeal the loss of financial aid for failure to meet Satisfactory Academic Progress may do so through the Financial Aid Office.

Appeal Process

Students who become ineligible for federal financial aid under the Satisfactory Academic Progress policy may submit a request for reinstatement (appeal) to the financial aid office with the required

supporting documentation attached. Appeal forms with insufficient documentation will not be processed.

A committee will review the request for appeal and the decision made by the committee will be FINAL.

The following extenuating circumstances are examples of situations that may be considered:

- Personal illness, injury, or accident
- Serious illness or death of an immediate family member

SAP Probation

Students who have successfully appealed the loss of their financial aid are placed on probation. Students on probation are eligible to receive financial aid for one (1) semester, after which they MUST be meeting all of the Satisfactory Academic Progress Standards or the requirements of an academic progress plan that was pre-approved by the College Financial Aid Office.

VETERANS BENEFITS

Texarkana College is approved by the Texas Veterans Commission under the provisions of Title 38, U.S. Code for VA educational benefits to train veterans and other eligible persons for approved programs and courses required for those programs. Students requesting the Montgomery GI Bill, Post 9/11 GI Bill, or Vocational Rehabilitation educational benefits must complete an application and provide additional forms to the Texarkana College Veteran Services representative. Applications can be picked up in the Financial Aid Office.

Students seeking veteran's education benefits should contact a VA Certifying Official at least six weeks prior to their registration period. All benefit recipients (excluding Chapter 31, Chapter 33, and Hazlewood) are required to pay their educational costs up front. Certification of enrollment is made by a VA Certifying Official once the student notifies the verifying official that they have finalized their schedule for the semester. Funding from the Veteran's Administration will be paid directly to students by the Veteran's Administration Office.

The Department of Veteran Affairs requires that students who receive veterans benefits make due progress toward the completion of a degree or certificate in order to continue receiving benefits. At Texarkana College, students receiving VA benefits must maintain all requirements listed in the Financial Aid Standards of Academic Progress (FA-SAP). These requirements can be found at: <https://www.texarkanacollege.edu/financial-aid/satisfactory-academic-progress>.

Certification Requirements

- Students must follow a Texarkana College degree plan. Only courses that apply to their declared degree plan at Texarkana College will be approved for benefits.
- Students must provide an official transcript from all previously attended post-secondary schools by the end of the first semester. This includes non-accredited institutions and the student's military transcript (if not a spouse/dependent).
- Students must notify the Texarkana College Veteran Services Advisor or representative upon registration each semester in order to request certification. Certification is not automatic.
- Students should allow 4-6 weeks for processing paperwork by the Texarkana College Veteran Services representative and additional processing time for the VA Regional Office.

Note: Please refer to <http://www.gibill.va.gov> or call 1-888-GIBILL for additional requirements, updates, information, and other resources for your educational benefits.

Eligible veterans receive monthly payments for their entitlement based on the coursework for which they enroll. Students should make certain that each course meets the requirements for graduation in the veteran's declared degree program or completion of a certificate program. A course for audit credit will not be certified for payment. Please note that the following is also reviewed by the Veteran's Administration:

- All withdrawals, enforced withdrawals and reductions in class loads will be reported to the Veteran's Administration Office.
- Repeats of classes where Ds or above were earned will not be covered for veteran's benefits.

The Montgomery GI Bill

The Montgomery GI Bill (Chapter 30)-Active Duty program provides up to 36 months of education benefits. These benefits may be used for degree and certificate programs, apprenticeship/on-the-job training, and correspondence courses. Remedial deficiency, and refresher course may be approved under certain circumstances. Generally, benefits are payable for 10 years following your release from active duty. The Montgomery GI Bill (Chapter 1606)-Selected Reserve Program may be available to you if you are a member of the Army Reserve, Navy Reserve, Air Force Reserve, Marine Corps Reserve, Coast Guard Reserve, the Army National Guard, and the Air National Guard. Students may use this education assistance program for degree programs, certificate or correspondence courses, cooperative training, independent study programs, or apprenticeship/on-the-job training. Remedial, refresher, and deficiency training are available under certain circumstances.

Eligibility for this program is determined by the selected reserve components. The student is responsible for paying tuition and fees at the time of registration. The VA makes the payments to the student for this program upon verification of enrollment certification which must be completed each semester. The student may be entitled to receive up to 36 months of education benefits. Their benefit enrollment entitlement ends 10 years from the date of eligibility for the program or on the day the individual left the selected reserve component. The following documents are needed to apply for the Montgomery GI Bill benefits:

- Copy of DD-214 for Active Duty Program
- Letter of eligibility form Selected Reserve Unit for Selected Reserve Program
- VA Form 22-1990 (Application for Veterans' Educational Benefits) or VA Form 22-1995 (Request for Change of Place of Training or Program) if students have previously used VA benefits at another institution or have not attended for one semester
- Texarkana College Veterans' Enrollment Record
- All prior academic transcripts
- Military transcripts (these can be requested online for each military branch)

Post 9/11 GI Bill (Chapter 33)

The Post 9/11 GI Bill is program developed by the VA that went into effect August 1, 2009. This program is for individuals who serves at least 90 aggregate days (or at least 30 continuous days with a discharge due to a service-connected disability) of active duty from 9/11/2001 to the present. Veterans applying for this program may be eligible for a housing allowance and books/supplies stipend in addition to payments covering tuition and fees up to the highest undergraduate rate for a public institution of higher learning in the state. To check your eligibility and get further information on this program, please visit <http://www.gibill.va.gov> or contact the VA at 1-888-4551. Required documents for Chapter 33 benefits are the same as those listed above for the Montgomery GI Bill (Chapter 30).

Survivors' and Dependents' Educational Assistance Program (DEA-Chapter 35)

Dependent's Educational Assistance provides education and training opportunities to eligible dependents of certain veterans. The program offers up to 45 months of education benefits. These benefits may be used for degree and certificate programs, apprenticeship, and on-the-job training. Remedial, deficiency, and refresher courses may be approved under certain circumstances. The following documents are needed to apply for DEA benefits:

- Copy of DD-214 for qualifying veteran
- Copy of marriage certificate for spouse and birth certificate for children
- VA Form 22-1990 (Application for Veterans' Educational Benefits) or VA Form 22-1995 (Request for Change of Place of Training or Program) if students have previously used VA benefits at another institution or have not attended for one semester
- Texarkana College Veteran's Enrollment Record
- All prior academic transcripts

Veterans' Vocational Rehabilitation Program (Chapter 31)

The Vocational Rehabilitation Office in Little Rock, Arkansas, determines eligibility for this Veterans' benefit. Information on how to contact this office can be obtained in the Admissions Office. Additional information regarding Veterans' benefits may be obtained by visiting the VA web site at www.benefits.va.gov/vocrehab

Reserve Educational Assistance Program (REAP)

REAP was established as part of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005. It is a Department of Defense education benefit program designed to provide educational assistance to members of Reserve components called or ordered to active duty in response to a war or national emergency (contingency operation) as declared by the President or Congress. This program makes certain reservists who were activated for at least 90 days after September 11, 2001, either eligible for education benefits or eligible for increased benefits.

Hazlewood Exemption for Texas Veterans

Male and female veterans who are citizens of Texas, who were residents of Texas at the time of enlistment, who received an "honorable" or "general – under honorable conditions" discharge, and who are not eligible for VA educational benefits that provide for direct and full payment of tuition and fees, may be eligible for the Hazlewood Exemption. This exemption provides covers all tuition and most fees related to enrollment, but not books, supplies, or housing deposits. In certain cases, this benefit may also be extended to the veteran's children or spouse. Students wishing to obtain this exemption status should contact the veteran services representative in the Financial Aid Office for an application, or they can visit www.tvc.texas.gov. The completed application and supporting documentation should be submitted to the TC Financial Aid Office for evaluation. Please allow 2-3 weeks for processing.

Form 22-1990 – Application for Education Benefits

Form 22-1995 – Request for Change of Program or Place of Training

Form 22-5490 – Application for Survivors' and Dependents' Education Assistance

Form 22-5405 – Request for Change of Program or Place of Training for Survivors' and Dependents' Education Assistance

SELECTIVE SERVICE STATUS

An individual may not receive a loan, grant, scholarship, or other financial assistance funded by state revenue, including federal funds or gifts and grants accepted by the state, or receive a student loan guaranteed by the state or the Texas Guaranteed Student Loan Corporation, unless the individual files a statement of the individual's selective service status with the institution or other entity granting or guaranteeing the financial assistance as required by this section (FEA Legal)

This section does not apply to:

- A female individual if females are not subject to general selective service registration under federal law; or
- Individuals who immigrated to the US after the maximum age at which an individual is permitted to register with the selective service system under federal law.

The statement of an individual's selective service status required by this section must require the individual to certify that the individual:

- Has registered with the selective service system as required by federal law; or
- Is exempt from selective service registration under federal law.

V. STUDENT SERVICES

The primary mission of all educational institutions is learning; Texarkana College recognizes that there are many activities and programs outside the classroom which enhance the learning process. Consequently, Student Services has established numerous services to help students move toward the attainment of the goals.

Through a wide variety of programs and services designed to address and respond to the needs of each individual student, we provide opportunities for student to succeed academically, broaden their horizons, and learn more about themselves.

Student Services, by contributing to the overall educational process at Texarkana College, is committed to serving the special needs of a diverse student population. Thus, the variety and comprehensive nature of student affairs at the college is intended to support a multitude of concerns for a large and changing student body.

All students are encouraged to contact Student Services for more information on our programs and services.

Contact: Dean of Students

Location: Carl M. Nelson Administration Building

Phone: 903-823-3141

Texarkana College Student Services hosts a variety of primary services for students that include, but is not limited to the following service areas:

- 1) New Student Orientation (College 101)
- 2) Truman Arnold Student Center & Student Activities
- 3) Palmer Memorial Library
- 4) C.O. Pinkerton Fitness Center
- 5) Assessment and Testing Information
- 6) TRIO Programs (Student Support Services & Talent Search)
- 7) Computer & Wireless Access / Online Services
- 8) Housing Information
- 9) Department of Public Safety
- 10) Career & Transfer Center

A. NEW STUDENT ORIENTATION: COLLEGE 101

Texarkana College welcomes you as a new or prospective student. We believe that a comprehensive orientation to our college sets the state for a successful transition to college life. Every important journey requires careful preparation. Your adjustment during the first semester of college can have a major impact on the remainder of your college experience.

In general, students who attend college orientation programs are better prepared academically to start their first semester of college. They also have an advantage because they are able to acclimate themselves to their new campus community before classes begin. The Texarkana College New Student Orientation program is full of useful information students can use during the first few weeks of class.

The Texarkana College New Student Orientation program gives you and your parents the opportunity to learn about resources that support student success at Texarkana College. We will provide more information regarding transfer and career resources, financing your education, and your academic division. You will have the opportunity to meet with faculty advisors, academic advisors, and financial aid specialists. You can also tour our facilities and receive answers to your specific questions.

During orientation, you will have the opportunity to:

- Have some fun as you learn what it takes to be successful in college
- Interact with staff, faculty, and other students
- Identify academic and student support services
- Understand faculty expectations and college policies
- Participate in team building exercises
- Access your registration information and your email account
- Get an overview of myTC and DegreeWorks
- Ask pertinent questions about programs of study, important dates to remember, academic support services, and the placement testing process and how it influences course selection
- Understand the principles of building a good foundation for college life

B. TRUMAN ARNOLD STUDENT CENTER & STUDENT ACTIVITIES

Texarkana College Student Services supports the vision of providing students with enriching activities outside of the classroom, which will enhance the overall educational experience of the student. Coupled with the classroom experience, student activities provide students with the prospect of developing holistically as well as creating an opportunity to engage the student into the fabric of Texarkana College. The Truman Arnold Student Center serves as a central location for many, though not all, student activities and houses the campus bookstore, The Bistro with a 250 seat dining area, career and transfer center, meeting rooms, lounging areas, and campus mail boxes. Student activities provided to students include membership in clubs and organizations, speaker series, student travel, educational events, recreational events, and intramural sports.

Campus student activities are designed to provide students the opportunity for:

- developing relationships
- developing a foundation to embrace teamwork
- increasing interest in academic courses
- service learning
- leadership development

- developing decision making skills
- developing personal empowerment
- self-expression
- recreational and social enrichment

CAREER AND TRANSFER CENTER

Texarkana College’s Compass Career & Transfer Center, located in the Truman Arnold Student Center, is poised to give students access to career planning, job placement, college and university transfers, scholarship opportunities, and more. The center currently houses our flagship partners Express Employment Professionals and Texas A&M University-Texarkana, along with room for additional college and university transfer partnerships in the future. The career services helps with resume and portfolio creation, interview coaching, career consulting and prospective employer matching. The transfer services assist students with scholarships, degree planning, advising, and transfer assistance to Texas A&M University-Texarkana and is a student information hub for other regional university transfers.

TEXARKANA COLLEGE BOOKSTORE

The Texarkana College Bookstore is located in the Truman Arnold Student Center and is designed to serve both students and faculty. In addition to textbooks and other school supplies, the Texarkana College Bookstore carries a variety of gift and other items. The Texarkana College Bookstore hours are posted on-site and on the College’s web page. Textbooks are sold and rented throughout the school year; however, textbook “buy-back” is conducted during designated times at the end of each semester.

Refund and Buy-back Policy

- Book buy-back occurs only during the final exam week
- A College Bookstore receipt must accompany all returns
- Books must be returned within the first twelve (12) class days of the fall and spring semesters and the first four (4) days of the summer sessions to receive a full refund.
- New books returned by the 4th/12th class day must be unmarked and show no signs of use or wear to receive a full refund
- Defective books will be replaced at no charge and should be returned at once
- No buy-back on workbooks and books listed as no-buy-back
- Books “on loan” must be returned during the final exam week

CLUBS AND ORGANIZATIONS

To be a member of an officially sanctioned extracurricular organization in the student life of Texarkana College, an individual must be registered in good standing as a student in the college. Specific prerequisites for membership in an officially sanctioned organization, and for holding office in such a group, are determined by the constitution and by-laws of the group; those

documents having been approved by the Dean of Students and Student Life and the Student Life Committee of Texarkana College. Copies of each organization's constitution are maintained in the Student Activities Office.

Baptist Student Ministries (BSM Club)

The purpose of this organization is to provide a Christian atmosphere and to meet spiritual needs on campus. Sponsor: Bart Upchurch

Black Student Association (BSA Club)

The primary purpose of this organization is to provide service to the community. Our goal is to establish awareness of one's heritage as well as to increase the retention and graduation rates of minority students and to provide leadership training. Sponsor: Robert A. Jones

Cultural Awareness Student Association (TC-CASA)

The purpose of the organization is to create an opportunity for Texarkana College students, faculty and staff, and the Texarkana community to expand their cultural knowledge and appreciation through educational and social activities. TC-CASA will promote academic excellence and unity and will not discriminate against any students on the basis of gender, disabilities, race, color, age, or national origin. TC-CASA will not be an association to shelter only one culture, but rather will be one to help the students develop an understanding and acceptance of their culture and those among them. Sponsor: Dr. Theresa McDonald

Earth Club

The club has an interest in the Earth, preserving and learning about our environment, enjoying nature, and community service dedicated to helping the environment and our community. Members must maintain a GPA of 2.0, recycle paper on campus at least once a semester, and pick up trash once a semester at a designated site. Sponsors: Delores McCright and Connie Brian

Fencing Club

This club is open to any student with an interest in fencing. Sponsor: Della Ellis

Future Chefs Association

The purpose of this club is to promote all facets of culinary arts by providing education, demonstration, leadership, and camaraderie through a convivial student led organization. Sponsor: Suzanne Lasagna

Honors and Leadership Program

The Honors and Leadership Program at TC is designed to provide a unique opportunity for in-depth studies with leadership emphasis. In addition, the student has close and frequent contact with instructors and with fellow students who have like interests. The Honors and Leadership Program provides a forum for collegiality and opportunities for intellectual and personal growth; there is a special focus on leadership in the community. This program is designed for students who are in pursuit of an education, not simply a degree. Employers in our community have expressed their interest in graduates with leadership skills.

Applications open up in the spring semester and are available on the TC website or by contacting Mary Ellen Young at 903-823-3369.

Journalism Club

The Texarkana College Journalism Club is an organization open to anyone who is enrolled in journalism and a member of the Texarkana College news staff. Sponsor: Laronda Bailey

Phi Beta Lambda (PBL)

PBL is a state and national professional student organization that brings business and education together in a positive working relationship through innovative leadership and career development programs.

As a local chapter of PBL, we will promote business leadership, encourage computer usage and programming, teach and study computer and business skills, and expose the student body and the community to computers through college and PBL-sponsored events. As a member, students will be able to compete in state and national competition events in the business and computer fields. Sponsor: Dr. Theresa McDonald

Phi Theta Kappa

Zeta Sigma Chapter of Phi Theta Kappa International Honor Society, the honor society for two-year colleges, was chartered in May 1948. It recognizes and encourages scholarship among two-year college students and provides opportunities for the development of leadership and service, for intellectual climate for exchange of ideas and ideals for lively fellowship for scholars, and for stimulation of interest in continuing academic excellence.

Phi Theta Kappa provides opportunities for individual growth and development through participation in honors, leadership, service, and fellowship programs.

Each semester a faculty advisor and the registrar survey all available candidates and recommend for membership those students whose grade point average indicates superior scholastic

achievement (GPA of 3.5 or higher on 15 hours of associate degree coursework) and who have demonstrated qualities of leadership and integrity and are pursuing an Associate or above degree. Sponsor: Mary Ellen Young

TC Student Nursing Association

This club is affiliated with the Texas Nursing Student Association and is for students enrolled in the college's nursing programs. Sponsors: Kimberly Penny and Kristen Floyd

Social Science Club (Explorers)

The purpose of the Explorers Club is to actively learn about events and occupations in the social sciences through speakers, films, and travel to special exhibitions. Sponsor: Dawna Rogers

Student Government Association (SGA)

The Texarkana College Student Government Association is established with the express purpose of advising the President of the College, Vice-President of Instruction, and Students Activities Director for Student and Outreach Services, encouraging student groups, creating new groups as the need arises, channeling requests for information and/or action to the appropriate authority, and assessing the administration of the college community's needs and interests, and to aid in planning activities.

The Student Government Executive Board, which represents the student body of Texarkana College is composed of a President, Vice-President, Secretary, Treasurer, Public Relations Officer, and six Senators. The Executive Board is a service organization which assumes leadership promoting worthwhile student enterprises. It also serves as an advisory organization representing the student body in its relationship with the faculty and administration. Students who are elected to serve on the Board receive valuable training and experience in civic leadership. The President and Vice-President are sophomores elected at-large from valid applicants. The other officers and Senators are valid applicants who are selected by panel and my represent clubs, programs, or divisions. Sponsor: Doug Saffel

TC 3 Club (Chemistry Club)

This club is open to any student who is interested in the chemistry and/or medical field. The TC3 is a student affiliate chapter of the American Chemical Society and the Pre-Med Club. Sponsors: Dr. Mike Buttram and Patti Harman

TC Players

This is an organization open to any student who is interested in speech and drama. Sponsor: Michael Cooper

TC Running Club

The purpose of this club will be to keep people physically in shape and for ex-high school runners who didn't reach their expectations in high school and still have something to prove. The club's goal is to make people feel good about themselves. Sponsor: Dr. Beverly Rowe

Young Republicans (TC Conservatives)

The purpose of this club is to bring young people into the Republican Party and to provide an opportunity for them to find political expression and recognition. Sponsor: Dawna Rogers

The TC News

Texarkana College has one student publication, the TC News, a campus newspaper that is published at least twice per semester. The college provides journalism classes and labs in which students learn the basic journalism skills needed to pursue careers in the field. Students gain hands-on experience by doing all the work on the newspaper themselves. News and opinions that appear in this publication provide a free and open outlet for students campus-wide. All the news the newspaper contains occurs on campus or is campus and/or student related.

The College also provides funding to have the newspaper printed, equipment and supplies for the journalism computer lab; funds for maintaining this equipment; travel funds for students and advisors to attend semi-annual seminars and conferences for instructional purposes. Sponsor: Laronda Bailey

Intramurals

Texarkana College offers intramural athletic programs. The intramural program includes basketball, bowling, golf, tennis, and volleyball. Intramural sports are organized cooperatively through the C.O. Pinkerton Health and Fitness Complex and Student Activities.

Free Speech Area

The area in the immediate vicinity around the clock tower is designated as the Free Speech Area. In case of inclement weather, an optional location will be assigned by the Director of Facility Services. An additional free speech area is located in the immediate area outside the old Nursing Building. Requests must be submitted to the Dean of Students twenty-four hours in advance of an event.

Assemblies

At the discretion of the Administration, special assemblies may be announced. These assemblies will present programs of broad interest or of cultural value.

C. PALMER MEMORIAL LIBRARY

As a teaching center focusing on information literacy, the Palmer Memorial Library is committed to creating opportunities for student success by providing quality research materials and services in both print and electronic formats. Through its instructional programs, the library functions as an academic support center that encourages higher literacies leading to success in upper level courses and workforce career paths. Through its public service programs, the library involves the community of learners in educational activities and opportunities that support lifelong learning. The library supports the mission and goals of Texarkana College by providing the materials, instruction, and services to students, faculty, and staff, both on campus and through distance education.

With two floors and more than 23,000 square feet containing print and electronic resources, the atmosphere is conducive to study, research, collaboration, and even relaxation. The library's on-site resources include approximately 50,000 print volumes, 300 print serial subscriptions, 140,000 microfilm and microfiche items, selected federal government documents, and four daily newspapers. In addition to the print sources, students and faculty have access to more than 100,000 eBooks and more than 25,000 electronic journals through electronic database subscriptions that can be accessed both on campus and through remote access off-campus. Students log on to library resources using their myTC usernames and passwords. The library has computers (both PC and Macintosh), copiers, and scanners for student use. All workstations provide access to the library's online catalog, the Internet, Microsoft Office, and printing.

The HUB, the newly fashioned student lounge area, is located behind Circulation Services. Students may bring their meals and heat them in a microwave or enjoy a cup of coffee while browsing the Internet on their wireless laptops, or just visit with friends between classes.

To support the academic achievement of students at both institutions, Texarkana College has a partnership agreement with Texas A&M University - Texarkana that allows students from either school to use the library services of the other. Combined, the libraries provide more than 170,000 print volumes that can be searched through the shared online catalog. Student ID cards from either institution may be used to access resources, computers, reference, and inter-library loan services at both libraries. To search the online catalog or learn about other available services, visit the library's web site at <https://www.texarkanacollege.edu/library>.

D. C.O. PINKERTON HEALTH AND FITNESS COMPLEX

The Pinkerton Health and Recreation Complex is one of the finest campus recreational facilities in Texas. It offers the student, faculty, and staff of Texarkana College as well as community members in the Texarkana area, the opportunity to participate in many indoor and outdoor recreation activities. The 28,000 square foot athletic facility, combined with the 30,000 square foot Aquatic Center, make this complex a participant's delight.

General Policies

The complex was designed and is maintained with the students of Texarkana College in mind. At certain times, parts of the facility will be utilized by classes, so community members and general students must work around the class schedule. Credit and non-credit classes are given priority.

Facilities Available

- Olympic Indoor Pool
- Saunas
- Eight Lighted Tennis Courts
- Dressing Rooms/Showers/Lockers
- Four Racquetball Courts
- Classroom
- Full Cam II Weight Facility and Free Weight Facility
- ½ mile jogging track
- Exercise/Aerobics/Dance Studio
- Multi-use Gym Area: Basketball/Volleyball/Badminton/Tennis
- Fitness Room: stationary bicycles, treadmills, Stairmasters with television

Admittance Information

All students who are currently enrolled at Texarkana College who carry the appropriate ID may enter and use the facility. All full-time faculty and staff of TC, spouses and children 16 years or older and currently carried on parent's insurance, may also use the facility. Community members may pay a one-time set-up fee ranging from \$75.00 to \$150.00 determined by the type of membership to the Texarkana College Business Office.

Students and community members may bring two guests per visit, as long as they are age 16 or over, at a cost of \$5.00 each. Members must present ID cards for admittance to the facility.

E. ASSESSMENT AND TESTING CENTER

The purpose of the Texarkana College Assessment and Testing Center is to accurately administer and report confidential student assessment records and to provide a clean, fair, comfortable, and safe testing environment for all students and community members taking institutional exams, as well as correspondence/on-line, state and national exams; including but not limited to A2, Ability to Benefit, ACT, CLEP, Dantes, GED, ISO Quality, Lasergrade/PSI, Pearson Vue, SAT, and distance learning computerized and paper exams.

For a complete list please look at the Testing Center web page at <https://www.texarkanacollege.edu/admfinaid/assessment-and-testing-center/>.

NOTE: Students and community members must have a valid/current ID for admission.

TSI

The Texas Success Initiative (TSI) was instituted by the Texas Legislature in 2003 as a replacement for the Texas Academic Skills Program (TASP). The purpose of the TSI is to ensure that students enrolled in public colleges and universities possess necessary academic skills. All undergraduate students who are not exempt from the TSI must take the assessment test prior to enrollment in college-level courses. Students who do not meet established minimum standards for the new TSI Assessment (fall 2013) are required by Texas law to be enrolled in the appropriate developmental program as determined by Texarkana College. All students must participate in Pre-Assessment activities before they take the TSI Assessment.

CLEP

The College-Level Examination Program (CLEP) gives you the opportunity to receive college credit for what you already know by earning qualifying scores. Earn credit for knowledge you have acquired through independent study, prior coursework, on-the-job training, professional development, cultural pursuits, or internships. The student is responsible for contacting the receiving institution to determine what exams are required. CLEP tests are administered on a walk-in basis every day. Tests are administered in the Testing Center located in BCT 11. Obtain a registration form online at www.collegeboard.com/clep, the Advising Office, or the Assessment and Testing Center. Complete the form and return it to the Assessment and Testing Center. You must bring your picture ID and receipts of payment on the day of testing. Exams are administered on computer and scores are furnished immediately after completion.

General Educational Development (GED)

The GED Test battery consists of five separately timed tests that cover five main areas of high school study. These tests are:

Mathematics: This test covers algebra, geometry, number relations, data analysis and statistics, pie charts, bar graphs, and tables. TIME LIMIT IS 90 MINUTES, which is divided into two (2) 45 MINUTE SECTIONS with no breaks between. A calculator is provided for use on Part One. No calculator is allowed for Part Two. Students are not allowed to use their own calculator.

Language Arts Writing Skills: This test covers sentence structure, usage and mechanics, multiple choice, informational documents, business communications, and “how-to” texts. TIME LIMIT IS 2 HOURS, which is divided into 2 parts with no breaks. Test takers are given 75 MINUTES for the multiple choice section and 45 MINUTES for the essay.

Science: The test covers Earth Science (includes space science), physical science (includes physics and chemistry), environmental and health topics, relevance to everyday life and diverse roles of individuals (i.e., worker, family member, and consumer citizen. TIME LIMIT IS 80 MINUTES.

Social Studies: This test covers history, geography, civics, government, economics, and visual processing skills. TIME LIMIT IS 70 MINUTES.

Language Arts Reading Skills: This test covers literary, compare and contrast, and non-fiction. TIME LIMIT IS 65 MINUTES.

Please call 903-823-3340 to schedule a time for testing. A full testing schedule is available online along with more information at <https://www.texarkanacollege.edu/pages/618.asp>.

F. TRIO PROGRAMS: STUDENT SUPPORT SERVICES & TALENT SEARCH

Student Support Services

Student Support Services (SSS) is a federally-funded program designed to provide opportunities for academic development, assistance with basic college requirements, and to motivate students toward the successful completion of their postsecondary education. Students entering the program have a variety of needs encompassing economic, academic, and cultural diversity.

Student Support Services offers career information, tutoring, study skills, and transfer information to students who qualify for services.

All services are provided at no charge to those students who qualify and meet the criteria set forth by the Department of Education.

Location: Palmer Memorial Library (2nd floor)

Phone: 903-823-3258

Hours: Monday: 8am – 7pm

Tuesday through Thursday: 8am – 5pm

Friday: 8am – 4pm

Educational Talent Search

Texarkana College is a sponsoring institution for the Educational Talent Search Program, which is funded by the U.S. Department of Education. The Talent Search Program identifies and assists individuals from disadvantaged backgrounds who have the potential to succeed in higher education.

The program provides academic, career, and financial counseling to its participants and encourages them to graduate from high school and continue on and complete their post-secondary education. The program publicizes the availability of financial aid and assists participants with the post-secondary application process.

Talent Search also encourages persons who have not completed education programs at the secondary or post-secondary level to enter or re-enter and complete post-secondary education. The

goal of Talent Search is to increase the number of youth from disadvantaged backgrounds to complete high school and post-secondary education.

G. STUDENT COMPUTER & WIRELESS ACCESS

Texarkana College provides computers for student use and offers a variety of computer network capabilities, including internet access, electronic mail, and a wide selection of applications.

There are several computer labs located across the campus, including computer labs in math, reading, writing, and computer technology, as well as the library.

All buildings on the Texarkana College campus are equipped with wireless network access for both students and the general public. Student and employees have access to a secure portal to view information relevant to their coursework and/or employment.

H. RESIDENCE LIFE (HOUSING)

Texarkana College provides on-campus housing for men and women in an apartment style facility. It features 12 two-student efficiency apartments with a kitchenette, bathroom, and closet. Students may reserve space in college housing by completing a Housing Application available online at <https://www.texarkanacollege.edu/campus-life/residence-life/campus-apartment-application/>.

Applications should be returned to the Dean of Workforce and Continuing Education, Texarkana College, 2500 North Robison Road, Texarkana, Texas 75599.

Students should be aware that housing reservations will be handled on a space-available basis. The College reserves the right to make specific room assignments, although roommate preferences will be honored whenever possible. The College also reserves the right to change, prior to the beginning of a semester, the rates charged for room rentals; however, this will be done only when absolutely necessary to cover costs. Room charges for on-campus housing during a regular term (Spring and Fall) at Texarkana College include a double occupancy room and basic cable television.

Students are allowed to have small refrigerators and microwaves in their rooms.

Total Charges & Payment Terms: Room charges for the entire semester are due and payable – either in full or by completing an installment agreement – at registration.

Campus Housing (Apartments).....\$2,000.00 per semester (5 months)

Double Occupancy only.....\$400.00 per month (June and July Summer Sessions)

Installment Schedule: Students wishing to pay room charges in installments must make arrangements through the Texarkana College Business Office prior to the first day of class. Failure to meet installment obligations will result in severe penalties, including placing a hold on the student’s record when accounts become 30 days past due.

Housing Deposit: A \$200.00 housing deposit is required in advance to reserve a room in the apartment complex. This also serves as a property deposit, and any damages or shortages at the time the student vacates the room will be deducted from the amount. Circumstances under which the deposit will be refunded are covered fully in the Texarkana College Housing Application. The Texarkana College Board of Trustees reserves the right to adjust college housing room and board charges in accordance with operational costs.

Bacterial Meningitis Vaccination: During the 2009 Texas legislative session, House Bill 4189 (HB 4189) was passed and signed into law. HB 4189 requires that any incoming new student who lives on campus must either receive a vaccination against bacterial meningitis (10 days prior to moving in) or meet certain criteria for declining such a vaccination before they can live on campus. Students who are living on campus will be required to provide verification of vaccination against bacterial meningitis or provide a signed affidavit declining the vaccination. Documentation must be provided at the time of application.

Security: The Dean of Workforce and Continuing Education provides direct supervision of residence hall security personnel, policies and procedures, and along with other college officials, reserves the right to forcibly remove any student from the campus who poses an immediate threat to the health and safety of the College environment. The Texarkana College Department of Public Safety monitors residence hall entrances, common areas, and hallways with surveillance cameras.

Texarkana College is entitled to obtain from the Texas Department of Public Safety criminal history record information maintained by the department that relates to a student, or to an applicant for admission as a student, who applies to reside in on-campus housing at the institution.

I. DEPARTMENT OF PUBLIC SAFETY

The Texarkana College Department of Public Safety consists of highly dedicated men and women tasked with the enforcement of all rules and procedures of Texarkana College as well as the laws and statutes of the State of Texas. The TCDPS currently operates under the oversight of the Director of Human Resources and employees both licensed Texas Peace Officers and non-commissioned security personnel.

Located on the second floor of the Aikin Building, the Texarkana College Department of Public Safety operates on a continual basis 24 hours/day and is the only department that remains open during time of routine college closure (i.e. Holidays, Spring Break).

Mission Statement: As members of the Department of Public Safety at Texarkana College, our mission is to contribute toward the quality of campus life by fostering a stable environment in which security is balanced with freedom of movement, and individual rights are balanced with community needs.

The success of this mission depends upon a true partnership between Public Safety personnel and the diverse population of students, staff, faculty, and visitors that constitute the campus community – a partnership built on mutual respect and responsibility. Working together, this partnership will serve to further enhance the learning environment.

Toward that partnership, the members of the Department of Public Safety pledge their respect for the needs and rights of the community, their diligence and professionalism in the protection of persons, property and rights, and to their determination to continually seek new a better ways to reduce to opportunity for crime. The Department of Public Safety personnel will strive to increase safety awareness and to encourage a sense of communal concern for each other’s safety and well-being.

Emergency Alert and Campus Announcement System

Texarkana College utilizes the Rave Alert System to notify students and employees via text message regarding campus emergency situations and important campus announcements. Subscribing to the Rave Alert System is voluntary and is dependent upon the individual providing an accurate and current cell phone number for our system records.

Emergency Message Delivery

Contact the College Police Department if a need arises to have an emergency message delivered on campus.

Information Regarding Gang-Free Zones

Texarkana College is designated a “Gang Free Zone” and as such, any individuals) involved in organized criminal activity as defined by the Texas Penal Code Chapter 71 is subject to punishment if the offense is committed within 1,000 feet of the premises owned, rented, or leased by Texarkana College. The offenses subject to this provision can be found in Chapter 71 of the Texas Penal Code

Campus Sex Crimes Prevention Act

In compliance with the Campus Sex Crimes Prevention Act (section 1601 of Public Law 106-386 and the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act), persons required to register as part of the State of Texas Sex Offender Registration Program must contact Texarkana College’s Police Department at 903-823-3334.

VI. STUDENT CODE OF CONDUCT, DISCIPLINE & GRIEVANCE POLICIES

A. GENERAL REGULATIONS

The students of Texarkana College are expected to obey the laws of the land, the regulations of the College, and to act in keeping with the accepted customs of society. While the administration and discipline committee cannot assume full responsibility for the students when they are not on campus, the college reserves the right to dismiss a student whose conduct is deemed improper or is detrimental to the welfare of the college Community.

B. DEFINITIONS

1. The term “College” means Texarkana College.
2. The term “student” means any individual who is applying for or who has been accepted for admission or enrollment in credit or non-credit classes at Texarkana College.
3. The term “College Official” includes any person employed by Texarkana College while performing assigned administrative or professional responsibilities.
4. The term “member of the College community” includes any person who is a student, visitor, faculty or staff member, College official, or any other person employed by the College.
5. The term “College premises” includes all land, buildings, facilities, and other property in the possession of, owned, used, or controlled by the College.
6. The term “student organizations” means any number of students who have complied with the requirements for registration as an organization with the College.
7. The term “hold” refers to the indicator placed on a student’s official record, preventing registration and/or the issuance of a transcript until the student meets the requirements of the College office placing the indicator on the account.

C. VEHICLE REGULATIONS

1. All students and employees are required to have a parking permit to park on campus.
2. Students and Employees are not allowed to park in Visitor Parking.

3. Students are not allowed to park in Faculty/Staff parking space/lots.
4. Students and employees must have a Handicap sticker to park in specially marked spaces.
5. Fines will be issued to those that park in areas not allowed.
6. Parking permit application and permits are available in the Business Office.
7. Student parking permits are \$15.00 and are good for the school year (September through August).
8. Parking permits must be placed on the glass and should be visible to Campus Police.
9. Each car driven on campus must have a separate application and parking permit.
10. Permits are kept on file with TC Campus Police.
11. Parking fines are paid in the TC Business Office.

Rate of Speed on Campus

The maximum rate of speed on campus is 15 miles per hour.

Parking Areas for Students

Students are required to park between the two WHITE lines, whether it is parallel or diagonal parking. Students may NOT park in spots labeled “Faculty” or others designated by state law, including handicapped (unless applicable), fire zones, loading zones, etc. Student vehicles parked in restricted areas are subject to tickets and removal of the vehicle at the owner’s expense. Additional information can be obtained at the Texarkana College Department of Public Safety or by calling 903-823-3330.

D. TYPES OF MISCONDUCT

Any student found to have committed misconduct while classified as a student is subject to disciplinary sanctions, conditions, and/or restrictions. Misconduct or prohibited behavior includes, but is not limited to:

1. Academic Dishonesty
 - a. Cheating, defined as any act that gains or attempts to gain an unfair advantage in an academic setting.
 - b. Plagiarism, defined as using someone else’s words or ideas without referencing the source.

- c. Collusion, defined as unauthorized cooperation between individuals that results (or potentially results) in giving an unfair advantage in an academic setting.
- d. Falsifying academic records'
- e. Misrepresenting fact to the College or a College official.
- f. Any act intended to give unfair academic advantage to the student.

Note: When a report of alleged misconduct is received, the Academic Grievance procedure listed in the Discipline and Penalties section of this catalog will be followed.

- 2. Consumption, possession, or distribution of illegal drugs or alcohol on College property;
 - a. Sources for information on illegal drugs:
 - i. Commonly Abused Drugs <http://www.nida.nih.gov/drugsofabuse.html>
 - ii. Federal Trafficking Penalties
<http://www.usdoj.gov/dea/agency/penalties.htm>
 - iii. Comparative Pharmacological Profiles of Abused Drugs
<http://www.tcada.state.tx.us/research/slang/compare98.pdf>
- 3. Use or possession of any items appearing to be or which could be used as weapons, including, but not limited to: handguns, firearms, ammunition, fireworks, pellet guns, paintball guns, BB guns, knives, or explosive or noxious materials on College premises except as expressly permitted by federal, state, and/or local law.
- 4. Interference, coercion, disruption, or reckless behavior which impedes, impairs, or disrupts College missions, processes, or functions which endangers others or interferes with the rights of others on College property.
- 5. Any incident involving violation and conviction of public laws is subject to disciplinary action by the college.
- 6. Falsifying, altering, or forging any official College record or document, employing official documents or records for purposes of misrepresentation, or causing any official College Document or record to be falsified by means of any misrepresentation.
- 7. Hazing in any form.
- 8. Knowingly passing a worthless check or money order to the college or a member of the college community acting in an official capacity.
- 9. Possessing stolen property on College property.
- 10. Defacing, disfiguring, damaging, or destroying public or private property on College property.
- 11. Giving false testimony or other evidence at any official hearing of the College, or giving false information to any faculty or staff member acting in the performance of their duties.
- 12. Harassing anyone present on College property. [See FFD]
- 13. Gambling, wagering, gaming, or bookmaking as defined by federal, state, and/or local law on College premises or with the use of equipment or services.
- 14. Abusive, drunken, violent, or excessively noisy behavior or expression on College premises.
- 15. Lewd, indecent, or obscene behavior on College premises.
- 16. The threat or commission of physical violence against any person present on College premises.

17. Students are prohibited from assaulting any person on College District property or while under the College District's jurisdiction.
 - a. Simple Assault is defined as:
 - i. Intentionally, knowingly, or recklessly causing bodily injury to another. Penal Code 22.01 (a)(1).
 - ii. Intentionally or knowingly threatening another with imminent bodily injury. Penal Code 22.01 (a)(2).
 - iii. Intentionally or knowingly causing physical contact with another when the person knows or should reasonably believe that the other will regard the contact as offensive or provocative. Penal Code 22.01 (a)(3)
 - b. Aggravated assault is defined as causing serious bodily injury to another or using or exhibiting a deadly weapon during commission of an assault. Penal Code 22.01 (a)
 - c. Sexual assault is defined as intentionally or knowingly causing physical sexual contact or sexual penetration of another person without that person's consent. Sexual assault is without consent of the other person if the actor compels the other person to submit or participate by use of physical force or violence, or threat of force or violence, and the other person believes the actor has the present ability to execute the threat, or the other person cannot consent. Penal Code 22.011
 - d. Aggravated sexual assault is defined as sexual assault in which the actor:
 - i. Causes serious bodily injury or attempts to cause the death of a victim or other person in the course of the same criminal episode; or
 - ii. By acts or words occurring in the presence of the victim, threatens to cause death, serious bodily injury, or kidnapping; or
 - iii. Uses or exhibits a deadly weapon in the course of the same criminal episode; or
 - iv. Acts in concert with another who commits a sexual assault directed toward the same victim and occurs during the same criminal episode; or
 - v. Assaults a victim who is younger than 14 years of age or is an elderly or disabled individual.
18. By acts or words occurring in the presence of the victim, threatens to cause death, serious bodily injury, or kidnapping.
19. Uses or exhibits a deadly weapon in the course of a criminal episode.
20. Acts in concert with another who commits a sexual assault directed toward the same victim and occurs during the same criminal episode.
21. Assaults a victim who is younger than 14 years of age or is an elderly or disabled individual. Penal Code 22.021
22. The commissions of acts which constitute a violation of local, state, or federal law on College premises.
23. Unauthorized entry or use of College facilities or any violation of College rules regarding the use of College property.
24. Failure to comply with directions of College officials acting in the performance of their duties.

25. Failure to present student identification on request of a College official acting in the performance of their duties.
26. The threat or commission of physical violence against any College employee for the purpose of influencing the employee's official actions.
27. Stealing any item of tangible or intangible public or private property on College premises.
28. Bribing any College employee.
29. Unauthorized access to or misuse of College computers, computing programs, or service, and/or failure to comply with Texarkana College Computer Use Policies.
30. Lifting, taking, or acquiring possession of, without permission, any academic material (tests, information, research papers, notes, books, periodicals, etc.) from a member of the College community (this includes the theft of instructors' or other student's books and/or materials for resale to the Bookstore).
31. Students of the College, while on campus and/or participating in any function or activity of the college, are expected to meet acceptable standards of dress and personal hygiene. A student's dress or personal hygiene shall be considered unacceptable if it is obscene or interferes with the educational responsibility of the College community or if it disrupts the administrative functions of the college, including social-educational activities.

E. TEXARKANA COLLEGE ALCOHOL AND DRUG USE POLICY

I. Alcohol

A student shall be prohibited from using or being under the influence of intoxicating beverages in classroom buildings, laboratories, auditoriums, library buildings, museums, faculty and administration offices, intercollegiate and intramural athletic facilities, and all other public campus areas. With the prior consent of the Board or the Board's designee, the provisions herein may be waved with respect to any specific event that is sponsored by the College District. State law shall be strictly enforced at all times on all property controlled by the College District in regard to the possession and consumption of alcoholic beverages.

II. Controlled Substances

No student shall possess, use, transmit, or attempt to possess, use or transmit, or be under the influence of, any of the following substances on College District premises or off premises at a College District-sponsored activity, function or event:

- A. Any controlled substance or dangerous drug as defined by law, including but not limited to marijuana, any narcotic drug, hallucinogen, stimulant, depressant, amphetamine, or barbiturate.
- B. Any abusable glue, aerosol paint, or any other volatile chemical substance for inhalation.
- C. Any performance-enhancing substance, including steroids.

D. Any designer drug.

E. Any other intoxicant or mood-changing, mind-altering, or behavior-altering drug.

III. Exception

A student who uses a drug authorized by a licensed physician through a prescription specifically for that student's use shall not be considered to have violated this rule.

IV. Violation

Students who violate this policy shall be subject to appropriate disciplinary action. Such disciplinary action may include referral to drug and alcohol counseling or rehabilitation programs or student assistance programs, suspension, expulsion, and referral to appropriate law enforcement officials for prosecution.

F. TEXARKANA COLLEGE TOBACCO-FREE CAMPUS POLICY

IV. Introduction

Texarkana College has a vital interest in maintaining a safe and healthy environment for our students, employees, and visitors. The purpose of this policy is to reduce harm from secondhand smoke, provide an environment that encourages persons to be tobacco free, establish a campus culture of wellness, reduce health insurance and health-care costs, and promote a tobacco-free future.

The 2006 U.S. Surgeon General's Report states that there is no safe level of exposure to secondhand smoke. Breathing secondhand smoke for even a short time can be harmful and set processes in motion such as cancer, heart disease, or respiratory conditions.

V. Definitions

For purposes of this policy:

F. "E-cigarette" means any electronic oral device, such as one composed of a heating element, battery, and/or electronic circuit, which provides a vapor of nicotine or any other substances, and the use of inhalation of which simulates smoking. The term shall include but not limited to any such device, whether manufactured, distributed, marketed, or sold as an e-cigarette, e-cigar, e-pipe, or under any other product name or descriptor.

G. "Tobacco Product" means all forms of tobacco, including, but not limited to cigarettes, cigars, pipes, water pipes (hookah), electronic cigarettes and smokeless tobacco products.

- H. “College Community” includes faculty, staff, students, volunteers, vendors, and other persons on campus.

VI. Policy

- A. This policy applies to all members of the College community.
- B. For areas located within Bowie and Cass Counties, the use of all tobacco products is prohibited on all property that is owned, operated, leased, occupied, or controlled by the College, except as otherwise provided in Section IV – Exceptions and limitations.

The use of tobacco products is prohibited

- in all Texarkana College vehicles.
 - in any vehicle that is leased or rented by Texarkana College.
 - in all private vehicles parked on property owned or leased by Texarkana College.
 - in all buildings owned, leased, or rented by Texarkana College.
- C. Complaints concerning employees of the College should be brought to the attention of the employee’s immediate supervisor or the Director of Human Resources.
 - D. Complaints concerning students should be brought to the attention of a campus police officer, who may refer the matter to the Dean of Students. Any official actions taken will be in accordance with the Student Code of Conduct.
 - E. Significant signage will be posted throughout the campus to inform members of the College Community and its visitors of the Tobacco Free Campus Policy.
 - F. The College District shall offer and promote prevention and education initiatives that actively support non-use of tobacco products and address the risks of all forms of tobacco use.
 - G. The College President, or designee, shall develop administrative regulations and procedures as necessary to implement this policy, including enforcement and disciplinary consequences.

IV. Exceptions and Limitations

- A. The use of tobacco products may be permitted for educational and clinical purposes with prior approval of the Vice President of Instruction or designee.
- B. Tobacco use may be permitted on properties the College owns but leases or otherwise conveys an interest to a non-College party according to the provisions of the Applicable lease or agreement, and with the prior approval of the College President or designee.

G. COPYRIGHTS

Students are required to comply with all local, state, federal, and international copyright laws and with College policies regarding the use of copyright-protected materials at Texarkana College. Whenever copyright-protected works are used and fair use does not clearly apply, Texarkana College requires students to obtain written permission from the copyright owner. Downloading, uploading, or transmitting files containing copyright-protected works without the permission of the copyright owner is prohibited by Texarkana College. A violation of this policy may subject the infringer to Texarkana College disciplinary action, is illegal, infringes the copyright owner's rights, and may result in legal liability for the infringer and the College.

Most forms of expression, whether images, sculptures, designs, interactive works, books, movies, blogs, videos, music, or software, are protected by copyright law upon fixation in a tangible form. Expressive works are protected whether or not the work bears a copyright notice, and without regard to where the work is published or displayed. Copyright-protected works cannot be copied, distributed, adapted, performed, or displayed without the permission of the copyright owner. Any unauthorized use of copyright-protected work infringes the copyright owner's exclusive rights under copyright law.

A finding of copyright infringement does not require that the unauthorized use of the work be commercial, or that the infringer knows that the use is infringing. Even accidental copyright infringement creates legal liability. An infringer faces paying the copyright owner monetary damages, having the infringing work destroyed, and serving time or paying fines for certain criminal activities connected to copyright infringement. If the infringed work was registered with the U.S. Copyright office prior to infringement, the copyright owner may be entitled to collect anywhere from \$750 to \$150,000 per infringement in "statutory damages" from the infringer. Simply defending an accusation of copyright infringement is costly.

Fair use is a defense to copyright infringement that is intended to provide room for freedom of expression in the copyright law. Where an unauthorized use transforms, repurposes, comments upon, or criticizes the original copyright protected work, or is made for scholarly or educational purposes, the use may be a fair use and non-infringing of the copyright owner's rights. On the other hand, an unauthorized use of a copyright-protected work that merely reproduces the original work for a purpose similar to the original work's purpose is unlikely to be a fair use. The fair use defense to copyright infringement is a complex body of law and often requires a substantial expenditure of legal fees to succeed. Sharing music, movies, or software online without the permission of the copyright owner is not a fair use.

The Digital Millennium Copyright Act (DMCA) penalizes circumvention of technology use to prevent the unauthorized use of copyright-protected works. A violation of the DMCA may result in criminal penalties, including fines and imprisonment, and the defense of fair use does not apply to many provisions of the DMCA.

Texarkana College prohibits use of its technology systems, including, without limitation, use of its website, email system, intranet, digital studios, computer labs and bulletin board systems

(“Technology Resources”) in connection with illegal activities, including such activities as circumvention of access control or copy protection technology, unauthorized file sharing, or other means of downloading, copying, distributing, or sharing by others without the permission of the copyright owner.

H. DISCIPLINE AND PENALTIES

A student shall be subject to discipline for violations of College district policies and procedures, including the rules outlining expectations for student conduct. If a student commits an infraction or engages in misconduct, the College district may impose one or more of the following penalties:

1. *Reprimand* – A verbal or written warning to the student following a rule violation. Repetition of such misconduct may result in more severe disciplinary actions.
2. *Restitution* – Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damage.
3. *Scholastic Penalties* – The assignment of a failing grade on an assignment or examination or in a course by an instructor based on scholastic dishonesty; including cheating, collusion, and plagiarism; committed by a student. The instructor shall submit a written report of the incident and of the planned action to the instructor’s dean.
4. *Conditional Probation* – The placing of a student on notice that continued infraction of regulations may result in suspension or expulsion from the College. Conditional probation may include restrictions on a student’s rights and privileges or specified community service. The probation may be for a specified length of time or for an indefinite period according to the relative severity of the infraction or misconduct. Failure to fulfill the terms of the probation may lead to suspension or expulsion.
5. *Suspension* – Forced withdrawal for the college for either a definite period of time or until stated conditions have been met. Normally suspension shall extend through a minimum of one regular long semester (with summer sessions not counting in the one semester minimum time lapse). However, suspension may exceed the one semester minimum.
6. *Expulsion* – Permanent forced withdrawal from the College. A student receiving disciplinary expulsion shall have the action noted in the student’s permanent record.

No former student who has been suspended or expelled from the College District for disciplinary reasons shall be permitted on the campus or other facilities of the College District, initiated into an honorary or service organization, or permitted to receive credit for academic work done in residence or by correspondence or extension during the period of suspension or expulsion without the prior approval of the College President or a designated representative.

When the Dean of Students or other designee of the College President receives information that a student has allegedly violated a College District policy or administrative rule, the dean or designee shall investigate the alleged violation. After completing a preliminary investigation, he or she may:

- Dismiss the allegation and provide the student written notice that the allegation of misconduct was made against the student and that the allegation was dismissed.
- Summon the student for a conference to be held within a reasonable time, not to exceed ten College District Business days, following the receipt of the allegation of misconduct. At the conference, the Dean of Students or designee shall notify the student of the allegation and provide the student an opportunity to respond.

After conferring with the student, if the Dean of Students or designee determines that the student did not commit a violation, the allegation shall be dismissed as unfounded. The student shall be provided written notice of the dismissal.

If the Dean of Students or designee determines that the student committed misconduct that warrants further action by the College, the student must be informed in writing of the determination in accordance with board policy FMA (Local). The procedures to be followed are outlined in FMA (Local).

I. STUDENT COMPLAINTS

The College District encourages students to discuss their concerns with the appropriate instructor or other campus administrator who has the authority to address the concerns. Concerns must be expressed within ten days of the occurrence to allow early resolution at the lowest possible administrative level. Information resolution shall be encouraged but shall not extend any deadlines in this policy, except by mutual written consent.

Formal Process

A student may initiate the formal process described below by timely filing a written complaint form.

Even after initiating the formal complaint process, students are encouraged to seek informal resolution of their concerns. A student whose concerns are resolved may withdraw a formal complaint at any time.

The process described in this policy shall not be construed to create new or additional rights beyond those granted by law or Board policy, or to require a full evidentiary hearing or “mini-trial” at any level.

Freedom from Retaliation

Neither the Board nor any College District employee shall unlawfully retaliate against any student for bringing a concern or complaint.

Notice to Students

The College District shall inform students of this policy through appropriate College District publications.

Complaints

In this policy, the terms “complaint” and “grievance” shall have the same meaning.

Other Complaint Processes

Student complaints shall be filed in accordance with this policy, except as required by the policies listed below. Some of these policies require appeals to be submitted in accordance with FLD after the relevant complaint process.

- a) Complaints alleging discrimination or harassment based on race, color, gender, national origin, disability, age, or religion. [See FFD]
- b) Complaints concerning retaliation relating to discrimination and harassment. [See FFD]
- c) Complaints concerning disciplinary decisions. [See FMA]
- d) Complaints concerning a commissioned peace officer who is an employee of the College District. [See CHA]

General Provisions – Filing

Complaint forms and appeal notices may be filed by hand-delivery, by electronic communication, including e-mail and fax, or U.S. Mail. Hand-delivered findings shall be timely filed if received by the appropriate administrator or designee by the close of business on the deadline. Filings submitted by electronic communication shall be timely filed if they are received by the close of business on the deadline as indicated by the date/time show on the electronic communication. Mail filings shall be timely filed if they are postmarked by the U.S. Mail on or before the deadline and received by the appropriate administrator or designated representative no more than three days after the deadline.

Scheduling Conferences

The College District shall make reasonable attempts to schedule conferences at a mutually agreeable time. If a student fails to appear at a scheduled conference, the College District may hold the conference and issue a decision in the student’s absence.

Response

At levels One, Two, and Three, “response” shall mean a written communication to the student from the appropriate administrator. Responses may be hand-delivered, sent by electronic communication to the student’s e-mail address of record, or sent by U.S. Mail to the student’s mailing address of record. Mailed responses shall be timely if they are postmarked by U.S. Mail on or before the deadline.

Days

“Days” shall mean College District business days. In calculating time lines under this policy, the day the document is filed is “day zero.” The following day is “day one.”

Representative

“Representative” shall mean any person who or organization that is designated by the student to represent the student in the complaint process.

The student may designate a representative through written notice to the College District at any level of this process. If the student designates a representative with fewer than three days’ notice to the College District before a scheduled conference or hearing, the College District may reschedule the conference or hearing to a later date, if desired, in order to include the College District’s counsel. The College District may be represented by counsel at any level of the process.

Consolidating Complaints

Complaints arising out of an event or series of related events shall be addressed in one complaint. A student shall not bring separate or serial complaints arising from any event or series of events that have been or could have been addressed in a previous complaint.

Untimely Filings

All time limits shall be strictly followed unless modified by mutual written consent.

If a complaint form or appeal notice is not timely filed, the complaint may be dismissed, on written notice to the student at any point during the complaint process. The student may appeal the dismissal by seeking review in writing within then days from the date of the written dismissal notice, starting at the level at which the complaint was dismissed. Such appeal shall be limited to the issue of timeliness.

Costs Incurred

Each party shall pay its own costs incurred in the course of the complaint.

Complaint and Appeal Forms

Complaints and appeals under this policy shall be submitted in writing on a form provided by the College District.

Copies of any documents that support the complaint should be attached to the complaint form. If the student does not have copies of these documents, copies may be presented at the Level One conference. After the Level One conference, no new documents may be submitted by the student unless the student did not know the documents existed before the Level One conference.

A complaint or appeal form that is incomplete in any material aspect may be dismissed, but may be refiled with all the required information if the refiling is within the designated time for filing.

Student Complaint Procedure

1. Informal

- a. Student encouraged to resolve his/her complaint with the faculty or staff member involved.
- b. This must be done within 10 business days of the occurrence.
- c. If the student is satisfied with the faculty member's decision, the matter is settled.

2. Formal

a. Level One

- i. If the student is not satisfied, the student may submit a Student Complaint/Grievance Form within ten business days to the appropriate division dean or lowest level administrator who has the authority to remedy the alleged problem. If the division dean is the faculty member involved, the complaint should be submitted to the Dean of Students. The complaint form must be hand delivered, electronically submitted by fax or email, or sent by U.S. Mail.
- ii. The appropriate administrator shall investigate as necessary and hold a conference with the student within ten business days after receipt of the written complaint.
- iii. The administrator shall provide the student with a written response within ten days following the conference.
- iv. If the student is satisfied with the response, the matter is settled.

b. Level Two

- i. If the student is not satisfied, the student may submit a Student Appeal Form to the Dean of Students within ten business days of the date of the written Level One response or, if no response was received, within ten business days of the Level One response deadline. The appeal must be hand delivered, electronically submitted by fax or email, or sent by U.S. Mail.

- ii. The Level Two administrator shall hold a conference with the student within ten days after the appeal notice is filed. The conference shall be limited to the issues presented by the student at Level One and identified in the Level Two appeal notice.
- iii. The Level Two Administrator shall provide the student with a written response within ten business days following the conference.
- iv. If the student is satisfied with the response, the matter is settled.

c. Level Three

- i. If the student is not satisfied with the Level Two response, or if the time for a response has expired, the student may request a conference with the College President or designee to appeal the Level Two decision within ten business days of the Level Two response, or, if no response was received, within ten business days of the Level Two response deadline.. The appeal must be hand delivered, electronically submitted via fax or e-mail, or sent by U.S. Mail.
- ii. The Level Three administrator shall hold a conference within ten business days after the appeal notice is filed. The conference shall be limited to the issues presented by the student at Level One and identified in the Level Three appeal notice.
- iii. The Level Three administrator shall provide the student a written response within ten days following the conference.
- iv. If the student is satisfied with the response, the matter is settled.

d. Level Four

- i. If the student is not satisfied, the student may submit a Student Appeal Form to the Texarkana College Board of Trustees within ten days after the receipt of the written Level Three response, or, if no response was received, within ten days of the Level Three response deadline.
- ii. The College President or designee shall inform the student of the date, time, and place of the Board meeting at which the complaint will be on the agenda for presentation to the Board.
- iii. The College District shall determine whether the complaint will be presented in open or closed meeting in accordance with the Texas Open Meetings Act and other applicable law.
- iv. In addition to any other record of the Board meeting required by law, the Board shall prepare a separate record of the Level Four presentation. The Level Four presentation, including the presentation by the student or the student's representative, any presentation from the administration, and

questions from the Board with responses, shall be recorded by audio recording, video/audio recording, or court reporter.

- v. The Board shall then consider the complaint. It may give notice of its decision orally or in writing at any time up to and including the next regularly scheduled Board meeting.
- vi. If for any reason the Board fails to reach a decision regarding the complaint by the end of the next regularly scheduled meeting, the lack of a response by the Board upholds the administrative decision at Level Three.

VII. DEGREES, CERTIFICATES, AND CORE CURRICULUM

Degrees and Certificates

ASSOCIATE OF APPLIED SCIENCE DEGREE

Automotive Technology	Drug & Alcohol Abuse Counseling
Auto Body Technology	Electrical Technology
Child Development	Electronics Technology

Construction Technology	Two Semester Certification
Cosmetology	One Year Certification
Cosmetology Instructor	Medical Office Procedures
Culinary Arts	Pharmacy Technician
Diesel Technology	Vocational Nursing (LVN)
	Certified Nursing Assistant
	Welding

Explanation of Degrees

Associate of Applied Science (AAS) Degree

The individual courses of study will include the requirements for graduation. Please refer to your individual degree plan for specifics.

TC awards the Associate of Applied Science degree for successful completion of prescribed two-year programs of study that enable the graduate to enter an occupation with a marketable skill, an acceptable level of competency, and the ability to communicate intelligently. Several Associate of Applied Science degree programs provide a foundation for transfer to a four-year institution offering Bachelor of Science degrees in occupational programs.

The Associate of Applied Science degree programs require a minimum of 15 semester hours of general education including 2 courses (6 credit hours) in communications, and at least one course (minimum 3 credit hours) from each of the following areas: humanities/fine arts, social/behavioral sciences, and natural sciences/mathematics. General education requirements in AAS programs are in compliance with the *Guidelines for Instructional Programs in Workforce Education*.

Academic Degrees—Associate of Arts (AA) and Associate of Science (AS)

The Associate of Arts and the Associate of Science degree provide general academic curricula in university-parallel and pre-professional courses of study which enable students to enter as juniors at senior colleges or universities of their choice. Students who attend TC for one or two years and transfer to senior colleges or universities should have no difficulty completing transfer of credits if they follow these steps:

1. Select a major field of study and a senior college or university which offers a bachelor's degree in the chosen field
2. Write or visit the Registrar's Office of the senior college or university to obtain a current copy of its catalog, and study the freshman and sophomore courses offered
3. See an academic TC advisor or counselor who will help select TC courses corresponding to those offered for freshman and sophomore years at the senior college or university
4. Complete the courses with a grade point average (GPA) of at least 2.0 (C average)
5. Apply for admission to the senior college or university early in the last semester at TC and ask the Registrar's Office to send a transcript to the receiving institution

The Associate of Arts and Associate of Science degree programs provide the Texas Core Curriculum (general education requirement) consisting of 42 semester hours as mandated by Rule 4.28 of the Texas Higher Education Coordinating Board (THECB). In compliance with the Core Curriculum requirements specified by the THECB, the Texarkana College Core Curriculum includes the following minimum requirements: communication (6 credit hours), humanities/fine arts (6 credit hours), social/behavioral sciences (15 credit hours), mathematics (3 credit hours), and life sciences (6 credit hours). All core curriculum courses are approved to transfer and to

apply toward any undergraduate degree at a public college, university, or health science center in Texas.

Additionally, Texarkana College does offer a number of major concentrations within the Associate of Arts and Associate of Science degrees that allow students to better facilitate the transition to degree majors at four year colleges. Students are encouraged to work closely with college counselors or advisors in choosing the proper courses in line with both their desired major concentration and the senior institution to which they wish to transfer. Specific major concentrations within the Associate of Arts and Associate of Science degree programs are indicated on student transcripts.

DEGREES AND CERTIFICATES

NOTICE

Effective Fall 2014, students who complete a one year certificate program in the Workforce Education Division, and are interested in enrolling in another certificate program upon completion must see an advisor to be placed at the bottom of the wait list. Students enrolling in an additional certificate program will not be considered for registration until one week prior to the first day of class. Students who are interested in continuing his or her education may choose to enroll in academic courses at any time once registration begins each semester.

The goal of the Workforce Education Division is to prepare students for successful employment upon completion. Due to the limited numbers of available spots each semester, students who are new to the college, and/or programs will be enrolled first.

Air Conditioning/Heating and Refrigeration Technology

One-year Certificate (Level One)

This program is designed to train students to meet employment requirements in the field of air conditioning, refrigeration, and heating. This will include the installation, repair and maintenance of air-conditioning/refrigeration Equipment. Included in this program is the study of residential and commercial air conditioners, heat pumps, gas and electric furnaces, and the design of air conditioning systems. Throughout the entire program and emphasis is place on current techniques used by service technicians. An emphasis is placed on graduate students being nationally and EPA certified.

Arts (Fine and Studio Arts)

Associate of Arts

The curriculum in art is designed for either students who wish to transfer to other colleges and universities, or those who only wish to acquire skill or knowledge in creating. Drawing, painting, sculpting, and observing will allow each student to discover their own unique means of expression. Texarkana College art classes offer a very rare ingredient in art training today – individual attention. Small classes form the backbone of the structure necessary for creativity. This is not just a convenience; it is a way of teaching. Although Texarkana College offers many advantages over a larger four-year university, all the classes are geared for transfer into any accredited college or university.

The following is a suggested course of study which will satisfy the requirements for this Associate of Arts degree at Texarkana College.

Auto Body Technology

Associate of Applied Science

The Auto Body/Collision and Repair Associate of Applied Science degree program is a sequence of courses designed to prepare students for careers in the auto body and collision repair profession. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. The program consists of 60 hours of coursework and commonly takes four semesters to complete when taken during the day. The range of study varies from vehicle safety systems to auto repair and repainting.

Auto Body Technology

One-year Certificate

(Level One)

The Auto Body Repair certificate program offers a number of career options by providing students the opportunity to earn a one-year certificate. Most of our students go directly into the workforce in technical or mechanical jobs, while some go on to start their own business. A background in auto body repair can be a valuable asset in a number of careers: collision repair technician, automotive detailer, insurance estimator, and custom auto builder/painter. The Auto Body Repair program consists of 40 hours of coursework and commonly takes three semesters to complete. Range of study varies from shop safety to metallurgy to paint restoration.

Automotive Maintenance and Light Automotive Repair

One-Semester Certificate (Level One)

The Automotive Maintenance and Light Automotive Repair Level 1 Certificate is a specialized program that allows students to fast track into the automotive industry. Students will be trained on the basic essentials that are necessary to start an automotive degree. Completing the Level 1 Certificate allows a student to work in jobs such as a vehicle service apprentice, a lubrication and chassis specialist, and other entry level automotive repair positions.

Students are urged to follow the degree plan of the college from which they eventually plan to earn a Bachelor's degree.

Certified Nurse Assistant Program

The Certified Nurse Assistant faculty is dedicated to facilitating the growth and development of enrolled students in becoming competent entry-level Certified Nurse Assistants (CNA) to function as a vital member of the healthcare team in a variety of settings.

The Certified Nurse Assistant program offers students the ability to gain employment in the growing healthcare industry after one semester of coursework. Students will learn the theory of providing care and practice skills in the laboratory setting as well as hands-on patient training through clinical rotations. Students will be introduced to the roles and duties of various health professionals, the healthcare system, and healthcare delivery methods. Upon successful completion of the program, students will be prepared to take the certification exam for CNAs in Texas.

CNA Program Admission Requirements

1. A college Application for Admission indicating Certified Nurse Assistant/Aide as your major and the date of desired enrollment. Students must meet all TC admission requirements.
2. A personal guidance interview with the Health Sciences Admissions Specialist. Call for an appointment.
3. Complete the Accuplacer exam with the following scores: Math ≥ 40 ; Reading ≥ 50 ; Writing ≥ 50 . You may ask the college Advising Office staff for a math review sheet. Math and reading review and practice are also available at www.vcn.org.
4. An official high school transcript or GED scores and transcripts from all other colleges attended. Graduates of the CNA Program must be 18 years or older to gain employment in the state of Texas.
5. Any student on suspension or probation must be cleared through the Admissions Office.
6. Prior to acceptance, a physical examination, negative drug screen, and satisfactory criminal background check. These are not required until notification in writing of "Conditional Acceptance" into the CNA program has been received.
7. Hepatitis B vaccination series. NOTE: It takes 4-6 months to complete the vaccine series. Allow time for this prior to application/entry. If you have questions, please contact the Pharmacy Technician Program Coordinator.
8. Varicella: Students are required to have received one dose of varicella vaccine on or after the student's first birthday, or, if the first dose was administered on or after the student's thirteenth birthday, two doses of varicella vaccine are required.
9. Tetanus-diphtheria vaccine within the last 10 years.
10. Proof of a Negative TB skin test or negative chest x-ray within six months prior to starting the program.
11. Measles, Mumps & Rubella (MMR)
 - i. Students born on or after January 1, 1957 must show proof of vaccination of two doses of measles-containing vaccine administered SINCE January 1, 1968 (preferably MMR vaccine).
 - ii. Students born on or after January 1, 1957 must show proof of vaccination of one dose of mumps vaccine.

iii. Students born on or after January 1, 1957 must show proof of vaccination of one dose of the rubella vaccine.

12. Return checklist to the Office of Admissions with an original signature and date.

Completion of one's file does not constitute admission to the CNA program. Be aware that it is your responsibility to complete the appropriate admissions requirements by the stated deadlines. In addition, be aware that Texarkana College Health Sciences Division requires pre-admission drug screening and criminal background check. Notification of acceptance or rejection will be mailed to all candidates. Make certain your correct mailing address is on file. Any questions after the deadline date should be directed to the Office of Admissions.

The fees associated with registering for and taking the Nurse Assistant certification exam are **NOT** included in the tuition and fees for enrollment in CNA courses. Students who wish to take the certification exam can do so after the successful completion of select courses. The program director will give student guidance for registering for the certification exam during the semester.

Chemistry

Associate of Science

The instructional program in Chemistry at Texarkana College enables students from a wide range of scientific fields, including chemistry, biology, engineering, agricultural and natural resources, to complete the first two years of study in chemistry. Prerequisite courses for application to many pre-professional programs such as medicine, dentistry, optometry, pharmacy, and veterinary medicine may also be completed

The following is a suggested course of study which will satisfy the requirements for this Associate of Science degree with a concentration in chemistry.

Child Development

Associate of Applied Science

Research proves that quality adult-child communication and interaction are necessary for optimal development and growth. The Texarkana College Child Development program offers a variety of courses that encourage and promote the teaching of the WHOLE child, including the physical cognitive, social, and emotional aspects.

Through course work and practical hands-on applications, students are provided the opportunity to gain a better understanding of Early Childhood Education History and current methodology. Students must have an overall C average and no less than a C in CDEC and TECA courses.

The programs are designed to help prepare students for careers in daycare management and teaching as well as Head Start and Teacher Aide positions.

Computer Technology and Information Systems

Associate of Applied Science

The Computer Technology and Information Systems department at Texarkana College offers courses leading to one of two Associate of Applied Science degrees or one of several Certificates. The first Associate Degree is Computer Technology and Information Systems and emphasizes computer software and programming. This degree provides the basis of the first two years of study towards a bachelor's degree. A second Associate Degree is offered in Computer Networking that provides a well-rounded foundation in networking as it applies to both server software and network hardware. For those interested in less than a 2-year degree, there are Certificate programs for Cisco, Automated Office Systems, Programming, Network Administration and A+. Depending on the choice of curriculum, these programs prepare students for a number of industry certifications including Microsoft Technology Specialist, Microsoft IT Professional, Cisco CCNA, and Com TIA's A+ and Security + certifications. Texarkana College is an official Microsoft IT Training Academy and also a Certified Cisco Academy.

The following is a suggested course of study which will satisfy the requirements for this Associate of Applied Science degree at Texarkana College.

Cosmetology

Associate of Applied Science

Prepare for greatness. Texarkana College Cosmetology is a Pivot Point Member School and CHI Environmental School, offering excellence through education in a state-of-the-art facility designed to prepare students for a career in this rapidly expanding area. This program provides students with classroom study, demonstration and practical work. Combining art and design, Pivot Point’s Designer’s Approach teaches students how to see, think, create, and adapt as designers. Pivot Point training not only teaches you the “how” but the “why”. Pivot Point believes that training only the “how” limits the students to technical skills... The “why” enable the students to create and adapt as hair designers. We also require students to complete at least four community service projects to teach them the importance of giving back. A Pivot Point education stands apart from others, giving graduates an advantage over other beauty school graduates. After graduation for the cosmetology course, students take the state licensing examination. The examination consists of a written test and a practical test in which applicants demonstrate their ability to provide required services. Students in the cosmetology program are kept abreast of the latest fashions and beauty techniques and are ready for immediate employment upon graduation and passing the state test.

Criminal Justice Administration

Associate of Arts

The Criminal Justice program is approved by the Coordinating Board and the Texas Commission of Law Enforcement Officer Standards and Education. Areas of study include History and Development of Criminal Justice, Crime in America, Fundamentals of Criminal Law, The Courts and Criminal Procedure, Police Systems and Practices, Criminal Investigation, Legal Aspects of Law Enforcement, Correctional Systems and Practices, Juvenile Delinquency, Probation and Parole, Fingerprinting, Drug Abuse, Interviews and Confessions, and Firearms and Ammunition Identification. In addition, there are open discussions on current U.S. Supreme Court and other court rulings which relate to all criminal justice activities.

The following is a suggested course of study which will satisfy the requirements for this Associate of Arts degree at Texarkana College.

Diesel Technology

Associate of Applied Science

Located at TC @ TexAmericas Center

The Diesel Technology Associate of Applied Science degree offers a number of career options by providing students the opportunity to earn an associate's degree. Most of our students go directly into the workforce as technicians while some go on to start their own business. A background in auto and diesel technology can be a valuable asset in a number of careers; service technician, diesel parts counter tech, custom service/diagnostics, and fleet service maintenance. The Auto/Diesel technology program consists of 60 hours of coursework and commonly takes four semesters to complete when taken during the day. The range of study varies from shop safety to failure analysis.

Drama

Associate of Arts

The drama program at Texarkana College offers courses designed to prepare the student for the successful completion of a Bachelor of Arts Degree in Drama. Through course work and practical production experience, students are provided the opportunity to increase their application for the cultural and vocational values of the dramatic arts.

The drama program at Texarkana College is an active participant in the Texas Junior College Speech and Theatre Association and also works with the Texarkana Repertory Company. It also sponsors a campus dramatic organization – The TC Players. All drama majors are required to participate in a major dramatic production each semester that they are enrolled in the drama program.

Electrical Technology

Associate of Applied Science

The Electrical Technology Associate of Applied Science degree program is a sequence of courses designed to prepare students for careers in electrical technology. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. The program consists of 60 hours of coursework and commonly takes four semesters to complete when taken during the day. The range of studies vary from safety and tools to planning, estimating and wiring.

Electronics Technology/Instrumentation

Associate of Applied Science

This program provides for a student to receive a Level One “Basic” Certificate in Electronics Technology / Instrumentation, a Level One “Advanced” Certificate in Electronics Technology / Instrumentation, and a two year degree: Associate of Applied Science Degree in Electronics Technology / Instrumentation. Both the Certificates and the Degree are very valuable in opening doors to industries requiring training and/or education prior to entering the company in electrical/electronic maintenance.

The Electronics Technology / Instrumentation program is an educational process of providing a student with lecture theory and laboratory time in basic electronics, instrumentation electronics, and control theory. There are “hands-on” labs throughout both programs (certificate and degree). A student will learn proficiency in utilizing a Digital Multi-Meter for electrical/electronic troubleshooting. The classes start with basics in Direct Current circuits, Alternating Current circuits, Digital Fundamentals, and progress through Solid State devices, Programmable Logic Controllers, and eventually include Industrial Processes, Control Theory, and Applications of Industrial Automatic Control.

Emergency Medical Technology

The Emergency Medical Technology Program offers applicants the option of pursuing a Certificate, License, or an Associate Degree of Applied Science in Emergency Medical Technology. Candidates for the program are expected to be proficient in communication skills, math, science, computer, and leaning skills as well as to have the physical and mental abilities to practice in EMS.

The Emergency Medical Technology program at Texarkana College prepares qualified applicants to be members of the emergency medical services team. The various preparation levels allow the applicant to choose basic or advanced knowledge and skill development. Successful completion at any level entitles the individual to receive a certificate of completion from Texarkana College and to be eligible for application to challenge the State and/or National certifying exams.

The American Medical Association and the National Registry of Emergency Medical Technicians require individuals pursuing an EMT career to be in good physical health, having good vision and color discrimination, and hearing. The EMT should also have the strength and stamina to lift and carry up to 100 pounds, manual dexterity, and be eligible for a driver's license.

The EMT program conducts all levels of courses according to the National Training Course Curriculum as recommended by the U.S. Department of Transportation and is approved by the Texas and Arkansas Health Departments. The Emergency Medical Technology Programs offer applicants the option of pursuing a certificate at the basic, intermediate, or paramedic level, or an Associate Degree in Emergency Medical Technology. Clinical experience, including ambulance and hospital, is individualized.

The Texarkana College Paramedic program has been issued a Letter of Review by the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). This letter is NOT a CAAHEP accreditation status, it is a status signifying that a program seeking initial accreditation has demonstrated sufficient compliance with the accreditation Standards through the Letter of Review Self Study Report (LSSR) and other documentation. Letter of Review is recognized by the National Registry of Emergency Medical Technicians (NREMT) for eligibility to take the NREMT's Paramedic credentialing examination(s). However, it is NOT a guarantee of eventual accreditation.

To contact CoAEMSP:

8301 Lakeview Parkway Suite 111-312
Rowlett, TX 75088
214-703-8445
FAX 214-703-8992
www.coaemsp.org

The paramedic program of Texarkana College holds a Letter of Review from CoAEMSP, which has been suspended as of 11/24/2015

Admission Requirements

EMT Admission (completed prior to attending the first class)

1. Submit a completed **Application for Admission** indicating **EMT** as your major and date of desired enrollment.
2. Submit an **official high school transcript or GED scores** and transcripts from all other colleges attended. Graduates of the EMT program must be 18 years of age and have a high school diploma or GED to be eligible to challenge the state/national certification exams.
3. Attend a **personal guidance interview** with the Health Science Enrollment Advisor located in the Health Science Division. Appointment is advised and can be obtained by phoning 903-823-3351.
4. **Reading requirements:** applicant must meet or exceed one of the following criteria: Enhanced ACT Reading – 18; TSI Reading score of ...; Nelson Denny Vocabulary and Comprehension – 10; PTT Reading – 17; or successful completion of an associate, baccalaureate, or higher degree. **An applicant who does not meet the minimum reading requirements must successfully complete ENGL 0042 with a grade of “C” or higher.**

EMT Admission (completed by the end of the third week of classes)

5. Submit documentation of successful completion of an **American Heart Association Basic Life Support for Health Care Provider** course. Card/Certificate must not expire prior to the expected date of graduation. Initial and renewal courses are available from the Texarkana College Continuing Education Division.
6. Submit documentation of successful completion of an **American Heart Association Basic Life Support for Health Care Provider** course. Card/Certificate must not expire prior to the expected date of graduation. Initial and renewal courses are available from the Texarkana College Continuing Education Division.
7. **Current physical exam** documented on the Health Science Physical examination form. **Note:** Must be completed no more than 6 months prior to enrollment; however, EMT Admission Committee may request an updated physical exam.
8. **Hepatitis B Series** documented three (3) injections taken on the Health Science Physical Examination form or physician’s report. **Note:** if you have questions, contact the EMT Program Coordinator.
9. **Negative Drug Screen and Satisfactory Criminal Background Check.** This not required until notification in writing of “Conditional Acceptance” into the EMT Program has been received. The notification letter will provide instructions on the procedures for obtaining the drug screening and background check.
10. **Return EMT checklist to the Health Science Enrollment Advisor** with an original signature and date.

Paramedic Admission (completed prior to attending the first class)

1. Submit a completed **Application for Admission** indicating **Paramedic** as your major and the date of desired enrollment.
2. Submit an **official high school transcript or GED scores** and transcripts from all other colleges attended. Graduates of the EMT program must be 18 years of age and have a high school diploma or GED to be eligible to challenge the state/national certification exams.
3. Attend a **personal guidance interview** with the Health Science Enrollment Advisor located in the Health Science Building. Appointment is advised and can be obtained by phoning 903-823-3351.
4. **Writing, Reading and Math requirements:** applicant must meet/or exceed one of the following criteria:
 - a. Satisfactory scores on all three parts of the TSI test.
 - b. TSI exempt student must meet or exceed one of the following criteria
 - i. Writing: THEA Writing-220; ACT English-16; Enhanced ACT English-19; Accuplacer Sentence Skills-80/5 or 6 or above on essay; PTT Writing-14; English Placement Test-53; or successful completion of ENGL 1301 or ENGL 0042 with a grade of “C”.
 - ii. Reading: THEA Reading-230; Enhanced ACT Reading-18; Accuplacer Reading-78; PTT-17; Nelson Denny Vocabulary and Comprehension-10; ENGL 0042 with a grade of “C”; or successful completion of associate, baccalaureate, or higher degree.
 - iii. Math: THEA Math-230; Accuplacer Elementary Algebra-63; Enhanced ACT Math-15; Algebra Skills Test-205; Math Placement Test-118; or math 0031 with a grade of “C”.

Paramedic Admission (completed by the end of the third week of classes)

5. Provide **verification of Current EMT, EMT-Intermediate, or Advanced EMT certification/licensure** in the state where paramedic licensure will be sought.
6. Submit documentation of successful completion of an **American Heart Association Basic Life Support for Health Care Provider** course. Card/Certificate must not expire prior to the expected date of graduation. Initial and renewal courses are available from the Texarkana College Continuing Education Division
7. **Current physical exam** documented on the Health Science Physical examination form. **Note:** Must be completed no more than 12 months prior to enrollment; however, EMT Admission Committee may request an updated physical exam.
8. **Hepatitis B Series** documented three (3) injections taken on the Health Science Physical Examination form or physician’s report. **Note:** if you have questions, contact the EMT Program Coordinator.
9. **Negative Drug Screen.** This not required until notification in writing of “Conditional Acceptance” into the EMT Program has been received. The notification letter will provide instructions on the procedures for obtaining the drug screening and background check

10. Return Paramedic checklist to the Health Science Enrollment Advisor with an original signature and date.

Re-Admission Procedures

Candidates for readmission to the EMT or Paramedic programs must complete the re-admission procedures. Re-admission into the programs may be considered on an individual/space available basis. **Any student who is dismissed from the program due to professional and/or ethical violations is not eligible for re-entry. In addition, any student who has had a clinical failure due to unsafe clinical practice is not eligible for re-entry into the program. Re-enrollment must occur within 12 months after leaving the program.** Re-enrollment must occur within 12 months after leaving the program. If the request for re-entry is greater than one year, the student will be required to re-enter as a beginning student.

1. Steps for Re-Admission
 - a. EMT: Current Application for Admissions; current physical exam; current negative drug screening; and current American Heart Association BLS Healthcare Provider dated no more than six (6) months prior to enrollment.
 - b. Paramedic: Current Application for Admission; current physical exam; current EMT-Basic or EMT-Intermediate certificate; current American Heart Association BLS Healthcare Provider dated no more than six (6) months prior to enrollment.
 - c. EMT and Paramedic:
 - i. Inform Health Occupations Enrollment Advisor that you have been enrolled in the EMT Program previously.
 - ii. Complete the Health Occupations Application for Re-Entry Counseling form.
 - iii. Have a personal guidance conference with the Health Occupations Enrollment Advisor.
2. A candidate for re-admission may be required to complete some remedial work.

Emergency Medical Technology

Associate of Applied Science

Degree Requirements: A minimum of 70 credit hours with a 2.0 GPA. In addition a grade of “C” or above is required in science and EMSP courses.

The following is a suggested course of study which will satisfy the requirements for the Associate of Applied Science degree at Texarkana College.

EMT-Basic Certification Program

(Arkansas, Texas, and National Registry)

Provides the first phase of basic Emergency Medical Technician training and prepare individuals for EMT certification. Individualized clinical experience in EMSP 1260 is designed to meet the needs of the person who is employed full-time.

The EMT-Basic Certification Program at Texarkana College is now a part of Continuing Education. Anyone interested in completing the program should contact (903) 823 3270.

EMT-Intermediate Certification Program

(Arkansas and Texas)

The first semester of Advanced level training is actually designed as the first semester of the Paramedic Program. However, completion of this series of courses greatly exceeds Arkansas and Texas EMT-Intermediate certification requirements should students desire the opportunity to challenge certification at this level. The Credentialing is subject to credentialing agencies rules and regulations concerning application and fees.

Prior to issuance of a completion certificate, the transfer student must submit an official transcript or earn credit by examination for EMSP 1501 and EMSP 1260. Prerequisite: current EMT-Basic completion.

Paramedic Licensure Program

(Arkansas, Texas, and National Registry)

Designed to prepare the EMT for Paramedic certification/licensure. Individualized clinical experience is designed to meet the needs of the person who is employed full-time. The state and national credentialing examinations, hosted at the end of the courses, are optional and are subject to credentialing agencies rules and regulations concerning applications and fees.

Prior to issuance of a completion certificate, the transfer student must submit an official transcript of previous college courses indicating successful completion of equivalent prerequisite courses. Other prerequisites include: current EMT certification/licensure and current American Heart Association Basic Life Support Healthcare Provider completion.

Engineering

Associate of Science

Engineers are involved in the design of products, the advance of technology, and the construction and maintenance of infrastructure. The types of engineering are extremely diverse, including chemical engineering, aerospace engineering, civil engineering, mechanical engineering, electrical engineering, computer engineering, bioengineering, and many others. Texarkana College offers the first two years of a curriculum leading to a baccalaureate degree in engineering. The following is a suggested course of study which will satisfy the requirements for the Associate of Science degree at Texarkana College.

Foreign Language

Associate of Arts

The Foreign Language Department offers elementary and intermediate courses of instruction in French and Spanish. This proficiency-oriented program focuses on the basic language skills: listening comprehension, speaking, reading, writing, and cultural understanding. The courses present the fundamentals of grammar, pronunciation, and also introduces students to the culture and literature of the people.

The following curriculum is designed for students who may pursue one of the two language options: French or Spanish. The following is a suggested course of study which will satisfy the requirements for the Associate of Arts degree at Texarkana College.

Industrial Maintenance/Multi-Craft

Associate of Applied Science

The Industrial Maintenance program allows the student to earn two one-year certificates (Entry and Advanced) as well as the opportunity to earn an associate of Applied Science (AAS) degree in Industrial Maintenance. The Industrial Maintenance field is a growing career field and the need for the number of Industrial Maintenance craft workers is projected to increase by almost 20% over the next ten years. The Certificates and the AAS degree are valuable assets for an individual when applying for an Industrial Maintenance position with most large to medium companies. The Certificates and AAS degree prove that you have the necessary training, experience, and education for their entry level positions. This gives you an advantage when applying for an open position.

*A student should have a very good background in mathematics, including two years of high school algebra and one course in trigonometry before taking MATH 2413. Otherwise it is recommended the student take MATH 1314 and MATH 1316 prior to enrolling in MATH 2413

**Elective hours must come from courses in Humanities, Business, Laboratory Sciences, Social Science, Mathematics, or Physical Education.

Music

General Information

The Texarkana College Department of Music offers the first two years of a curriculum leading toward a Bachelor of Music Education degree, and a Bachelor of Arts with a major in music. Courses taught are those required for the first two years of a senior college, and if successfully completed should transfer to the student's senior college of choice.

Since the study of music in the first two years is largely the accumulation of fundamental music skills, a suggested course of study is offered which will encourage the development of these skills. Taking these courses out of order or postponing courses until the junior or senior year may seriously jeopardize the student's degree or even prolong the term of study.

During the first semester of enrollment in the Department of Music, each student is assigned an advisor who will counsel him/her during the first two years of study. This will normally be the faculty member who teaches the student's major applied instrument. This will assure an adherence to the prescribed curriculum and avoid confusion in planning the course of study.

Each student planning to earn a music degree will choose voice or an instrument as their major and those who qualify will register for the two hour course of instruction.

Private instruction in Voice, Piano, and Organ is offered each semester for students majoring or minoring in applied music. Those students majoring in piano or organ are required to take Class Piano 1181, 1182, 2181, and 2182. All music majors not using piano as their applied music concentration are required to take piano courses for non-majors. **IN ADDITION, ALL MUSIC MAJORS AND MINORS MUST PARTICIPATE IN A MAJOR ENSEMBLE EACH SEMESTER THEY ARE ENROLLED IN THE MUSIC DEPARTMENT.**

Music as a Minor

Students who elect music as a minor may complete their minimum two-year requirements by selecting courses in music theory, music literature, music education, and applied music. If students plan to minor in music, they should contact one of the music faculty members to outline their course of study to include the necessary music courses.

Financial Aid in Music

Financial Aid is offered each year in band, choir, piano, organ, and instrumental music to students with both outstanding talent and financial need. Further information may be secured from the Chair of the Music Department.

Music

Nursing

Associate Degree and Vocational

ADA Requirements

Title II of the ADA prohibits discrimination against a “qualified individual with a disability.” This term is defined as an individual with a disability who can perform the “essential functions” of a position, with or without reasonable accommodation.

In order for a student with a disability to be admitted to any nursing program at Texarkana College, the student must:

1. Meet the prerequisite admission standards as defined in the college catalog.
2. Perform the essential functions for participation in the nursing program with or without reasonable accommodation.

Generally, the term essential functions includes those fundamental duties that the individual who holds the position must be able to perform, either unaided or with the assistance of a reasonable accommodation.

A reasonable accommodation is “any change in the student environment or in the way things are customarily done that enables an individual with a disability to enjoy equal opportunities.” In order to be considered for appropriate accommodations, the student must make a request with the advisor designated to deal with students with disabilities (located in the Advising Center in the Administration Building). Since the ADA expressly prohibits inquiries regarding disabilities, the responsibility of disclosure is borne by the individual having the disability. The reasonableness of an accommodation is determined on a case by case basis; the accommodation offered does not have to be the “best available” but needs to be sufficient to meet the needs of the individual being accommodated.

The nursing faculty has determined that to successfully complete the classroom and clinical components of the nursing programs, the student must be able to perform defined essential functions. These essential functions include, but are not limited to the following:

Attendance:

Regular classroom and clinical attendance as defined by the Health Science Student Policies.

Essential Mental Abilities:

1. Maintain reality orientation accompanied by short and long-term memory.
2. Adapt to school and clinical environment.
3. Follow rules and instructions.
4. Assimilate and apply knowledge acquired through lectures, discussions, demonstrations, and readings.
5. Comprehend and apply basic mathematical skills.
6. Demonstrate safe nursing practice within the defined clinical time period.

7. Demonstrate critical thinking skills by the comprehension and application of abstract concepts.

Essential Communication Skills:

1. Speak clearly in order to communicate with clients, families, health care team members, peers, and faculty.
2. Interact appropriately and communicate effectively with individuals, families, and groups from a variety of social, cultural, and intellectual backgrounds.
3. Communicate and organize thoughts in order to prepare written documents.
4. Prepare written documents that are correct in style, grammar, and mechanics.

Essential Physical Abilities:

1. Stand and walk for six to eight hours/day.
2. Walk for prolonged periods from one area to another over an eight hour period.
3. Bend, squat, and kneel.
4. Assist in lifting or moving clients of all age groups and weights.
5. Perform CPR, i.e., move above client to compress chest and manually ventilate client.
6. Work with arms fully extended overhead.
7. Use hands for grasping, pushing, pulling, and fine manipulation.
8. Demonstrate eye/hand coordination for manipulation of equipment, i.e., syringes, procedures, etc.

Essential Sensory Abilities:

1. Possess tactile ability to differentiate changes in sensation.
2. Possess tactile ability sufficient for physical assessment.
3. Possess auditory acuity to note slight changes in the client's condition, i.e., lung sounds, etc.
4. Possess auditory acuity to hear client calls for assistance without facing the client.
5. Possess auditory acuity to interpret various equipment signals and use the telephone.
6. Possess visual acuity to read and distinguish colors, to read handwritten orders, and other handwritten and printed data.
7. Possess visual acuity to clearly view monitors and scales in order to correctly interpret data.
8. Possess olfactory ability sufficient to detect differences in odor.

ADN Basic Program

Degree Requirements

1. A minimum of 60 semester hours of credit with a 2.0 GPA.
 2. A grade of “C” or above in science and nursing courses.
 3. A passing score on a comprehensive exit exam.
- Students must see policy in Health Science Student Handbook for details.

NOTE:

- a. Courses must be taken in the listed sequence unless permission to change is granted by the Dean of Health Sciences, or may be taken in advance.

The following is a suggested course of study which will satisfy the requirements for this Associate of Applied Science degree at Texarkana College.

Transition Candidates

The candidate must be a licensed vocational nurse, or a recent graduate for a vocational nursing program and eligible to take the licensure examination. Students who have been unsuccessful in the Basic ADN or Transition Program previously are not eligible for the Transition Program.

TRANSITION CANDIDATES must have the following on file in the Office of admissions by the first Monday in April.

1. All Basic Admission Criteria.
2. An official transcript from the VN program.
3. A copy of the LVN or LPN license. Recent graduates of VN programs who have taken the licensure exam must show the license before they register for the Transition Nursing courses.

ADN Transition Program

Degree Requirements

1. A minimum of 60 semester hours of credit with a 2.0 GPA.
2. A grade of “C” or above in science and nursing courses.
3. A passing score on a comprehensive exit exam

NOTE:

- a. Courses must be taken in the listed sequence unless permission to change is granted by the Dean of Health Sciences, or they can be taken in advance.

Note: Students must achieve at least a grade of “C” in each course. Those failing to meet the grade requirements cannot continue in the program. The faculty of the Vocational Nursing Program reserve the right to alter the curriculum and admission policies whenever change is deemed necessary and advisable. Notification to all applicants who have completed the application process will constitute means to effectuate policy changes prior to enrollment.

Office Careers

Associate of Applied Science

Texarkana College recognizes the growing and diverse objectives of the individual student and has designed the Office Careers program to meet those needs. In this program, students have the opportunity to develop office skills to successfully function in the business world of the 21st Century.

The Office Careers program consists of the following options: One-year Certificate (42 SCH) with three completed semesters of study and the Associate of Applied Science Degree (60 SCH) with four completed semesters of study as listed below. Day and evening classes are available. Day classes are full time; evening classes are half time.

Pharmacy Technician Program

Texarkana College is dedicated to facilitating the growth and development of enrolled students in becoming competent entry-level pharmacy technicians to function within the healthcare community they serve. Students will learn the theory of the pharmacy profession including both institutional and retail/community pharmacy essentials. Upon completion of this program, students will gain growth and development in becoming pharmacy technicians with high ethics, professionalism, effective communication skills, critical thinking skills, clinical competency, and the highest quality patient care in mind.

Pharmacy Technician Program Admission Requirements

1. A college Application for Admission indicating Pharmacy Technician as your major and the date of desired enrollment. Students must meet all TC admission requirements.
2. A personal guidance interview with the Health Sciences Admissions Specialist. Call for an appointment. (903) 823-3401
3. Must be TSI met or take the TABE test. A score of at least 9.4 on Reading and 8.9 on Math is required.
4. An official high school transcript or GED scores and transcripts from all other colleges attended. Students in the Pharmacy Technician Program must be 18 years or older to enroll.
5. Any student on suspension or probation must be cleared through the Admissions Office.
6. Prior to acceptance, a negative drug screen will be required. This is not required until notification in writing of “Conditional Acceptance” into the Pharmacy Technician program has been received.
7. Hepatitis B vaccination series. NOTE: It takes 6 months to complete the vaccine series. Allow time for this prior to application/entry. If you have questions, please contact the Pharmacy Technician Program Coordinator.
8. Tetanus-diphtheria vaccine within the last 10 years.
9. Proof of a Negative TB skin test or negative chest x-ray within six months prior to starting the program.
10. Measles, Mumps & Rubella (MMR)
 - i. Students born on or after January 1, 1957, must show proof of vaccination of two doses of measles-containing vaccine administered SINCE January 1, 1968 (preferably MMR vaccine).
 - ii. Students born on or after January 1, 1957, must show proof of vaccination of one dose of mumps vaccine.
 - iii. Students born on or after January 1, 1957, must show proof of vaccination of one dose of the rubella vaccine.
11. Return checklist to the Office of Admissions with an original signature and date.

Completion of one’s file does not constitute admission to the Pharmacy Technician program. Be aware that it is your responsibility to complete the appropriate admissions requirements by the stated deadlines. In addition, be aware that Texarkana College Health Sciences Division requires pre-admission drug screening for this program. Notification of acceptance or rejection will be mailed to all candidates. Make certain your correct mailing address is on file. Any questions after the deadline should be directed to the Office of Admissions.

Pharmacy Technician Program Requirements

After gaining conditional acceptance into the Pharmacy Technician Program, students must register as a Pharmacy Technician Trainee with the Texas State Board of Pharmacy. The fee for this registration is not included in Texarkana College tuition and fees. This process will include fingerprinting and a criminal background check. It takes approximately 4-6 weeks for the application to be processed by the State Board of Pharmacy. Students must present their original Texas State Board of Pharmacy, Pharmacy Technician Trainee Certificate to the instructor on the first day of class.

Pharmacy Technician/Assistant

One-Year Certificate

Level One

First Semester	Hours
PHRA 1301.....	3
PHRA 1202.....	2
PHRA 1304.....	3
PHRA 1309.....	3
PHRA 1315.....	3

Total Hours 29	

Physics

Associate of Science

Physics is the study of matter, energy, space, and time. The Math and Sciences Division of Texarkana College offers the first two years of a curriculum leading to a Bachelor of Science in Physics and maintains a microcomputer-based laboratory to enhance the learning of physics principles. In addition to potential careers in pure or applied physics, a background in physics provides a sound foundation for pursuits in the other sciences, engineering, and many other fields where technical knowledge is required.

The following is a suggested course of study which will satisfy the requirements for this Associate of Science degree at Texarkana College

Freshman Year

First Semester	Hours	Second Semester	Hours
ENGL 1301 (core).....	3	ENGL 1302 or 2311 (core).....	3
CHEM1311/1111..... (core + lab)	4	CHEM 1312..... (core)	3
HIST 1301 (core).....	3	HIST 1302 (core).....	3
SPCH 1315 or 1321 (core).....	3	MATH 2413* (core).....	4
EDUC/PSYC 1300 (core).....	3	Social & Behavioral Science (any core course)	3
TOTAL.....	16	TOTAL.....	16

Sophomore Year

First Semester	Hours	Second Semester	Hours
PHYS 2325/2125.....	4	PHYS 2326/2126.....	4
GOVT 2305 (core).....	3	GOVT 2306 (core).....	3
MATH 2414	4	MATH 2415.....	4
Language, Philosophy, &..... Culture (any core course)	3	Creative Arts (any core course)....	3
TOTAL.....	14	TOTAL.....	14

Total Hours 60

*A student should have a very good background in mathematics, including two years of high school algebra and one course in trigonometry before taking MATH 2413. Otherwise it is recommended the student take MATH 1314 and MATH 1316 prior to enrolling in MATH 2413.

Social Science Studies

Associate of Arts

The following is a suggested course of study which will satisfy the requirements for this Associate of Arts degree at Texarkana College.

Freshman Year

First Semester	Hours	Second Semester	Hours
ENGL 1301 (core)	3	ECON 2301.....	3
MATH (core course)	3	ENGL 1302/2311 (core)	3
HIST 1301 (core)	3	HIST 1302 (core)	3
SPCH 1315 or 1321 (core)	3	GEOG 1303 (core)	3
BCIS 1305 or EDUC/PSYC 1300 (core)	3	SOCI 1301 (core)	3
TOTAL.....	15	TOTAL.....	15

Sophomore Year

First Semester	Hours	Second Semester	Hours
Creative Arts (any core course)	3	BIOL/GEOL/CHEM/PHYS.....	4
GOVT 2305 (core)	3	(core+lab)	
HIST 2321 (core)	3	GOVT 2306 (core)	3
BIOL/GEOL/CHEM/PHYS.....	4	HIST 2322 (core)	3
(core+lab)		Social & Behavioral Science**	3
Elective* (college level).....	1	(any core course)	
		Language, Philosophy & Culture	3
		(choose from core – must be an ENGL prefix)	
TOTAL.....	14	TOTAL.....	16
		Total Hours	60

*Physical Education class is recommended

**PSYC 2301 is recommended

Welding

Associate of Applied Science

The Associate of Applied Science degree in welding requires four semesters for completion. The courses are one semester in length. Instruction is individualized and students in the same shop study different topics.

First Semester	Hours	Second Semester	Hours
WLDG 1421.....	4	WLDG 1413.....	4

Course Descriptions

A=ACGM / W=WECM

W	ABDR	1301	Auto Body Repair & Repaint (3,1,4). An introduction to the use of hand and power tools, techniques of metalworking, body preparation, plastic fillers, fiberglass and SMC repair, sanding, and application of primers with emphasis on shop safety practices.
W	ABDR	1203	Vehicle Design & Structural Analysis (2,1,4). An introduction to the collision repair industry with emphasis on safety, professionalism, and vehicle structural design.
W	ABDR	1207	Auto Body Welding (2,0,7). A study of collision repair welding and cutting procedures.
W	ABDR	1311	Vehicle Measurement & Damage Repair Procedures (3,1,6). Introduction to damaged vehicle measurement and structural alignment systems.
W	ABDR	1331	Basic Refinishing (3,1,8). An introduction to current refinishing products, shop safety, and equipment used in the automotive refinishing industry. Emphasis on surface preparation, masking techniques, and refinishing of replacement parts.
W	ABDR	1349	Automotive Plastic & Sheet Molded Compound Repair (3,1,7). A comprehensive course in repair of interior and exterior plastics including the use of various types of adhesives.
W	ABDR	1419	Basic Metal Repair (4,3,4). Covers basic metal principles and working techniques including proper tool usage and product application.
W	ABDR	1441	Structural Analysis & Damage Repair I (4,3,4). Training in the roughing and shaping procedures on automotive sheet metal necessary to perform body repairs. Emphasis on the alignment of component parts such as doors, hood, front-end assemblies, and deck lids.
W	ABDR	1442	Structural Analysis & Damage Repair II (4,1,9). Continuation of general repair and replacement procedures for damaged structural parts and collision damage.
W	ABDR	2166	Practicum (1,0,8). Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student.
W	ABDR	2359	Structural Sectioning (3,1,6). Skill development in the practical application of welded panel replacement and structural sectioning procedures as well as practical equipment applications in structural vehicle straightening, alignment, welding, and corrosion protection.

W	ABDR	2345	Vehicle Safety Systems (3,2,3). Theory and operation of air bags and other passive and non-passive restraint systems including automotive anti-lock systems and diagnostic methods used in the collision repair industry.
W	ABDR	2355	Collision Repair Estimating (3,2,4). An advanced course in collision estimating and development of an accurate damage report.
W	ABDR	2447	Advanced Collision Repair Welding (4,2,4). Skill development in the use of advanced welding and cutting processes. Emphasizes current welding procedures and specific repair requirements for specialized metals.
A	ACCT	2301	Financial Accounting (3,3,0). Analysis, accumulation and use of accounting data in business; fundamental procedures and records used in proprietorships, partnerships and corporation accounting; preparation of financial statements; use of accounting in planning and controlling business activities.
A	ACCT	2302	Managerial Accounting (3,3,0). An introduction to managerial accounting; cost accounting; uses of budgets; cost volume profit analysis; responsibility accounting; capital budgeting; analysis of financial reports. Prerequisite: ACCT 2301.
W	ACNT	1303	Introduction to Accounting I (lecture and lab hours will vary by program). A study of analyzing, classifying, and recording business transactions in a manual and computerized environment. Emphasis on understanding the complete accounting cycle and preparing financial statements, bank reconciliations, and payroll.
W	ACNT	1304	Introduction to Accounting II (lecture and lab hours will vary by program). A study of accounting for merchandising, notes payable, notes receivable, valuation of receivables and equipment, and valuation of inventories in a manual and computerized environment.
W	ACNT	1311	Introduction to Computerized Accounting (3,2,4). Introduction to utilizing the computer in maintaining accounting records, making management decisions, and processing common business applications with primary emphasis on a general ledger package. Prerequisite: ACNT 1303 or ACCT 2301 or instructor approval.
W	ACNT	1329	Payroll and Business Tax Accounting (3,2,4) A study of payroll procedures, taxing entities, and reporting requirements of local, state, and federal taxing authorities in a manual and computerized environment.
W	ACNT	2186	Internship – Accounting Technology/Technician and Bookkeeping (1,0,3) A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer.

W	AGAH	1447	Animal Reproduction (4,4,0) Study of organs, functions, endocrinology, and common management practices related to reproduction.
W	ARTC	1313	Digital Publishing I (3,2,4). The fundamentals of using digital layout as a primary publishing tool and the basic concepts and terminology associated with typography and page layout.
A	ARTS	1301	Art Appreciation (3,3,0). This is a course on the appreciation of art. The content is based on looking at works of art. The objective of this is to broaden and enlighten the cultural background of the student. Art Appreciation is required for all art majors. Elementary Education and various other degree majors should consult the catalog of the four-year institution to which you intend to transfer.
A	ARTS	1311	Design I (3,2,4). Emphasis upon two-dimensional design; includes the fundamentals of line, color, form, texture, shape, space and arrangement. A foundation course structured to solving compositional problems through various mediums such as drawing and painting.
A	ARTS	1312	Design II (3,2,4). A continuation of ARTS 1311 with emphasis on three dimensional concept. Solving of compositional problems. Study of the interrelationship between sculpture, drawing, printmaking, and painting. Prerequisite: ARTS 1311.
A	ARTS	1316	Drawing I (3,2,4). A fundamental course investigating a variety of media, techniques and subjects, exploring perceptual and descriptive possibilities. Emphasis is placed on visual perceptions and final works ready for exhibit.
A	ARTS	1317	Drawing II (3,2,4). Expansion of Drawing I stressing the expression and conceptual aspects of drawing to solve total compositional problems with various drawing mediums. Prerequisite: ARTS 1316.
A	ARTS	2316	Painting I (3,2,4). A disciplined study of the use of oil, color mixing, methods of application on canvas and panels using genre, portraits, still life, and landscape subjects. Exploring the potentials of painting media with emphasis on color and composition.
A	ARTS	2317	Painting II (3,2,4). Continuation of ARTS 2316. Advanced techniques in oil, with an emphasis on works to be exhibited. Prerequisite: ARTS 2316.
A	ARTS	2323	Life Drawing I (3,3,3). Drawing course emphasizing structure of the human head by recording through various graphic techniques.
A	ARTS	2324	Life Drawing II (3,2,4). A continuation of Life Drawing I with emphasis on the human figure. Prerequisite: ARTS 2323.
A	ARTS	2326	Sculpture I (3,2,4). An exploration of various sculptural approaches in a variety of media including additive and subtractive techniques.

A	ARTS	2327	Sculpture II (3,2,4). A continuation of ARTS 2326, with more emphasis on individualized work. Students can select to engage in additive and subtractive type sculptures. Prerequisite: ARTS 2326.
A	ARTS	2346	Ceramics I (3,2,4). Creating pottery forms by use of the slab, pinch, coil and throwing methods; firing and glazing.
A	ARTS	2347	Ceramics II (3,2,4). Continuation of Ceramics 2346 with original glaze experiments in clay. Prerequisite: Arts 2346.
A	ARTS	2366	Water Color I (3,2,4). This course provides experience with watercolor painting using wet and dry paper. Emphasis on techniques and individual exploration.
A	ARTS	2367	Water Color II (3,2,4). Continuation of Water Color I. Emphasis placed on final works to be exhibited. Prerequisite: ARTS 2366.
W	ARTV	2320	Team Program Production I (3,2,3) Students assume roles in a production team using techniques and equipment to create short-form production(s)
W	ARTV	2341	Advanced Digital Video (3,3,0) Advanced digital video techniques for post-production. Emphasizes integration of special effects and animation for film, video, and the Internet. Exploration of new and emerging compression and video streaming technologies.
A	ASTR	1303	Stars and Galaxies (lecture) (3,3,0). Study of stars, galaxies, and the universe outside our solar system. (Cross-listed as PHYS 1303) Recommended co-requisite: ASTR 1103
A	ASTR	1103	Stars and Galaxies (lab) (1,0,3). This laboratory-based course accompanies ASTR 1303. Activities will reinforce the lecture class. (Cross-listed as PHYS 1103) Pre-/Co-requisite: ASTR 1303
A	ASTR	1304	Solar System (lecture) (3,3,0). Study of the sun and its solar system, including its origin. (Cross-listed as PHYS 1304) Recommended co-requisite: ASTR 1104
A	ASTR	1104	Solar System (lab) (1,0,3). Laboratory class for PHYS 1304. (Cross-listed as PHYS 1104) Pre-/Co-requisite ASTR 1304
W	AUMT	1257	Automotive Brake Systems Theory (2,1,2). Theory and principles related to the design, operation, and servicing of automotive braking systems. Includes disc and drum-type brakes, hydraulic systems, power assist components, anti-lock brake systems, and diagnosis and reconditioning procedures.
W	AUMT	1307	Automotive Electrical Systems (3,2,4). An overview of automotive electrical systems including topics in operational theory, testing, diagnosis, and repair of, charging and starting systems, and electrical accessories. Emphasis on electrical principles, schematic diagrams, and service manuals. May be taught manufacturer specific.

W	AUMT	1310	Automotive Brake Systems (3,2,4). Operation and repair of drum/disc type brake systems. Topics include brake theory, diagnosis, and repair of power, manual, anti-lock brake systems, and parking brakes. May be taught with manufacturer specific instructions.
W	AUMT	1312	Basic Automotive Service (3,2,4). Basic automotive service. Includes compliance with safety and hazardous material handling procedures and maintenance of shop equipment.
W	AUMT	1316	Automotive Suspension/ Steering Systems (3,2,4). Diagnosis and repair of automotive suspension and steering systems including electronically controlled systems. Includes component repair, alignment procedures, and tire and wheel service. May be taught manufacturer specific.
W	AUMT	1319	Automotive Engine Repair (3,2,4). Fundamentals of engine operation, diagnosis and repair. Emphasis on identification, inspection, measurements, disassembly, repair, and reassembly of the engine. May be taught manufacturer specific.
W	AUMT	1345	Automotive Heating & Air (3,2,4). Diagnosis and repair of manual/electronic climate control systems; includes the refrigeration cycle and EPA guidelines for refrigerant handling. May be taught manufacturer specific
W	AUMT	1405	Introduction to Automotive Technology (4,2,6). An introduction to the automotive industry including automotive history, safety practices, shop equipment and tools, vehicle subsystems, service publications, professional responsibilities, and basic automotive maintenance. May be taught manufacturer specific.
W	AUMT	2289	Internship: Automobile/Automotive Mechanics Technology/Technician (2,0,12). A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer.
W	AUMT	2301	Automotive Management (3,2,2). Study of human and customer relations, and customer satisfaction in the automotive service industry. Emphasis on management and building relationships between the service department and the customer.
W	AUMT	2313	Manual Drive & Axels (3,2,4). A study of automotive clutches, clutch operation devices, manual transmissions/ transaxles, and differentials with emphasis on diagnosis and repair. May be taught with manufacturer specific instructions.
W	AUMT	2317	Automotive Performance Analysis I (3,2,4). Theory, operation, diagnosis of drivability concerns, and repair of ignition, and fuel delivery systems. Use of current engine performance diagnostic equipment. May be taught with manufacturer specific instructions.

W	AUMT	2332	Automotive Automatic Transmission and Transaxle II (3,2,4). An analysis of electronic controls and actuators and the related circuits of modern automatic transmissions/transaxles with an emphasis on diagnostics. May be taught manufacturer specific.
W	AUMT	2434	Automotive Engine Performance Analysis II (4,3,4). Diagnosis and repair of emission systems, computerized engine performance systems, and advanced ignition and fuel systems. Includes use of advanced engine performance diagnostic equipment. May be taught manufacturer specific.
A	BCIS	1305	Business Computer Applications (3,2,4). Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, database, presentation graphics, and business-oriented utilization of the Internet.
A	BCIS	1310	BASIC Programming (3,2,3). This course is designed to teach software theory and structured programming methods used to solve business data problems. Includes discussion of business applications, testing, documentation, input specification, and report generation.
A	BIOL	1322	Nutrition and Diet Therapy I (3,3,0). A detailed study of the science of food and its effect on human biology. The course is structured around the six major nutrient classes--carbohydrates, lipids, protein, vitamins, minerals, water. The action and interaction of these substances are explored in relation to health and disease. In addition students examine the processing of these nutrients by the body including digestion, absorption, metabolic pathways, and excretion. Menu planning is also discussed as is weight control and fitness.
A	BIOL	1306	Biology for Science Majors I (lecture) (3,3,0). An integrated approach to cell and molecular biology with emphasis on biological chemistry, cell structure and function, genetics and evolutionary theory. Recommended co-requisite: BIOL 1106. Prerequisite: Successful completion of the reading portion of the TSI test.
A	BIOL	1106	Biology for Science Majors (lab) (1,0,3). This laboratory-based course accompanies Biology 1306, Biology for Science Majors I. Laboratory activities will reinforce the lecture class. Pre-/Co-requisite: BIOL 1306.
A	BIOL	1406	Biology for Science Majors I (lecture + lab) (4,3,3) This lecture and lab course should combine all of the elements of BIOL 1306 Biology for Science Majors I (lecture) and BIOL 1106 Biology for Science Majors I (lab)

A	BIOL	1307	Biology for Science Majors II (lecture) (3,3,0). Continuation of BIOL 1306. An integrated study of structure and function in biological populations. Includes organismal diversity and physiological aspects of transport, nutrition, gas exchange, communication, reproduction and development. Prerequisite: Successful completion of the reading portion of the TSI test. Recommended co-requisite BIOL 1107.
A	BIOL	1107	Biology for Science Majors II (lab) (1,0,3) This laboratory-based course accompanies BIOL 1307. Pre-/Co-requisite: BIOL 1307
A	BIOL	1308	Biology for Non-Science Majors I (lecture) (3,3,0). The process and method of science applied to understanding biological concepts at the molecular, cellular, organismal and community levels. Survey of major groups of organisms with respect to their diversity in organization, processes, interactions, and adaptations including human impact upon the environment. The scientific method and social applications of scientific information to related human issues are stressed throughout the course. Recommended co-requisite: BIOL 1108.
A	BIOL	1108	Biology for Non-Science Majors I (lab) (1,0,3). This laboratory-based course accompanies BIOL 1308. Pre-/Co-requisite: BIOL 1308.
A	BIOL	1408	Biology for Non-Science Majors I (lecture + lab) (4,3,3) This lecture and lab course should combine all of the elements of BIOL 1308 Biology for Non-Science Majors I (lecture) and BIOL 1108 Biology for Non-Science Majors I (lab)
A	BIOL	1309	Biology for Non-Science Majors II (lecture) (3,3,0). The process and methods of science applied to understanding biological concepts at the molecular, cellular, organismal and community levels. Human systems, nutrition, development, homeostasis, genetics, evolutionary principles and ecology will be stressed with application to contemporary issues in human health and the environment. Recommended co-requisite: BIOL 1109
A	BIOL	1109	Biology for Non-Science Majors II (lab) (1,0,3). This laboratory-based course accompanies BIOL 1309. Pre-/Co-requisite: BIOL 1309
A	BIOL	1311	General Botany (lecture) (3,3,0). A systematic survey of the structure and functions of plants including cell biology, metabolism, taxonomy, reproduction, adaptation and ecology. Included are the life histories of representative plant groups. Recommended co-requisite: BIOL 1111
A	BIOL	1111	General Botany (lab) (1,0,3). This laboratory-based course accompanies BIOL 1311. Pre-/Co-requisite: BIOL 1311

A	BIOL	1313	General Zoology (lecture) (3,3,0). The biology of animals with emphasis on cell and molecular biology, ecology and taxonomy in relationship to animal form and function, diversity, behavior and evolution. Recommended co-requisite: BIOL 1113
A	BIOL	1113	General Zoology (lab) (1,0,3). This laboratory-based course accompanies BIOL 1313. Pre-/Co-requisite: BIOL 1313.
A	BIOL	2289	Academic Cooperative Field Study in Biology (2,0,7). A course designed to integrate campus study with applied experience in the laboratory and/or field study. Specific objectives will be formulated and learning experiences directed toward fulfilling those objectives. The use of accepted methodologies in collecting specimen, materials, and/or data and the systematic use of instruments and equipment in classification, by testing, and analysis.
A	BIOL	2389	Academic Cooperative Field Study in Biology (3,0,9). A course designed to integrate campus study with applied experience in the laboratory and/or field study. Specific objectives will be formulated and learning experiences directed toward fulfilling those objectives. The use of accepted methodologies in collecting specimen, materials, and/or data and the systematic use of instruments and equipment in classification, by testing, and analysis.
A	BIOL	2301	Anatomy & Physiology I (lecture) (3,3,0). A study of the gross and microscopic anatomy and physiology of cells, tissues, integument, muscular-skeletal, and nervous systems. Prior completion of CHEM 1305 is strongly recommended. Prerequisite: Successful completion of the reading portion of the TSI test. Recommended co-requisite BIOL 2101.
A	BIOL	2101	Anatomy & Physiology Laboratory I (lab) (1,0,4). This laboratory-based course accompanies BIOL 2301. Pre-/Co-requisite: BIOL 2301
A	BIOL	2302	Anatomy & Physiology II (lecture) (3,3,0). A continuation of BIOL 2301. Includes the gross and microscopic anatomy and physiology of the circulatory, respiratory, digestive, urinary, endocrine and reproductive systems, immunity and fluid-electrolyte/acid base balance. Prerequisite: BIOL 2301 and successful completion of the reading portion of the TSI test or permission of the instructor. Recommended co-requisite BIOL 2102.
A	BIOL	2102	Anatomy & Physiology Laboratory II (lab) (1,0,4). This laboratory-based course accompanies BIOL 2301. Pre-/Co-requisite: BIOL 2302
A	BIOL	2306	Environmental Biology (lecture) (3,3,0). An interdisciplinary introduction to basic principles of environmental science with emphasis on the relationship of humans and their environment. Topics covered include basic ecological concepts, human population dynamics, climate, global warming, ozone depletion, hazardous waste, food, land, air, and water resources, biodiversity, and achieving a sustainable earth society. Recommended co-requisite: BIOL 2106

A	BIOL	2106	Environmental Biology (lab) (1,0,4). This laboratory-based course accompanies BIOL 2306. Pre-/CO-requisite: BIOL 2306
A	BIOL	2320	Microbiology for Non-Science Majors (lecture) (3,3,0). The morphology, physiology, and classification of microorganisms and their relationship to health, medicine, immunology and biotechnology. Laboratory study emphasizes standard microbiology procedures. Recommended co-requisite BIOL 2120
A	BIOL	2120	Microbiology for Non-Science Majors (lab) (1,0,4). This laboratory-based course accompanies BIOL 2320. Pre-/Co-requisite: BIOL 2320
A	BIOL	2321	Microbiology for Science Majors (lecture) (3,3,0). Principles of microbiology, including metabolism, structure, function, genetics, and phylogeny of microbes. The course will also examine the interactions of microbes with each other, hosts, and the environment. Recommended co-requisite: BIOL 2121,
A	BIOL	2121	Microbiology for Science Majors (lab) (1,0,3). This laboratory-based course accompanies BIOL 2321. Pre-/Co-requisite: BIOL 2321.
A	BIOL	2401	Anatomy & Physiology I (lecture + lab) (4,3,4) Study of the structure and function of human anatomy, including the neuroendocrine, integumentary, musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems.
A	BIOL	2402	Anatomy & Physiology II (lecture + lab) (4,3,4) Study of the structure and function of human anatomy, including the neuroendocrine, integumentary, musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems.
A	BUSI	1301	Business Principles (3,3,0). A general survey of the entire field of business and the analysis of the role and scope of business within the free enterprise system. This course includes the concepts of business organizations, structure, and decision-making process, exploring areas of specialization and career opportunities in the business world.
A	BUSI	1304	Business Report Writing & Correspondence (3,3,0). This practical course focusing on communicating successfully in organizations, including overcoming the barriers to communication, writing good news and bad news messages, organizing analytical reports, writing resumes and giving presentations.
A	BUSI	2301	Business Law (3,3,0). The development of nature and source of law, general principles of the law of contracts, sales, product warranty, commercial paper, agency and business organizations. Prerequisite: Sophomore standing.
W	CDEC	1313	Curriculum Resources for Early Childhood Programs (3,2,3). A study of the fundamentals of curriculum design and implementation in developmentally appropriate programs for children.

W	CDEC	1317	Child Development Associate Training I (3,2,2). Based on the requirements for the Child Development Associate National Credential (CDA). Topics include CDA overview, observation skills, and child growth and development. The four functional areas of study are creative, cognitive, physical, and communication.
W	CDEC	1319	Child Guidance (3,2,2). An exploration of common behavior problems of young children in an early childhood setting. Emphasis on positive guidance techniques for effective behavior management. Practical applications through direct participation in an early childhood setting.
W	CDEC	1356	Emergent Literacy for Early Childhood (3,3,0). An exploration of principles, methods, and materials for teaching young children language and literacy through a play-based integrated curriculum.
W	CDEC	1358	Creative Arts for Early Childhood (3,3,0). An exploration of principles, methods, and materials for teaching children music, movement, visual arts, and dramatic play through process-oriented experiences to support divergent thinking.
W	CDEC	1359	Children with Special Needs (3,3,0). A survey of information regarding children with special needs including possible causes and characteristics of exceptionalities, intervention strategies, available resources, referral processes, the advocacy for children with special needs and their families. The student will use various types of materials and resources, including current technology, to support learning in all domains for all children.
W	CDEC	2315	Multicultural/Multilingual Education (3,3,0). An overview of multicultural education to include relationships with the family and community to develop awareness and sensitivity to diversity related to individual needs of children.
W	CDEC	2322	Child Development Associate Training II (3,2,2). A continuation of the study of the requirements for the Child Development Associate National Credential (CDA). The six functional areas of study include safe, healthy, learning environment, self, social and guidance.
W	CDEC	2324	Child Development Associate Training III (3,2,2). A continuation of the study of the requirements for the Child Development Associate National Credential (CDA). The three functional areas of study include family, program management, and professionalism. Prerequisite/Co-requisite: CDEC 1317 and 2322
W	CDEC	2326	Administration of Programs for Children I (3,3,0). A practical application of management procedures for early care and education programs, including a study of operating, supervising, and evaluating programs. Topics on philosophy, types of programs, policies, fiscal management, regulations, staffing, evaluation, and communication. Prerequisite: Six hours of child development course work or advisor approval.

W	CDEC	2387	Internship (3,1,15). An experience external to the college for an advanced student in a specialized field involving a written agreement between the educational institution and a business or industry. Mentored and supervised by a workplace employee, student achieves objectives that are developed and documented by the college and directly related to specific occupational outcomes. This may be a paid or unpaid experience. May be repeated if topics and outcomes vary.
W	CETT	1403	DC Circuits (4,3,3). A study of the fundamentals of direct current including Ohm's law, Krichhoff's laws and circuit analysis techniques.
W	CETT	1405	AC Circuits (4,3,3). A study of the fundamentals of alternating current, including series and parallel AC circuits, phasors, capacitive and inductive networks, transformers, and resonance.
W	CETT	1425	Digital Fundamentals (4,3,3). An entry level course in digital electronics to include numbering systems, logic gates, Boolean algebra, and combinational logic.
W	CETT	1329	Solid State Devices (3,2,4). A study of diodes, transistor characteristics and other semiconductor devices, including analysis of static and dynamic characteristics, biasing techniques, and thermal considerations.
W	CETT	1341	Solid State Circuits (3,2,4). A study of various semiconductor devices incorporated in circuits and their applications. Emphasis on circuit construction, measurements, and analysis.
W	CETT	1449	Digital Systems (4,3,3). A course in electronics covering digital systems. Emphasis on application and troubleshooting digital systems.
W	CETT	1357	Linear Integrated Circuits (3,2,4). A study of characteristics, operations, stabilization, and testing of linear integrated circuits. Applications include instrumentation and active filtering.
W	CHEF	1305	Sanitation and Safety (3,2,4). A study of personal cleanliness; sanitary practices in food preparation; causes, investigation, control of illness caused by food contamination (Hazard Analysis Critical Control Points); and work place safety standards.
W	CHEF	1310	Garde Manger (3,1,6). Study of specialty foods and garnishes. Emphasis on design, techniques, and display of fine foods.
W	CHEF	1345	International Cuisine (3,1,6). The study of classical cooking skills associated with the preparation and service of international and ethnic cuisines. Topics include similarities between food production systems used in the United States and other regions of the world.
W	CHEF	1401	Basic Food Preparation (Skills) (4,1,9). A study of the fundamental principles of food preparation and cookery to include Brigade System, cooking techniques, material handling, heat transfer, sanitation, safety, nutrition, and professionalism.

W	CHEF	1441	American Regional Cuisine (4,3,2). A study of the development of regional cuisine's in the United States with emphasis on the similarities in production and service systems. Application of skills to develop, organize, and acquire knowledge of recipe strategies and production systems.
W	CHEF	1480	Cooperative Education: Culinary Arts/ Chef Training (4,1,21). Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component.
W	CHEF	2301	Intermediate Food Preparation (3,1,8). Continuation of previous food preparation course. Topics include the concept of pre-cooked food items, as well as scratch preparation. Covers full range of food preparation techniques.
A	CHEM	1204	Chemical Calculations (2,2,0). The course is designed to prepare students to solve many of the problems that are encountered in general chemistry. The course focus is on solving problems by approximation techniques and utilizing a calculator.
A	CHEM	1305	Introductory Chemistry I (lecture) (3,3,0). A survey of chemistry including the metric system, scientific method, physical properties of matter, atomic structure, ionic and covalent bonding, naming of compounds, chemical reactions, stoichiometry, gas laws, liquids, solids, solutions, equilibrium, acid-based theory, electrochemistry, nuclear chemistry, and a brief survey of functional groups of organic molecules and biomolecules. Recommended co-requisite: CHEM 1105
A	CHEM	1105	Introductory Chemistry I (lab) (1,0,4). Basic laboratory experiments supporting theoretical principles presented in CHEM 1305. Pre-/Co-requisite: CHEM 1305
A	CHEM	1311	General Chemistry I (lecture) (3,3,0). Fundamental principles of theoretical and applied chemistry, stoichiometry, atomic structure, periodic arrangement of elements, ionic and covalent bonding, gases, liquids, and solids. Prerequisite: College Algebra (MATH 1314) or concurrent enrollment in Chemical Calculations (CHEM 1204). Recommended co-requisite: CHEM 1111
A	CHEM	1111	General Chemistry I (lab) (1,0,3). Basic laboratory experiments supporting theoretical principles presented in CHEM 1311. Pre-/Co-requisite: CHEM 1311
A	CHEM	1411	General Chemistry I (lecture + lab) (4,3,3) This lecture and lab course should combine all of the elements of 1311 General Chemistry I Lecture and 1111 General Chemistry I Labs

A	CHEM	1312	General Chemistry II (lecture) (3,3,0). Fundamental principles of theoretical and applied chemistry. Topics of study include acid-based theory, kinetics, equilibrium, thermochemistry, electrochemistry, nuclear chemistry, qualitative analysis, and introduction to organic and biochemistry. Prerequisite: CHEM 1311 or the permission of the instructor. Recommended co-requisite: CHEM 1112
A	CHEM	1112	General Chemistry II (lab) (1,0,3). Basic laboratory experiments supporting theoretical principles presented in CHEM 1312. Pre-/Co-requisite: CHEM 1312.
A	CHEM	1419	Introductory Organic Chemistry I (4,3,3). A survey of organic and biochemistry including functional groups, nomenclature, carbohydrates, lipids, proteins, enzymes, bioenergetics, catabolism, anabolism, nucleic acids, nutrition, digestion, body fluids, neurotransmitters, hormones, immunoglobulins and current topics.
A	CHEM	2289	Academic Cooperative Field Study in Chemistry (2,0,7). A course designed to integrate campus study with applied experience in the laboratory and/or field study. Specific objectives will be formulated and learning experiences and activities will be directed toward fulfilling those objectives. The use of accepted methodologies in collecting field materials and systematic use of appropriate instruments in their analysis is central to the purpose of the course.
A	CHEM	2389	Academic Cooperative Field Study in Chemistry (3,0,9). A course designed to integrate campus study with applied experience in the laboratory and/or field study. Specific objectives will be formulated and learning experiences and activities will be directed toward fulfilling those objectives. The use of accepted methodologies in collecting field materials and systematic use of appropriate instruments in their analysis is central to the purpose of the course.
A	CHEM	2301	Analytical Chemistry I (lecture) (3,2,3). The theory and practice of fundamental quantitative and analytical procedures. Special emphasis on the development of laboratory techniques. Prerequisites: CHEM 1311 and 1312. Recommended co-requisite: CHEM 2101.
A	CHEM	2101	Analytical Chemistry I (lab) (1,0,3). Basic laboratory experiments supporting theoretical principles presented in CHEM 2301. Pre-/Co-requisite: CHEM 2301.
A	CHEM	2323	Organic Chemistry I (lecture) (3,2,3). The theory and practice of fundamental quantitative and analytical procedures. Special emphasis on the development of laboratory techniques. Prerequisites: CHEM 1311 and 1312. Recommended co-requisite: CHEM 2123.
A	CHEM	2123	Organic Chemistry I (lab) (1,0,3). Basic laboratory experiments supporting theoretical principles presented in CHEM 2323. Pre-/Co-requisite: CHEM 2323.

A	CHEM	2325	Organic Chemistry II (lecture) (3,3,0). The classification, structure, nomenclature, methods of preparation, and standard reactions of carboxylic acids, sulfonic acids, amines, diazonium salts, aldehydes, ketones, carbohydrates, proteins, polyhydroxy compounds, heterocyclic compounds, and their derivatives. Prerequisite: CHEM 2323. Recommended co-requisite: CHEM 2125.
A	CHEM	2125	Organic Chemistry II (lab) (1,0,4). Basic laboratory experiments supporting theoretical principles presented in CHEM 2325. Pre-/Co-requisite: CHEM 2325.
W	CJCR	1304	Probation and Parole (3,3,0). The history, development, organization, and operation of probation and parole are studied as a substitute for incarceration of criminal offenders; methods for selection and success and/or failure rates of criminal offenders are studied.
W	CJSA	1359	Police Systems and Practices (3,3,0). The police profession; organization of law enforcement systems; the police role; police discretion; ethics; police-community interaction; current and future issues.
W	CJSA	2388	Internship - Criminal Justice Studies (3,1,8). An experience external to the college for an advanced student in a specialized field involving a written agreement between the educational institution and a business or industry. Mentored and supervised by a workplace employee, the student achieves objectives that are developed and documented by the college and that are directly related to specific occupational outcomes. This may be a paid or unpaid experience. This course may be repeated if topics and learning outcomes vary.
W	CNBT	1301	Introduction to the Construction Industry (3,2,4). Overview of the construction industry.
W	CNBT	1302	Mechanical Systems in Construction I (3,2,3). A presentation of the basic mechanical, plumbing, and electrical components in construction and their relationship to residential and light commercial buildings.
W	CNBT	1309	Construction Management I (3,3,0). Provides an integrated look at the practice of construction management on the job site.
W	CNBT	1311	Introduction to Carpentry Methods & Materials I (3,2,4). Introduction to construction materials and methods and their applications.
W	CNBT	1316	Construction Technology I (3,2,3). Introduction to site preparation, foundations, form work, safety, tools, and equipment.
W	CNBT	1318	Construction Tools and Techniques (3,2,2). Comprehensive study of the selection and use of hand tools, portable and stationary power tools and related construction equipment. Emphasis on safety in the use of tools and equipment.
W	CNBT	1342	Building Codes and Inspections (3,2,3). Building codes and standards applicable to building construction and inspection processes.

W	CNBT	1346	Construction Estimating I (3,3,0). Fundamentals of estimating materials and labor costs in construction.
W	CNBT	1350	Construction Technology II (3,2,4). Framing in residential and light commercial construction. Includes safety, tools, and equipment used in floor, wall, ceiling, and roof framing methods and systems.
W	CNBT	1353	Construction Technology III (3,3,0). Exterior trim and finish for residential and light commercial construction.
W	CNBT	1380	Cooperative Education: Construction Engineering Technology/ Technician. (3,1,15). Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component.
W	CNBT	2304	Carpentry Methods and Materials. (3,2,4). Continuation of the study of the properties of building materials, methods and equipment for their integrated use in completing construction projects.
W	CNBT	2340	Mechanical, Plumbing & Electrical Systems in Construction II (3,2,3). Processes and methods used in design, selection of equipment, and installation of mechanical, plumbing, and electrical systems in commercial buildings. Includes heating and cooling systems, duct work, mechanical and electrical control systems, lighting requirements, and design of water supply and sanitary sewer systems.
W	CNBT	2342	Construction Management II (3,2,3). Human relations management skills on the job site. Topics include written and oral communications, leadership and motivation, problem solving, and decision making.
A	COMM	1129 1130 2129 2130	Newspaper Publications Lab I, II, III, and IV (1,1,4). Students are required to work on the staff of the TC News under faculty supervision. This course includes practice and instruction in journalism reporting and writing, newspaper design and pagination, and advertising sales.
A	COMM	1307	Introduction to Mass Communications (3,3,0). This course is a lecture class on the history of the world's communications, beginning with cavemen drawings on cave walls and continuing through the invention of the Internet. Also covered are the histories of newspapers, magazines, recordings, radio, television, movies, and the Internet. Students are not members of the TC News staff.

A	COMM	1316	News Photography I (3,2,3). An introductory course in photojournalism. The course teaches use of digital cameras, accessories and photographic techniques used by photojournalists. Students must provide their own digital camera and photo-printing paper. Students serve as photographers for the TC News. Prerequisite: COMM 2311 or concurrent enrollment in COMM 2311 or consent of instructor.
A	COMM	1317	News Photography II (3,3,0). Continuation of COMM 1316 with emphasis on more advanced photographic techniques and computer software used by photojournalists. Students must provide their own digital camera and photo-printing paper. Students serve as photographers for the TC News. Prerequisite: COMM 1316 & 2311.
A	COMM	2305	Editing and Layout (3,2,3). Included in this course, via both lecture and actual practice, are the basics of copy editing for accuracy and fairness. Also included are the basics of page design and construction. Students will serve as members of the TC News page-building crew. Publications lab required for all students. Prerequisite: COMM 2311 or consent of instructor.
A	COMM	2309	News Editing and Copy Reading I (3,3,0). Editing copy for errors of fact and interpretation. Includes newspaper style, headline writing, proofreading and page makeup. Students will serve as members of the TC News staff. Publications lab required for all students. Prerequisite: COMM 2311.
A	COMM	2311	Media Writing (3,2,3). This entry level journalism course is a study of the gathering and reporting of news. The whole range of the reporter's work is covered by lecture and actual practice with the students working as reporters for the TC News. News writing and feature writing are stressed. This course is a prerequisite for COMM 1316, 2305, 2309, 2315.
A	COMM	2315	News Reporting (3,3,0). A continuation of COMM 2311, this course includes a comprehensive study of interviewing, writing and reporting the news and headline writing. Emphasis is on more complex stories and more specialized types of reporting and writing. Students serve on the editorial staff of the TC News. Publications lab required for all students. Prerequisite: COMM 2311.
A	COMM	2366	Introduction to Film (3,3,0). Emphasis on the analysis of the visual and aural aspects of selected motion pictures, dramatic aspects of narrative films, and historical growth and sociological effect of film as an art. (Cross-listed as DRAM 2366).

A	COSC	1309	Programming Logic and Design (3,2,3). This course is designed to acquaint the student with the fundamental logic as related to computer programming, algorithms, flowcharting, Boolean logic, decision tables, truth tables and arrays.
A	COSC	1319	Assembly Language (3,2,4). This course is designed to acquaint the student with the actual instructions, data forms, and memory map of the microcomputer. The student will write subroutines to interface with BASIC or Turbo Pascal that create windows, page flip and various logical functions. Prerequisite: ITSE 1391 and one of the following: BCIS 1310 or COSC 1320.
A	COSC	1320	Introduction to C++ Programming (3,3,3). The objective of this course is to teach students the major elements of the C++ language. Topics covered include language syntax, data types, the concept of variable scope, arrays, pointers, structures, functions, parameter passing, and the sequence selection (if-then-else), and repetition control structures (for, while, do-while loops). Also covered are the commonly used ANSI C++ string manipulation, file I/O, and memory allocation functions. Prerequisite: COSC 1309 or BCIS 1310 or instructor approval.
A	COSC	1336	Programing Fundamentals I (3,3,3). This course introduces the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, control structures, functions, arrays, and the mechanics of running, testing, and debugging. This course assumes computer literacy.
W	CPMT	1191	Special Topics in Computer Installation & Repair (1,1,0) Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student.
W	CPMT	1311	A+: Introduction to Computer Maintenance (3,2,4). A study of the information for the assembly of a microcomputer system. Emphasis on the evolution of microprocessors and microprocessor bus structures. Identify modules that make up a computer system and its operation; identify each type of computer bus structure; and assemble/setup microcomputer systems, accessory boards, and install/connect associated peripherals.
W	CPMT	2345	Supporting Users for Help Desk (3,2,4). A study of the diagnosis and troubleshooting of user hardware and software related problems. Topics include the techniques required to resolve a service call, troubleshooting and configuring software issues, and resolving Microsoft Office and Outlook

			e-mail application problems through hands-on activities. Prerequisite: ITSC 1321 or CPMT 1311.
A	CRIJ	1301	Introduction to Criminal Justice (3,3,0). History, philosophy, and development of the criminal justice system; crime defined. Its nature and impact; overview of criminal justice system; law enforcement; prosecution and defense; court system; trial process; corrections.
A	CRIJ	1306	Court Systems and Practices (3,3,0). The judiciary in the criminal justice system; structure of the American court system; prosecution; right to counsel; pretrial release; grand juries; adjudication process; types and rules of evidence; sentencing.
A	CRIJ	1307	Crime in America (3,3,0). Historical study of American crime problems; social and public policy factors affecting crime; impact of crime and its trends; social characteristics of specific crimes; crime prevention.
A	CRIJ	1310	Fundamentals of Criminal Law (3,3,0). A study of the nature of criminal law; philosophical and historical development; major definitions and concepts; classification of crimes; elements of crime and penalties using Texas statutes as illustrations; criminal responsibility.
A	CRIJ	1313	Juvenile Justice System (3,3,0). Study of deviant behavior with emphasis on youthful offenders; current theories of crime causation and treatment of juvenile offenders; crime prevention and the involvement of juveniles in various areas of crime in the United States.
A	CRIJ	2313	Correctional Systems and Practices (3,3,0). Corrections in the criminal justice system; organization of correctional systems; correctional role; institutional operations; alternatives to institutionalization; treatment and rehabilitation; current and future issues.
A	CRIJ	2314	Criminal Investigation (3,3,0). Investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; use of the forensic sciences; case and trial preparation.
A	CRIJ	2323	Legal Aspects of Law Enforcement (3,3,0). Authority and responsibilities of law enforcement officers; constitutional restraints on police behavior; laws of arrest, search and seizure; criminal and civil liability of police officers.

A	CRIJ	2328	Police Systems and Practices (3,3,0). The Law Enforcement profession; organization of law enforcement systems; the police role; police discretion; ethics; police-community interaction; current and future issues.
W	CSME	1254	Artistry of Hair Design I (2,0,6). Introduction to hair design. Topics include the theory and applications of wet styling, thermal hair styling, and finishing techniques. Prerequisite: TSI Reading
W	CSME	1255	Artistry of Hair Design II (2,0,7). A continuation of hair design. Topics include the additional theory and applications of current trends in hair design.
W	CSME	1310	Introduction to Haircutting & Related Theory (3,1,7). Introduction to the theory and practice of hair cutting. Topics include terminology, implements, sectioning and finishing techniques. TSI Reading
W	CSME	1348	Principles of Skin (3,2,4). An introduction of the theory and practice of skin care. TSI Reading
W	CSME	1401	Orientation to Cosmetology (4,2,6). An overview of the skills and knowledge necessary for the field of cosmetology. TSI Reading
W	CSME	1405	Fundamentals of Cosmetology (4,2,6). A course in the basic fundamentals of cosmetology. Topics include safety and sanitation, service preparation, manicure, facial, chemical services, shampoo, haircut, wet styling, and comb out. TSI Reading
W	CSME	1410	Introduction to Haircutting and Related Theory (4,2,6) Introduction to the theory and practice of hair cutting. Topics include terminology, implements, sectioning, and finishing techniques.
W	CSME	1435	Orientation to the Instruction of Cosmetology (4,1,9). The fundamentals of instruction of cosmetology students. TSI Reading
W	CSME	1443	Manicuring & Related Theory (4,3,4). Presentation of the theory and practice of nail services. Topics include terminology, application, and workplace competencies related to nail services. TSI Reading
W	CSME	1453	Introduction to Chemical Reformation & Related Theory (4,2,6). Presentation of the theory and practice of chemical reformation including terminology, application, and workplace competencies. TSI Reading
W	CSME	1534	Cosmetology Instructor I (5,2,9). Fundamentals of instructing cosmetology students. TSI Reading
W	CSME	2302	Introduction to Application of Hair Color (3,2,4) Introduction to basic hair color applications including safety and sanitation procedures.

W	CSME	2310	Advanced Haircutting & Related Theory (3,1,7). Advanced concepts and practice of haircutting. Topics include haircuts utilizing scissors, razor, and/or clippers. TSI Reading
W	CSME	2343	Salon Development (3,1,5). Procedures necessary for salon development. Topics include professional ethics and goal setting, salon operation, and record keeping. TSI Reading
W	CSME	2344	Prep for State Licensing Exam/Written (3,2,4). Preparation for the state licensing written examination. TSI Reading
W	CSME	2345	Prep for State Licensing Exam/Practical (3,1,7). Preparation for the state licensing practical examination. TSI Reading
W	CSME	2350	Preparation for the State Licensing Written Examination (3,1,6). Preparation for the state licensing written examination.
W	CSME	2351	Preparation for the State Licensing Practical Examination (3,1,6). Preparation for the state licensing practical examination.
W	CSME	2401	Principles of Hair Coloring & Related Theory (4,3,4). Presentation of the theory, practice, and chemistry of hair color. Topics include terminology, application, and workplace competencies related to hair color. TSI Reading
W	CSME	2414	Cosmetology Instructor II (4,1,9). A continuation of instructing cosmetology students TSI Reading
W	CSME	2445	Instructional Theory and Clinic Operation (4,2,8). An overview of the objectives required by the Texas Department of Licensing and Regulation Instructor Examination. Instructors-in-training will demonstrate the skills required for the completion of the state licensing agency's curriculum including the management of a lab/clinic in a cosmetology program and classroom management skills. TSI Reading
W	CSME	2515	Cosmetology Instructor III (5,3,8). Presentation of lesson plan assignments and evaluation techniques. TSI Reading
W	CSME	2544	Cosmetology Instructor IV (5,3,8). Advanced concepts of instruction in a cosmetology program. Topics include demonstration, development, and implementation of advanced evaluation and assessment techniques. Instructors-in-training will practice instructional skills, develop assessment and evaluation techniques that promote student learning, and implement evaluation tools to measure student outcomes. TSI Reading
W	DAAC	1304	Pharmacology of Addiction (3,3,0). Psychological, physiological, and sociological effects of mood altering substances and behaviors and their implications for the addiction process are discussed. Emphasis is placed on the pharmacological effects of tolerance, dependency/withdrawal, cross addiction, and drug interaction.

W	DAAC	1317	Basic Counseling Skills (3,3,0). This course is designed to facilitate development of the basic communication skills necessary to develop an effective helping relationship with clients. Includes the utilization of special skills to assist individuals, families, or groups in achieving objectives through exploration of a problem and its ramifications; examination of attitudes and feelings; consideration of alternative solutions; and decision making.
W	DAAC	1319	Introduction to Alcohol & Other Drug Addictions (3,3,0). Causes and consequences of addiction as they relate to the individual, family, community, and society are discussed. Response alternatives regarding intervention, treatment, education, and prevention are reviewed. Competencies and requirements for licensure in Texas are explained. Addiction issues related to diverse populations are presented.
W	DAAC	2354	Dynamics of Group Counseling (3,3,0). Identify issues of confidentiality and ethics and their application to the group process; describe group leadership styles; demonstrate group management skills; and define and use terminology related to the group process; differentiate between types of groups; describe the basic stages of the group process; and cite examples of client documentation and use of record-keeping skills. DAAC 1317 & 1319 prerequisite.
W	DAAC	2466	Practicum (or Field Experience) - Alcohol/Drug Abuse Counseling (4,0,28). Practical general training and experiences in the workplace. The college, with the employer, develops and documents an individualized plan for the student. The plan relates the workplace training and experiences to the student's general and technical course of study. The guided external experiences may be paid or unpaid. This course may be repeated if topics and learning outcomes vary. Admission to this course requires proof of a passing score on the reading portion of the TSI test. Prerequisite: This course may not be taken until all DAAC courses are completed except with special permission from the instructor.
W	DEMR	1301	Shop Safety and Procedures (3,1,5). A study of shop safety, rules, basic shop tools, and test equipment.
W	DEMR	1306	Diesel Engine I (3,1,6). An introduction to the basic principles of diesel engines and systems.
W	DEMR	1317	Basic Brake Systems (3,1,7). Basic principles of brake systems of diesel powered equipment. Emphasis on maintenance, repairs, and troubleshooting.
W	DEMR	1405	Basic Electrical Systems (4,2,6). Basic principles of electrical systems of diesel powered equipment with emphasis on starters, alternators, and batteries.
W	DEMR	1410	Diesel Engine Testing and Repair I (4,2,6). An introduction to testing and repairing diesel engines including related systems and specialized tools.

W	DEMR	1421	Power Train I (4,2,6). Fundamentals repair and theory of power trains including clutches, transmissions, drive shafts, and differentials. Emphasis on inspection and repair
W	DEMR	1423	Heating, Ventilation, and Air Conditioning (HVAC) Troubleshooting and Repair (4,2,6). Introduction to heating, ventilation, and air conditioning theory, testing, and repair. Emphasis on refrigerant reclamation, safety procedures, specialized tools, and repairs.
W	DEMR	1449	Diesel Engine II (4,2,7). An in-depth coverage of disassembly, repair, identification, evaluation, and reassembly of diesel engines.
W	DEMR	2266	Practicum (or Field Experience): Diesel Mechanics Technology/ Technician (2,0,14). Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student.
W	DEMR	2334	Advanced Diesel Tune-Up and Troubleshooting (3,1,7). Advanced concepts and skills required for tune-up and troubleshooting procedures of diesel engines. Emphasis on the science of diagnostics with a common sense approach.
W	DEMR	2412	Diesel Engine Testing and Repair II (4,2,6). Continuation of Diesel Engine Testing and Repair I. Coverage of testing and repairing diesel engines including related systems and specialized tools.
W	DEMR	2432	Electronic Controls (4,2,6). Advanced skills in diagnostic and programming techniques of electronic control systems.
W	DFTG	1215	Architectural Blueprint Reading (2,1,4). The fundamentals of blueprint reading for the construction industry will be examined.
W	DFTG	1309	Basic Computer-Aided Drafting (3,2,2). An introduction to computer-aided drafting. Emphasis is placed on setup; creating and modifying geometry; storing and retrieving predefined shapes; placing, rotating, and scaling objects, adding text and dimensions, using layers, coordinate systems, and plot/print to scale.
W	DITA	1300	Dietary Manager I (3,2,2). Preparation for supervisory roles in food service departments. Emphasis on normal and therapeutic nutrition and food service systems management. Major topics include dietary and meal planning guidelines, sources and functions of nutrients, diet therapy, nutritional assessment and care, food production management and purchasing, and regulatory agencies.
A	DRAM	1120 1121	Theatre Practicum (1,0,4). A study in dramatic activities for performances and competition including: set, costume and lighting construction for all departmental productions. This course covers practical application of

		2120 2121	practice in one-set plays for spring competition. Drama majors and minors are required to enroll each semester.
A	DRAM	1161 1162	Music Theatre I & II (1,0,4). This course is designed to give the actor and singer practical experience in music theater. A study of integration of music, acting and staging. The student may pursue this study for four semesters with one credit hour per semester. The course will serve as opera workshop for music majors and minors. No prerequisite necessary
A	DRAM	1310	Introduction to Theater (3,3,1). A general survey of the major fields of dramatic art examined through historical perspective. Emphasis is placed on the various types and styles of plays, playwrights, elementary theory and practice of acting and directing, scenery and staging techniques, design, lighting and costuming. This course is for drama majors and non-majors, and satisfies the visual and performing arts component area of the TC Core Curriculum.
A	DRAM	1330	Stagecraft (3,2,4). A beginner's course in the art and crafts of the theater, costuming, scene design and construction, lighting and makeup. Students will gain practical experience working with one-act plays and major productions. Three hours lab.
A	DRAM	1351	Acting I (3,2,4). An elementary study of the principles of acting, including: following stage directions, the use of stage areas, coordination of voice and body, and improvisation practices in scenes from plays. Students will gain practical experience in working with college productions. No prerequisite necessary.
A	DRAM	1352	Acting II (3,2,4). A continuation of Acting I with emphasis on characterization and creating a role, theories of acting and styles of acting, practical application in working with college productions. Prerequisite: DRAM 1351 - Acting I or permission of the instructor.
A	DRAM	2336	Voice for the Theater (3,3,0). A study of and practice in using the actor's voice. Includes breath control, articulation-enunciation-pronunciation, projection, and phonetics. This course would be helpful to any student wishing to improve vocal performances and correct careless and ineffective speech habits. Required of drama majors.
A	DRAM	2366	Development of the Motion Picture I (3,2,4). Emphasis on the analysis of the visual and aural aspects of selected motion pictures, dramatic aspects of narrative films, and historical growth and sociological effect of film as an art. This course satisfies the Visual and Performing Arts Component area of the TC Core Curriculum. Cross-listed as COMM 2366.

A	ECON	1301	Introduction to Economics (3,3,0). A survey of microeconomic and macroeconomic principles for non-business majors. Microeconomic topics will include supply and demand, consumer behavior, price and output decisions by firms under various market structures, factor markets, market failures, international trade, and exchange rates. Macroeconomic topics will include national income, unemployment, inflation, business cycles, aggregate supply and demand, monetary and fiscal policy, and economic growth.
A	ECON	2301	Principles of Economics I (3,3,0). Fundamental principles of economics, emphasizing the overall view of the American economy and macroeconomic issues. Major topics of study include production possibilities, theory of supply/demand, market institutions, national income accounting, classical/neoclassical philosophy, aggregate supply-aggregate demand analysis, inflation, unemployment, economics investment/growth, and money and banking.
A	ECON	2302	Principles of Economics II (3,3,0). A micro-economic study of costs and the profit maximizing theory of the firm within the various market structures, and analysis of various selected American economics problems, including public theory, agriculture and income inequality.
A	EDUC or PSYC	1300 1300	Learning Frameworks (3,3,0) A study of the: research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as EDUC 1300)
A	EDUC	1301	Introduction to the Teaching Profession (3,3,1). Introduction to and analysis of the culture of schooling and classrooms. Includes opportunities to observe in P-12 classrooms.
A	EDUC	2301	Introduction to Special Populations (3,3,1). An enriched integrated pre-service course and content experience that provides an overview of schooling and classrooms from the perspectives of language, gender, socioeconomic status, ethnic, and academic diversity and equity with an emphasis on factors that facilitate learning. Lab provides the student with opportunities to participate in field observations at all levels of P-12 school with varied and diverse student populations; a minimum of 16 hours must be in classrooms.

			Course content is aligned with the State Board for Educator Certification Pedagogy and Professional Responsibilities Standards.
W	ELMT	2339	Advanced Programmable Logic Controllers (3,1,5). Advanced applications of programmable logic controllers as used in industrial environments, including concepts of programming, industrial applications, troubleshooting ladder logic, and interfacing to equipment.
W	ELPT	1325	National Electrical Code I (3,2,2). An introductory study of the National Electric Code (NEC) for those employed in fields requiring knowledge of the Code. Emphasis on wiring design, protection, methods, and materials; equipment for general use; and basic calculations.
W	ELPT	1311	Basic Electrical Theory (3,1,8). Basic theory and practice of electrical circuits. Includes calculations as applied to alternating and direct current.
W	ELPT	1321	Introduction to Electrical Safety and Tools (3,2,4) Safety rules and regulations. Includes the selection, inspection, use, and maintenance of common tools for electricians.
W	ELPT	1351	Electrical Machines (3,2,4). Direct current (DC) motors, single-phase and polyphase alternating current (AC) motors, generators, and alternators. Emphasis on construction, characteristics, efficiencies, starting, and speed control.
W	ELPT	1419	Fundamentals of Electricity I (4,2,6). An introduction to basic direct current (DC) theory including electron theory and direct current applications.
W	ELPT	1420	Fundamentals of Electricity II (4,1,9). Introduces alternating current (AC). Includes AC voltage, frequency, mechanical and electrical degrees, waveforms, resistors, capacitors, and inductors.
W	ELPT	1429	Residential Wiring (4,2,6). Wiring methods for single family and multi-family dwellings. Includes load calculations, service entrance sizing, proper grounding techniques, and associated safety procedures.
W	ELPT	1457	Industrial Wiring (4,2,6). Wiring methods used for industrial installations. Included motor circuits, raceway and bus way installations, proper grounding techniques, and associated safety procedures.

W	ELPT	2325	National Electrical Code II (3,2,2). In-depth coverage of the National Electrical Code (NEC) for those employed in fields requiring knowledge of the Code. Emphasis on wiring protection and methods, special conditions, and advanced calculations.
W	ELPT	2437	Electrical Planning and Estimating (4,2,6). Planning and estimating for residential, commercial, or industrial wiring systems. Includes a variety of electrical techniques.
W	ELTN	1343	Electrical Troubleshooting (3,2,4). Maintenance, operation, troubleshooting, and repair of circuits of various residential, commercial, and industrial electrical systems.
W	EMSP	1260	Clinical EMT (2,0,6). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry. Concurrent registration with EMSP 1501.
W	EMSP	1338	Introduction to Advanced Practice (3,3,1). An exploration of the foundations necessary for mastery of the advanced topics of clinical practice out of the hospital. At the completion of this module, the student will understand the roles and responsibilities of a paramedic with the EMS system; apply the basic concepts of development, pathophysiology to assessment and management of emergency patients; be able to communicate effectively with patients; and understand the medical/legal and ethical issues relating to EMS practice as well as the issues impacting the well-being of the paramedic. Prerequisite: Current EMT or EMT-Intermediate certification or advanced EMT licensure and current A.H.A.BLS Healthcare Provider certification or equivalent course completion. Concurrent registration with EMSP 1356, EMSP 1355, EMSP 2338, and EMSP 2361.
W	EMSP	1355	Trauma Management (lecture and lab hours vary by program). A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of patients with traumatic injuries. At the completion of this module, the student will be able to integrate the pathophysiological principles and assessment findings to formulate a field impression; and implement the treatment plan for the trauma patient. Concurrent registration with EMSP 1338, EMSP 1356, EMSP 2338, and EMSP 2361.

W	EMSP	1356	Patient Assessment and Airway Management (3,3,1). A detailed study of the knowledge and skills required to reach competence in performing patient assessment and airway management. At the completion of this module, the student will be able to take a proper history and perform a comprehensive physical exam on any patient; develop a patient care plan; communicate with others; and establish and/or maintain a patient airway, oxygenate, and ventilate a patient. Concurrent registration with EMSP 1338, EMSP 1355, EMSP 2338, and EMSP 2361.
W	EMSP	1501	EMT (5,4,4). Introduction to the level of Emergency Medical Technician (EMT)-Basic. Includes all the skills necessary to provide emergency medical care at a basic life support level with an ambulance service or other specialized services. The student will display a working knowledge of clinical information and related topics relevant to the practice of pre-hospital emergency medical care of the EMT level; demonstrate the ability to competently perform all applicable skills; and exhibit attitudes and behavior consistent with the ethics and professionalism expected of the EMT. Prerequisites: Current American Heart Association Health Care Provider or American Red Cross Professional Rescuer or equivalent course completion.
W	EMSP	2135	Advanced Cardiac Life Support (1,0,3). Skill development for professional personnel practicing in critical care units, emergency departments, and paramedic ambulances. Establishes a system of protocols for management of the patient experiencing cardiac difficulties. The student will display a working knowledge of clinical information and related topics relevant to the practice of pre-hospital and hospital personnel in cardiac management; demonstrate the ability to competently perform all applicable skills; and exhibit attitudes and behavior consistent with the ethics and professionalism expected of pre-hospital and hospital personnel. Prerequisite: Current American Heart Association Health Care Provider or American Red Cross Professional Rescuer or equivalent course completion.
W	EMSP	2243	Assessment Based Management (2,3,2). The capstone course of the EMSP program. Designed to provide for teaching and evaluating comprehensive, assessment-based patient care management. At the completion of this module, the student will be able to integrate pathophysiological principles and assessment findings to formulate a field impression; and implement a treatment plan for patients with common complaints. Prerequisites: EMSP 1338, EMSP 1356, EMSP 1355, EMSP 2338, EMSP 2361, EMSP 2348, EMSP 2330, EMSP 2362, EMSP 2434, and EMSP 2444. Concurrent registration with EMSP 2263.

W	EMSP	2263	<p>Clinical-Paramedic III (2,0,7). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry. Prerequisites: EMSP 1338, EMSP 1356, EMSP 1355, EMSP 2338, and EMSP 2361, EMSP 2348, EMSP 2444, EMSP 2330, EMSP 2434, and EMSP 2362. Concurrent registration with EMSP 2243.</p>
W	EMSP	2330	<p>Special Populations (3,3,1). A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of ill or injured patients in nontraditional populations. At the completion of this module, the student will be able to integrate pathophysiological principles and assessment findings to formulate a field impression; and implement a treatment plan for neonatal, pediatric, and geriatric patients, diverse patients, and chronically ill patients. Prerequisites: EMSP 1338, EMSP 1356, EMSP 1355, EMSP 2338, and EMSP 2361. Concurrent registration with EMSP 2348, EMSP 2444, EMSP 2434, and EMSP 2362.</p>
W	EMSP	2338	<p>EMS Operations (3,2,2). A detailed study of the knowledge and skills necessary to reach competence to safely manage the scene of an emergency. At the completion of this unit, the student will be able to safely manage medical incidents, rescue situations, hazardous materials and crime scenes. Concurrent registration with EMSP 1338, EMSP 1355, EMSP 1356, and EMSP 2361.</p>
W	EMSP	2348	<p>Emergency Pharmacology (3,3,1). A comprehensive course covering all aspects of the utilization of medications in treating emergency situations. Course is designed to complement Cardiology, Special Populations, and Medical Emergency courses. The student will display a command of general pharmacological terminology, general drug mechanisms, administration routes and administration procedures, and drug dose calculations. Students will demonstrate understanding for the pharmacodynamics, pharmacokinetics, indications, contraindications, possible side effects, and common drug interactions of a variety of medications used in out-of-hospital medical care. Prerequisites: EMSP 1338, EMSP 1356, EMSP 1355,</p>

			EMSP 2338, and EMSP 2361. Concurrent registration with EMSP 2444, EMSP 2330, EMSP 2434, and EMSP 2362.
W	EMSP	2361	Clinical-Paramedic I (3,0,9). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry. Concurrent registration with EMSP 1338, EMSP 1356, EMSP 1355, and EMSP 2338.
W	EMSP	2362	Clinical-Paramedic II (3,0,9). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry. Prerequisites: EMSP 1338, EMSP 1355, EMSP 1356, EMSP 2338, and EMSP 2361. Concurrent registration with EMSP 2348, EMSP 2444, EMSP 2330, and EMSP 2434.
W	EMSP	2434	Medical Emergencies (4,4,1). A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of patients with medical emergencies. At the completion of this module, the student will be able to integrate pathophysiological principles and assessment findings to formulate a field impression; and implement a treatment plan for the medical patient. Prerequisites: EMSP 1338, EMSP 1355, EMSP 1356, EMSP 2338, and EMSP 2361. Concurrent registration with EMSP 2348, EMSP 2444, EMSP 2330, and EMSP 2362.

W	EMSP	2444	Cardiology (4,3,3). A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of patients with cardiac emergencies. At the completion of this module, the student will be able to integrate pathophysiological principles and assessment findings to formulate a field impression; and implement a treatment plan for the cardiac patient. Prerequisites: EMSP 1338, EMSP 1355, EMSP 1356, EMSP 2338, and EMSP 2361. Concurrent registration with EMSP 2348, EMSP 2330, EMSP 2434, and EMSP 2362.
W	EMSP	2461	Clinical-EMT (Paramedic IV) (4,0,12). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry. Prerequisites: EMSP 1338, EMSP 1356, EMSP 1355, EMSP 2361, EMSP 2338, EMSP 2348, EMSP 2444, EMSP 2330, EMSP 2434, EMSP 2362, EMSP 2243, and EMSP 2263.
A	ENGL	0020	NCBO-ABE English (0,1,0) Developmental reading and higher order thinking skills necessary for college readiness.
A	ENGL	0031	Basic English (0,3,1). A course, using varied instructional techniques, designed to help students overcome deficiencies in their writing and improve writing skills necessary to pursue college-level work. Emphasis is placed on paragraph writing. In addition, 10.5 hours of laboratory work is required. Successful completion of the course with a C or higher allows the student to advance to English 0032. Nontransferable and does not count toward an Associate Degree at Texarkana College.

A	ENGL	0032	Developmental Writing (0,3,1). Development of college-level writing focusing on idea generation, drafting, organization, revision, and utilization of standard English. In addition, 10.5 hours of laboratory work is required. A grade of C is necessary to advance to English 1301. Nontransferable and does not count toward an Associate Degree at Texarkana College. Prerequisite: Completion of English 0031 with a C or better, or writing portion of the TSI.
A	ENGL	0041	Integrated READ I/Writing (0,4,1). This is a combined lecture/lab, performance-based course designed to develop students' critical reading and academic writing skills. The focus of the course will be on applying critical reading skills for organizing, analyzing, and retaining material and developing written work appropriate to the audience, purpose, situation, and length of the assignment. The course integrates preparation in basic academic reading skills with basic skills in writing a variety of academic essays. This is a course with a required lab. The course fulfills TSI requirements for reading and writing. Successful completion of the course with a C or higher allows the student to advance to English 0042. Nontransferable and does not count toward an Associate Degree at Texarkana College. Prerequisite TSI Reading and Writing requirements
A	ENGL	0042	Integrated READ II/Writing (0,4,1). This is a combined lecture/lab, performance-based course designed to develop students' critical reading and academic writing skills. The focus of the course will be on applying critical reading skills for organizing, analyzing, and retaining material and developing written work appropriate to the audience, purpose, situation, and length of the assignment. The course integrates preparation in basic academic reading skills with basic skills in writing a variety of academic essays. This is a course with a required lab. The course fulfills TSI requirements for reading and writing. Successful completion of the course with a C or higher allows the student to advance to English 1301. Nontransferable and does not count toward an Associate Degree at Texarkana College. Prerequisite TSI Reading and Writing requirements
A	ENGL	0050	Base NCBO English (0,1,0) Integration of critical reading and academic writing skills. Successful completion of this intervention if taught at the upper (exit) level fulfills TSI requirements for reading and/or writing.
A	ENGL	0060	NCBO for Writing Integration of critical reading and academic writing skills. Successful completion of this intervention if taught at the upper (exit) level fulfills TSI requirements for reading and/or writing
A	ENGL	1301	Composition I (3,3,1). Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis. Prerequisite: Completion of English 0032 or 0042 with a C or better, TSI Reading and Writing Requirements

A	ENGL	1302	Composition II (3,3,1). Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions. Prerequisite: Satisfactory completion of ENGL 1301.
A	ENGL	2307	Creative Writing (3,3,0). Practical experience in the techniques of imaginative writing. May include fiction, nonfiction, poetry, screenwriting, or drama. Prerequisite: Students taking this course must have satisfactorily completed both semesters of Composition I & II, ENGL 1301 and 1302, or the equivalent from another college or university.
A	ENGL	2311	Technical & Business Writing (3,3,0). Intensive study of and practice in professional settings. Focus on the types of documents necessary to make decisions and take action on the job, such as proposals, reports, instructions, policies and procedures, e-mail messages, letters, and descriptions of products and services. Practice individual and collaborative processes involved in the creation of ethical and efficient documents. Prerequisite: Students taking this course must have satisfactorily completed ENGL 1301 with a grade of C or higher.
A	ENGL	2322	British Literature I (3,3,0). A survey of the development of British literature from the Anglo-Saxon period to the Eighteenth Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions. Prerequisite: Students taking this course must have satisfactorily completed both semesters of Composition I & II, ENGL 1301 and 1302, or the equivalent from another college or university and successful completion of the reading portion of the TSI test.
A	ENGL	2323	British Literature II (3,3,0). A survey of the development of British literature from the Romantic period to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions. Prerequisite: Students taking this course must have satisfactorily completed both semesters of Composition I & II, ENGL 1301 and 1302, or the equivalent from another college or university and successful completion of the reading portion of the TSI test.
A	ENGL	2327	American Literature I (3,3,0). A survey of American literature from the period of exploration and settlement through the Civil War. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from among a diverse group of authors for what they reflect and reveal about the evolving American experience and character. Prerequisite: Students taking this course must have satisfactorily completed both semesters of Composition I & II, ENGL 1301 and 1302, or the equivalent from another college or university and successful completion of the reading portion of the TSI test.

A	ENGL	2328	American Literature II (3,3,0). A survey of American literature from the Civil War to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from among a diverse group of authors for what they reflect and reveal about the evolving American experience and character. Prerequisite: Students taking this course must have satisfactorily completed both semesters of Composition I & II, ENGL 1301 and 1302, or the equivalent from another college or university and successful completion of the reading portion of the TSI test.
A	ENGL	2332	World Literature I (3,3,0). A survey of world literature from the ancient world through the sixteenth century. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions. Prerequisite: Students taking this course must have satisfactorily completed both semesters of Composition I & II, ENGL 1301 and 1302, or the equivalent from another college or university and successful completion of the reading portion of the TSI test.
A	ENGL	2333	World Literature II (3,3,0). A survey of world literature from the seventeenth century to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions. Prerequisite: Students taking this course must have satisfactorily completed both semesters of Composition I & II, ENGL 1301 and 1302, or the equivalent from another college or university and successful completion of the reading portion of the TSI test.
A	ENGL	2341	Forms of Literature (3,3,0) The study of one or more literary genres including, but not limited to poetry, fiction, drama, and film. Prerequisite: Successful completion of the reading portion of the TSI and Successful completion of ENGL 1301.
A	ENGR	1201	Foundations of Engineering (2,3,1). Introduction to the profession of engineering and the application of engineering principles to solve design problems. Topics covered include engineering sub-disciplines and ethics; use of the computer in problem solving, physical laws, and engineering statistics. Prerequisite: MATH 1314 or permission of the instructor.
A	ENGR	1304	Engineering Graphics I (3,2,2). The principles of drafting the theory and practice of Orthographic Projection in the first and third quadrants, size and shape descriptions, geometric constructions, sections, auxiliary projections, revolutions, axonometrics, obliques, surface intersections, dimensioning, and size and geometric tolerancing.

A	ENGR	1305	Engineering Graphics II (3,2,2). Descriptive Geometry. An examination of the graphical solution to problems involving points, lines, and planes in space. This will include principal, primary and oblique views, intersections, warped surfaces, and surface developments. Prerequisite: ENGR 1304.
A	ENGR	2301	Engineering Mechanics I (Statics) (3,3,0). Fundamental principles of statics; force systems, equilibrium, structures, distributed forces, friction, virtual work, moments of inertia of area, and moments of inertia of mass. Prerequisite: PHYS 2325/2125 and MATH 2414 (can also be taken while currently enrolled in math course)
A	ENGR	2302	Engineering Mechanics II (Dynamics) (3,3,0). Principles of dynamics: Kinematics, Newton's laws of motion, work and energy, impulse and momentum, and periodic motion. Prerequisite: ENGR 2301 or Division approval.
A	ESOL	0031	English for Speakers of Other Languages (0,3,2). A course designed to improve the English language skills of nonnative speakers of English. The instruction emphasizes vocabulary building, identifying and overcoming deficiencies in grammatical structure, and improving the listening, speaking, and writing skills of nonnative students who intend to pursue college-level studies.
A	FREN	1300	Conversational French I (3,3,0). This course is designed to improve the student's oral communication skills and pronunciation. The study includes audio-lingual activities, basic vocabulary, practice of common idiomatic phrases, and dialogues on topics of daily life situations. This course may not substitute for French 1411 or be counted as part of the core requirements for a baccalaureate degree or majors in French.
A	FREN	1310	Conversational French II (3,3,0). Continuation of FREN 1300. Additional work and practice in conversation, pronunciation, expressions, and class discussion of varied topics of everyday situations. This course may not substitute for FREN 1412 or be counted as part of the core requirements for a baccalaureate degree or majors in French.
A	FREN	1411	Beginning French I (4,3,2). A beginning level course which introduces students to fundamental language skills in listening comprehension, speaking, reading and writing. Study includes basic vocabulary, grammatical structures, and culture of the French-speaking peoples. Two hours a week in laboratory practice required.

A	FREN	1412	Beginning French II (4,3,2). Continuation of French 1411 with emphasis on communication skills. Two hours a week in laboratory practice required. Prerequisite: French 1411, two units of high school French, or an appropriate score on placement test.
A	FREN	2311	Intermediate French I (3,3,0). An intermediate level course designed to improve the student's language skills. Review of language structures, greater emphasis on conversation, vocabulary building, reading, guided composition and culture. Class conducted mostly in French. Prerequisite: French 1412, three units of high school French, or an appropriate score on placement test.
A	FREN	2312	Intermediate French II (3,3,0). Continuation of French 2311. More advanced study in oral and written expression, reading periodicals and literature. Prerequisite: French 2311
W	GAME	1343	Game and Simulation Programming I (3,2,4). This course is designed to teach the fundamentals of microcomputer graphics using BASIC or Turbo Pascal. The student will use color graphic commands to display bar graphs, pie charts, line graphs, and other computer generated designs. The student will also use CLIP ART or similar software to create graphics. Prerequisites: BCIS 1310. MATH 1316 recommended.
A	GEOG	1303	World Regional Geography (3,3,0). A study of the major developed and developing regions of the world, with emphasis on an awareness of prevailing world conditions and emerging developments, including the diversity of ideas and practices in various regions. Major topics may include: culture, religion, language, landforms, climate, agriculture, and economic activities.
A	GEOG	2389	Academic Cooperative in Social Sciences (Geography) (3,3,0). A course designed to integrate on-campus study with practical hands-on experience in local government resources. In conjunction with a geography course, the individual student and the professor will set specific goals and objectives.
A	GEOL	1301	Earth Sciences for Non-Science Majors I (lecture) (3,3,0). Survey of geology, meteorology, oceanography, and astronomy. Recommended co-requisite: GEOL 1101

A	GEOL	1101	Earth Sciences for Non-Science Majors I (lab) (1,0,3). This laboratory course accompanies GEOL 1301. Activities will cover methods used to collect and analyze data in geology, meteorology, oceanography, and astronomy. Pre-/Co-requisite: GEOL 1301
A	GEOL	1303	Physical Geology (lecture) (3,3,0). Introduction to the study of the materials and processes that have modified and shaped the surface and interior of Earth over time. These processes are described by theories based on experimental data and geologic data gathered from field observations. Recommended co-requisite: GEOL 1103
A	GEOL	1103	Physical Geology Laboratory (lab) (1,0,3) This laboratory course accompanies GEOL 1303. Laboratory activities will cover methods used to collect and analyze earth science data. Pre-/Co-requisite: GEOL 1303
A	GEOL	1304	Historical Geology (lecture) (3,3,0). A comprehensive survey of the history of life and major events in the physical development of Earth as interpreted from rocks and fossils. Prerequisite: GEOL 1303 or permission of instructor. Recommended co-requisite: GEOL 1104
A	GEOL	1104	Historical Geology (lab) (1,0,3). This laboratory course accompanies GEOL 1304. Laboratory activities will introduce methods used by scientists to interpret the history of life and major events in the physical development of Earth from rocks and fossils. Pre-/Co-requisite: GEOL 1304
W	GISC	1444	Application of Geographic Information Science (GIS) (4,3,3). Includes the relationship between the principles of cartography, geography, and their use in geospatial analysis. Emphasizes global reference systems (GPS technology). Also includes satellite and GPS technology for measurement and navigation.
A	GOVT	2304	Introduction to Political Science (3,3,0). An introductory survey of the field of political science. Includes an examination of the basic concepts of politics and political behavior, the history of the discipline, the scope and methods of political inquiry, public policy, political dynamics, and theory and organization of the modern state. This course may not be substituted for GOVT 2305 or 2306.
A	GOVT	2305	Federal Government (3,3,0). A study of American national government with emphasis on the United States Constitution, Federalism, Congress, the Presidency, and the federal courts. Additional emphasis is placed on bureaucracy, criminal procedure, civil liberties, political parties, and voting behavior. Prerequisite: Successfully completed the reading portion of the TSI Test.
A	GOVT	2306	Texas Government (3,3,0). A study of the Texas Constitution and government emphasizing political institutions including: political parties, interest groups, the legislature, the governor, bureaucracy, judiciary, and local government. Prerequisite: Successfully completed the reading portion of the TSI Test.

A	GOVT	2389	Academic Cooperative in Social Sciences (Government) (3,3,0). A course designed to integrate on-campus study with practical hands-on experience in local government resources. In conjunction with a government course, the individual student and the professor will set specific goals and objectives.
W	HAMG	1221	Introduction to Hospitality Industry (2,2,0). Introduction to the elements of the hospitality Industry.
W	HAMG	2207	Hospitality Marketing & Sales (2,2,0). Identification of the core principles of marketing and sales and their impact on the hospitality industry.
W	HART	1303	Air Conditioning Control Principles (3,1,6). A basic study of HVAC and refrigeration controls; troubleshooting of control components; emphasis on use of wiring diagrams to analyze high and low voltage circuits; a review of Ohm's law as applied to air conditioning controls and circuits.
W	HART	1341	Residential Air Conditioning (3,1,7). A study of components, applications, and installation of mechanical air conditioning systems including operating conditions, troubleshooting, repair, and charging of air conditioning systems.
W	HART	1345	Gas & Electric Heating (3,1,6). Study of the procedures and principles used in servicing heating systems including gas fired furnaces and electric heating systems.
W	HART	1356	EPA Recovery Certification Preparation (3,2,4). Certification training for HVAC refrigerant recovery, recycle, and reclaim. Instruction will provide a review of EPA guidelines for refrigerant recovery and recycling during the installation, service, and repair of all HVAC and refrigeration systems.
W	HART	1401	Basic Electricity for HVAC (4,2,6). Principles of electricity as required by HVAC, including proper use of test equipment, electrical circuits, and component theory and operation.
W	HART	1407	Refrigeration Principles (4,3,2). An introduction to the refrigeration cycle, heat transfer theory, temperature/pressure relationship, refrigerant handling, refrigeration components and safety.
W	HART	1410	HVAC Shop Practices and Tools (4,2,7). Tools and instruments used in the HVAC industry. Includes proper application, use and care of these tools, and tubing and piping practices.

W	HART	2336	Air Conditioning Troubleshooting (3,1,5). An advanced course in application of troubleshooting principles and use of test instruments to diagnose air conditioning and refrigeration components and system problems including conducting performance tests.
W	HART	2349	Heat Pumps (3,1,7) A study of heat pumps, heat pump control circuits, defrost controls, auxiliary heat, air flow, and other topics related to heat pump systems.
W	HART	2431	Advanced Electricity for HVAC (4,1,9). Advanced electrical instruction and skill building in installation and servicing of air conditioning and refrigeration equipment including detailed instruction in motors and power distribution, motors, motor controls, and application of solid state devices.
W	HART	2438	Air Conditioning Installation and Startup (4,3,4). A study of air conditioning system installation, refrigerant piping, condensate disposal, and air cleaning equipment with emphasis on startup and performance testing.
W	HART	2450	HVAC Zone Controls (4,2,6). Theory and application of HVAC residential zone control devices, electromechanical controls, and/or pneumatic controls.
A	HIST	1301	United States History I (3,3,0). Review of political, economic, and social trends in the history of the United States to 1877. Successfully completed the reading portion of the TSI Test.
A	HIST	1302	United States History II (3,3,0). Review of political, economic, and social trends in the history of the United States from 1877 to present. Prerequisite: Successfully completed the reading portion of the TSI Test.
A	HIST	2321	World Civilizations I (3,3,0). A survey of ancient and medieval history with emphasis on Asian, African, and European cultures.
A	HIST	2322	World Civilizations II (3,3,0). The modern history and culture of Asia, Africa, Europe, and the Americas, including recent developments.
A	HIST	2389	Academic Cooperative in Social Sciences (History) (3,3,0). A course designed to integrate on-campus study with practical hands-on experience in local history resources. In conjunction with a history course, the individual student and the professor will set specific goals and objectives.
W	HPRS	1201	Introduction to Health Professions (2,2,0) An overview of roles of various members of the health care system, educational requirements, and issues affecting the delivery of health care.
W	HPRS	1304	Basic Health Professions Skills (3,2,2) A study of the concepts that serve as the foundation for health profession courses, including client care and safety issues, basic client monitoring, and health documentation methods.
W	HPRS	2221	Medical Law & Ethics for Health Professionals (2,1,2) Study of Medical Law and Ethics including foundations of law and ethics, legal issues for working health care practitioners, and professional, social, and interpersonal healthcare issues.

A	HUMA	1315	Fine Arts Appreciation (3,3,0). Understanding purposes and processes in the visual, literary, dramatic and musical arts, including the evaluation of selected works.
W	HYDR	1445	Hydraulics and Pneumatics (4,2,4). Discussion of the fundamentals of hydraulics and pneumatics, components of each system and the operations, maintenance, and analysis of each system.
W	IFWA	1205	Food Service Equipment & Planning (2,1,2). A study of various types of food service equipment and the planning of equipment layout for product flow and efficient operation.
W	IFWA	1318	Nutrition for the Food Service Professional (3,2,2). An introduction to nutrition including nutrients, digestion and metabolism, menu planning, recipe modification, dietary guidelines and restrictions, diet and disease, and healthy cooking techniques.
W	IMED	1316	Web Development I (3,2,4). The student will identify basic Internet concepts and terminology; use electronic communication methods; collect and evaluate research data using the Internet; and design, create, organize, and publish web pages and sites.
W	INEW	2332	Comprehensive Software Project (3,2,4). A comprehensive application of skills learned in previous courses in a simulated workplace. Covers the development, testing, and documenting of a complete software and/or hardware solution; includes coding, testing, maintenance, and documentation of a complete software and/or hardware solution.
W	INEW	2334	Advanced Web Page Programming (3,2,4). Advanced applications for Web authoring. Topics include Database Interaction, Active Server Pages, Java scripts, tables, HTML, and/or interactive elements. Use a combination of SSI, Java scripts, HTML, ASP, or other interactive elements to design, code, and implement a dynamic Web page. Prerequisites: IMED 1316.
W	INMT	1305	Introduction to Industrial Maintenance (3,1,8). Basic mechanical skills and repair techniques common to most fields of industrial maintenance. Topics include precision measuring instruments and general safety rules common in industry, including lock-out/tag-out.
W	INMT	1380	Cooperative Education/Manufacturing Technology Technician (3,1,20). Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience (at least 20 hours per week). Includes a lecture component.
W	INMT	1381	Cooperative Education Cooperative Education/Manufacturing Technology Technician (3,1,20). Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and

			the employer, the student combines classroom learning with work experience (at least 20 hours per week). Includes a lecture component.
W	INMT	2301	Machinery Installation (3,1,6). Students utilize skills acquired in previous studies. Machinery foundation, locations, installation, and alignment activities are practiced and tested. Emphasis is on the various methods of shaft alignment, including laser shaft alignment.
W	INMT	2303	Pumps, Compressors, & Mechanical Drives (3,1,6). A study of the theory and operations of various types of pumps and compressors. Topics include mechanical power transmission systems including gears, v-belts, and chain drives.
W	INMT	2345	Industrial Troubleshooting (3,1,6). An advanced study of the techniques used in troubleshooting various types of industrial equipment to include mechanical, electrical, hydraulic, and pneumatic systems and their control devices. Emphasis will be placed on the use of schematics and diagrams in conjunction with proper troubleshooting procedures.
W	INTC	1341	Principles of Automatic Control (3,3,1). Basic measurements, automatic control systems and design, closed loop systems, controllers, feedback, control modes, and control configurations.
W	INTC	1356	Instrumentation Calibration (3,1,4). Techniques for configuring and calibrating transmitters, controllers, recorders, valves, and valve positioners.
W	INTC	1443	Application of Industrial Automatic Controls (4,3,3). Automatic process control including measuring devices, analog and digital instrumentation, signal transmitters, recorders, alarms, controllers, control valves, and process and instrument diagrams. Includes connection and troubleshooting of loops.
W	INTC	1357	AC/DC Motor Controls (3,2,2). A study of electric motors and motor control devices common to a modern industrial environment. A presentation of motor characteristics with emphasis on starting, speed control, and stopping systems.
W	ITCC	1401	Introduction to Networks (formerly <i>Network Fundamentals</i>) (4,3,3). This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By

			the end of either course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes.
W	ITCC	1404	Introduction to Networks (formerly <i>Network Fundamentals</i>) (4,3,3). Course catalog description: This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of either course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes.
W	ITCC	2408	Scaling Networks (formerly <i>LAN Switching and Wireless</i>) (4,3,3). This course describes the architecture, components, and operations of routers and switches in a larger and more complex network. Students learn how to configure routers and switches for advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Students will also develop the knowledge and skills needed to implement DHCP and DNS operations in a network. Co-requisite: Must be concurrently enrolled in ITCC 2410.
W	ITCC	2410	Connecting Networks (formerly <i>Accessing the WAN</i>) (4,3,3). This course discusses the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. Students learn how to configure and troubleshoot network devices and resolve common issues with data link protocols. Students will also develop the knowledge and skills needed to implement IPsec and virtual private network (VPN) operations in a complex network. Co-requisite: Must be concurrently enrolled in ITCC 2408.
W	ITMT	1303	Querying MS SQL Server (3,2,4). Introductory coverage of the technical skills required to write basic Transact-SQL queries for Microsoft SQL Server. Describe uses of and ways to execute the Transact-SQL language; use querying tools; write SELECT queries; group and summarize data; join data from multiple tables; modify data in tables; query text fields with full search text; and describe how to create programming objects. Prerequisite: BCIS 1310, COSC 1309 or approval of instructor.
W	ITNW	1308	Implementing and Supporting Client Operating Systems (3,2,4). The fundamentals of managing and configuring network clients.

W	ITNW	1325	Fundamentals of Networking Technologies (3,2,4). Instruction in networking essential concepts including the OSI reference model, network protocols, transmission media, and networking hardware and software. Identify media used in network communications, distinguish among them, and determine how to use them to connect servers and clients in a network; recognize the primary network architectures, identify their major characteristics, and determine which would be most appropriate for a proposed network; determine how to implement and support the major networking components, including the server, operating system, and clients; distinguish between Local Area Networks (LANs) and Wide Area Networks (WANs) and identify the components used to expand a LAN into a WAN; and determine how to implement connectivity devices in the larger LAN/WAN environment.
W	ITNW	1345	Implementing Network Directory Services (3,2,4). In-depth coverage of the skills necessary to install, configure, and administer Network Directory Service. Prerequisite: ITNW 1354 or approval of instructor.
W	ITNW	1351	Fundamentals of Wireless LANs (3,3,0). Designing, planning, implementing, operating, and troubleshooting wireless LANs (WLANs). Includes WLAN design, installation, and configuration; and WLAN security issues and vendor interoperability strategies.
W	ITNW	1353	Supporting Network Server Infrastructure (3,2,4). Installing, configuring, managing, and supporting a network infrastructure. Prerequisite: ITNW 1354 or approval of instructor.
W	ITNW	1354	Implementing and Supporting Servers (3,2,4). Implement, administer, and troubleshoot information systems that incorporate servers in a networked computing environment.

W	ITNW	2305	Network Administration (3,2,4). Topics include network components, user accounts and groups, network file systems, file system security, and network printing. Prerequisite: INTW 1354 or approval of instructor.
W	ITNW	2354	Internet/Intranet Server (3,2,4). Advanced concepts in the designing, installing, and administration of an Internet/Intranet server. Prerequisite: ITNW 1354 or approval of instructor.
W	ITNW	2356	Designing a Network Directory Infrastructure (3,2,4). Design, implement, and support a network directory infrastructure in a multi-domain environment. Prerequisite: ITNW 1354 or approval of instructor.
W	ITSC	1307	UNIX Operating System I (3,2,4). A study of the UNIX operating system including multi-user concepts, terminal emulation, use of system editor, basic UNIX commands, and writing script files. Topics include introductory systems management concepts.
W	ITSC	1315	Project Management Software (3,2,4). Use of project management software for developing a project plan including time lines, milestones, scheduling, life cycle phases, management frameworks, skills, processes, and tools.
W	ITSC	1321	A+: Intermediate PC Operating Systems (3,2,4). Continued study in advanced installation and configuration troubleshooting, advanced file management, memory and storage management. Update peripheral device drivers, and use of utilities to increase system performance.
W	ITSC	2339	Personal Computer Help Desk Support (3,2,4). Diagnosis and solution of user hardware and software-related problems with on-the-job and/or simulated projects.
W	ITSC or COSC	1330 1336	Introduction to C# Programming (3,2,4). Introduction to computer programming using the C# language. Emphasis on the fundamentals of structured design, development, testing, implementation, and documentation. Includes coverage of language syntax, object oriented programming concepts, and user interface design.
W	ITSE	1331	Introduction to Visual BASIC Programming (3,2,4). Introduction to computer programming using Visual BASIC. Emphasis on the fundamentals of structured design, development, testing, implementation, and

			documentation. Includes language syntax, data and file structures, input/output devices, and files. The student will use structured programming techniques; develop correct executable programs; create appropriate documentation; and create applicable graphical user interfaces. Prerequisites: BCIS 1310 or instructor approval.
W	ITSE	1391	Computer Math/Special Topics in Computer Programming (3,2,2). This course is designed to teach SIN, COS, TAN, using radians and degrees, geometry of circles, triangles, Boolean algebra, and theory. Random numbers, binary, octal and hex-a-decimal arithmetic will also be taught. The student will learn the concept of arrays and some common applications such as mean, mode, range, median, standard deviation, pie charts, bar graphs, line graphs and sorting techniques. Some common algorithms such as interest formulas and series expansions will be demonstrated.
W	ITSE	2302	Intermediate Web Programming (3,2,4). Intermediate applications for web authoring. Topics may include HTML and/or Java script. Use a combination of Java script, Java applets, Active X, and/or HTML to design and implement a web page. Prerequisite: IMED 1316.
W	ITSE	2349	Advanced Visual BASIC Programming (3,2,4). Further applications of programming techniques using Visual BASIC. Topics include file access methods, data structures and modular programming, program testing and documentation. The student will develop correct, well documented programs containing complex data structures; incorporate complex input/output files handling techniques; develop graphical user interfaces to other software applications; and integrate external programs and libraries with Visual BASIC applications. Prerequisite: ITSE 1331.
W	ITSE	2386	Internship/Computer Programming (3,1,8). This course is designed to provide the student with actual experience in a chosen area of data processing. Students will be provided qualified supervision to assist them in producing solutions to real business problems using a programming language of their choice. Students will research the problem, design the programs, and implement the system. The area chosen may be in microcomputer or mainframe programming environments. Prerequisite: Students must have taken all the courses necessary to implement their particular solution; therefore, they must have instructor approval.
W	ITSE	2417	Java Programming (4,2,4). This course is designed to acquaint students with the fundamentals and concepts of the Java programming language. Primary emphasis will be placed on using visual development tools to create platform independent Java applets. Topics covered, in addition to learning the fundamentals of the language, include Java enhanced web pages and use of Java to connect to server databases. Prerequisite: COSC 1309 or approval of the instructor.

W	ITSW	1304	Introduction to Spreadsheets (lecture and lab hours will vary by program). The objective of this course is for students to become proficient in the use of electronic spreadsheets. Emphasis is placed on creating basic to advanced spreadsheets having a professional appearance. At the completion of the class students will be knowledgeable of spreadsheet layout, cell formatting, relative, mixed, and absolute cell references, named cells, formula composition, graphing, goal seeking, spreadsheet databases, and commonly used spreadsheet functions such as Sum, Round, If, Pmt, Lookup, and various other financial and statistical functions. Prerequisite: BCIS 1305.
W	ITSW	1310	Presentation Media Software (3,2,4). The objective of this course is to assist students in becoming proficient in presentation graphics. The student will use features like the Auto-content Wizard, templates, WordArt, animation, slide transition and clip art. Also, the student will work with text, lines, fills, colors, and slide master. The student will receive hands-on training and will be required to create and present a slide show presentation. Prerequisite: BCIS 1305.
w	ITSW	2334	Advanced Spreadsheets 3,2,4). Advanced techniques for developing and modifying spreadsheets. Includes macros and data analysis functions.
W	ITSW	2337	Advanced Database (3,2,4). This course is designed to acquaint the student with the principles of a popular data base using IBM compatible computers. Students will solve business type problems in creating a data base, adding data to it, searching, sorting, and editing the data and printing formatted reports. Prerequisite: BCIS 1305.
W	ITSY	1342	Information Technology Security (3,2,4). Instruction in security for network hardware, software, and data, including physical security; backup procedures; relevant tools; encryption; and protection from viruses.

A	MATH	0020	<p>Base NCBO Math The two week NCBO is taken with both STEM and Non-Stem pathways. Topics in mathematics such as arithmetic operations, basic algebraic concepts and notation, geometry, and real and complex number systems.</p> <p>Non-transferable and does not count toward a degree at Texarkana College. Prerequisite: A C or better in Math 0029. Students whose TSI Scores are in the following ranges must take the NCBO: STEM 320-330, Non-STEM 320-327.</p>
A	MATH	0021	<p>College Prep Math I (0,3,1) The seven week modular course is for STEM students and focuses on arithmetic operations on whole numbers, fractions, decimals, real numbers; ratio/proportion, percentages, measurements, interpretation of graphs and statistics, geometry; exponents, algebraic expressions and problem solving. Non-transferable and does not count toward a degree at Texarkana College. Prerequisite: A C or better in Math 0031 or Satisfactory placement scores. (TSI Scores: 331-344).</p>
A	MATH	0022	<p>College Prep Math II (0,3,1) The seven week modular course is for STEM students and focuses on operations on and properties of real numbers, exponents, scientific notation, solving equations and inequalities; problem solving; introduction to coordinate system and graphing; polynomials: operations including factoring, solving quadratic equations by factoring; rational expressions and equations. Non-transferable and does not count toward a degree at Texarkana College. Prerequisite: A C or better in MATH 0021 or satisfactory placement scores. (TSI Scores: 331-344).</p>
A	MATH	0023	<p>Foundations of Math (0,3,1) The fourteen week course is for Non-STEM students. Topics include real numbers, proportions, descriptive statistics, basic geometry, polynomials, factoring, linear equations, inequalities, linear models, percentage models, order of operations, set operations, and an introduction to other models which may include exponential, quadratic and/or rational models. quadratic equations and rational expressions</p> <p>Non-transferable and does not count toward a degree at Texarkana College. Prerequisite: A C or better in Math 0031 or Satisfactory placement scores. (TSI Scores: 336-349).</p>
A	MATH	0025	<p>Non-STEM Base NCBO The fourteen week NCBO is paired with Foundations of Math 0023. Topics in mathematics such as arithmetic operations, basic algebraic concepts and notation, geometry, and real and complex number systems.</p> <p>Non-transferable and does not count toward a degree at Texarkana College. Prerequisite: A C or better in Math 0029 or Satisfactory placement scores. (TSI Scores: 320-335).</p>

A	MATH	0040	NCBO Math The fourteen week NCBO is paired with Math 1314 or 1324 in the STEM path. Students re-inforce learning from the college credit course in relations and functions, inequalities, algebraic expressions and equations. Non-transferable and does not count toward a degree at Texarkana College. Prerequisite: A C or better in Math 0032, an A or B in MATH 0021 and 0022 or satisfactory placement scores. (TSI Scores: 345-349).
A	MATH	1314	College Algebra (3,3,1). In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. Prerequisite: MATH 0033 or satisfactory placement scores. (TSI Scores: 350 or above).
A	MATH	1316	Plane Trigonometry (3,3,0). Topics include sets, ordered relations, number intervals, trigonometric functions, radian measure, variations and graphs of the functions, solution of right triangle and applications, trigonometric identities, equations, vector applications, and inverse functions, general triangle and complex numbers. Prerequisite: MATH 0033, MATH 1314 or satisfactory placement scores. (TSI Scores: 350 or above).
A	MATH	1324	Mathematics for Business & Social Sciences (3,3,1). The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value. Prerequisite: MATH 0033 or satisfactory placement scores. (TSI Scores: 350 or above).
A	MATH	1325	Calculus for Business & Social Sciences (3,3,1). This course is the basic study of limits and continuity, differentiation, optimization and graphing, and integration of elementary functions with emphasis on application in business, economics, and social sciences. This course is not a substitute for Math 2413 (Calculus I). Prerequisite: MATH 1314 or MATH 1324.
A	MATH	1332	Math for Liberal Arts (3,3,0). A knowledge of intermediate algebra is essential. Topics include the mathematics of finance, probability, statistics, logic and reasoning, computer and software, problem solving and geometry. This course does not count towards a mathematics degree. Prerequisite: MATH 0033 or satisfactory placement scores. (TSI Scores: 350 or above).
A	MATH	1350	Fundamentals of Math I (3,3,0). Topics include concepts of sets, functions, numeration systems, number theory, and properties of the natural numbers, integers, rational, and real number systems with an emphasis on problem solving and critical thinking. Special emphasis will be given to terminology, notation, skills, and approaches relevant to the elementary and middle grades and to uses of manipulatives and technology in the classroom. Prerequisite: MATH 1314 College Algebra or the equivalent.

A	MATH	1351	Fundamentals of Math II (3,3,0). Topics include concepts of geometry, probability, and statistics, as well as applications of the algebraic properties of real numbers to concepts of measurement with an emphasis on problem solving and critical thinking. Special emphasis will be given to terminology, notation, skills, and approaches relevant to the elementary and middle grades and to uses of manipulatives and technology in the classroom. Prerequisite: MATH 1350.
A	MATH	1442	Elementary Statistical Methods (4,3,3). An introductory course in statistical methods. Topics include collection and display of data, mean, standard deviation and variance, probability including the normal, binomial, and chi-square distributions. Other topics also included are sampling and sampling distributions, confidence intervals, hypothesis testing including nonparametric tests, regression, and analysis of variance. Prerequisite: Satisfactory placement scores. (TSI 350 or above or instructor approval) or MATH 0033 with a C or better.
A	MATH	2412	Pre Calculus (4,4,1). This course includes applications of algebra and trigonometry to the study of elementary functions and their graphs including polynomial, rational, exponential, logarithmic, and trigonometric functions. Topics from analytic geometry include conic sections, parametric equations and polar equations. Prerequisite: MATH 0033 or satisfactory placement scores (TSI Scores: 350 or above).
A	MATH	2413	Calculus I (4,3,3). Limits and continuity; the Fundamental Theorem of Calculus; definition of the derivative of a function and techniques of differentiation; applications of the derivative to maximizing or minimizing a function; the chain rule, mean value theorem, and rate of change problems; curve sketching; definite and indefinite integration of algebraic, trigonometric, and transcendental functions, with an application to calculation of areas. Prerequisites: MATH 2412, or MATH 1314 and 1316.
A	MATH	2414	Calculus II (4,3,3). Differentiation and integration of transcendental functions; parametric equations and polar coordinates; techniques of integration; sequences and series; improper integrals. Prerequisite: MATH 2413.
A	MATH	2415	Calculus III (4,3,3). Advanced topics in calculus, including vectors and vector-valued functions, partial differentiation, Lagrange multipliers, multiple integrals, and Jacobians; application of the line integral, including Green's Theorem, the Divergence Theorem, and Stokes' Theorem. Prerequisite: MATH 2414.

A	MATH	2420	Differential Equations (4,4,0). This course is designed to produce student proficiency in ordinary differential equations, including linear equations, systems of equations, equations with variable coefficients, existence and uniqueness of solutions, series solutions, singular points, transform methods, and boundary value problems; application of differential equations to real-world problems. Prerequisite: 2415
W	MDCA	1213	Medical Terminology (2,1,7) Study of basic medical terminology including the meaning of 350 most common Latin and Greek elements for interpreting complex medical terms utilizing unique memorization techniques.
W	MDCA	1310	Medical Assistant Interpersonal and Communication Skills (3,3,0). Emphasis on the application of basic psychological principles and the study of behavior as they apply to special populations. Topics include procedures for self-understanding and social adaptability in interpersonal communication with patients and co-workers in an ambulatory care setting.
W	MRKG	1311	Principles of Marketing (3,3,0) Introduction to the marketing mix functions and process. Includes identification of consumer and organizational needs and explanation of environmental issues.
W	MRMT	1307	Medical Transcription (3,1,7) Development of transcription skills in transcribing medical reports including case studies, emergency room reports, history and physical examinations, radiology reports, operative reports, pathology reports, and discharge summaries.
A	MUAP	1131 1132 2131 2132	Applied Brass (1,1,1). Individual instruction in instruments for students. Correct tone production, embouchure, fingerings for the various instruments. Includes both solo literature and technical work. One half-hour lesson per week with one hour of practice daily. Course numbers are sequential.
A	MUAP	1231 1232 2231 2232	Applied Brass (2,1,1). Individual instruction in instruments for students. Correct tone production, embouchure, fingerings for the various instruments. Includes both solo literature and technical work. One half-hour lesson per week with one hour of practice daily. Course numbers are sequential.

A	MUAP	1157 1158 2157 2158	Applied Percussion (1,1,1). Individual instruction in instruments for students. Includes both solo literature and technical work. One half-hour lesson per week with one hour of practice daily. Course numbers are sequential.
A	MUAP	1257 1258 2257 2258	Applied Percussion (2,1,1) Individual instruction in instruments for students. Includes both solo literature and technical work. One half-hour lesson per week with one hour of practice daily. Course numbers are sequential.
A	MUAP	1161 1162 2161 2162	Classical Guitar (1,1,1). Private instruction in guitar. The student will study a variety of guitar music from the Renaissance through current trends. Assignments will be given according to each student's ability. Course numbers are sequential. One half-hour lesson per week with one hour practice daily.
A	MUAP	1261 1262 2261 2262	Classical Guitar (2,1,1). Private instruction in guitar. The student will study a variety of guitar music from the Renaissance through current trends. Assignments will be given according to each student's ability. One half-hour lesson per week with one hour practice daily. Course numbers are sequential
A	MUAP	1165 1166 2165 2166	Applied Organ (1,1,1) Although this is a less concentrated course than MUAP 1265 - 1266; similar literature will be used. One half-hour lesson per week with one hour practice daily. Course numbers are sequential.
A	MUAP	1265 1266 2265 2266	Applied Organ (2,1,1). Students desiring to study organ should have studied piano previously and should have attained technical proficiency equivalent to MUAP 1269. One hour lesson per week with a minimum of two hours of practice per day is required. The minimum representative requirements in repertory are these: Gleason: Method of Organ Playing Manual Technique; Pedal Techniques Composition for Manuals Studies and Compositions for Manual and Pedal Bach: Eight Little Preludes and Fugues Works from Orgelbuchlein Works comparable in difficulty to Cathedral Prelude and Fugue Easy compositions by modern American and foreign composers. The student shall perform for jury each semester the requested numbers, and perform in a recital at least once each semester. Course numbers are sequential.

A	MUAP	1169 1170 2169 2170	Applied Piano (1,1,1). The course includes the study of suitable technical studies, major and minor scales (M.M.112) trans-I IV V I chord progression in all keys, sight reading, simple transposition, suitable compositions of Baroque, Classical, Romantic, Impressionistic, and Contemporary composers. One half-hour lesson per week with a minimum of one hour practice daily. The student shall attend a studio class as required and perform a recital at least once each semester. The student shall perform for jury each semester the requested numbers by memory. Course numbers are sequential
A	MUAP	1269 1270 2269 2270	Applied Piano (2,1,1). The minimum requirements are: Hanon, Czerny or other approved studies, all major and minor scales at various rhythms (M.M.112), arpeggios in root position. Bach-Three part inventions, and Well-Tempered Clavier, Sonatas of Mozart, Haydn or Beethoven, music of Chopin, Schubert, Schumann, Brahms or other Romantic composers; literature of the Impressionist and Contemporary composers. One hour lesson or two half hour lessons per week and a minimum of two hours practice daily. The student shall attend studio class as required each week and perform a recital at least once each semester. The student shall perform for jury each semester the requested numbers by memory. Course numbers are sequential.
A	MUAP	1101 1102 2101 2102	Strings (1,1,1). Individual instruction in violin, viola, or violoncello. Suitable solo and technical literature from the standard repertory will be used. One half-hour lessons per week with one hour of practice daily. Course numbers are sequential.
A	MUAP	1201 1202 2201 2202	Strings (2,1,1). Individual instruction in violin, viola, or violoncello. Suitable solo and technical literature from the standard repertory will be used. Two half-hour lessons, or one hour lesson, per week with two hours of practice daily. Course numbers are sequential.
A	MUAP	1181 1182 2181 2182	Applied Voice (1,1,1). These courses will consist of one half-hour lesson each week with a minimum of four hours practice each week. The student will study the principles of vocal production and progress to exercise, and studies of increased difficulty. Examples from standard repertory will be included in the six memorized songs required for each semester. Performance for recitals and jury are required for each semester as well. Course numbers are sequential.

A	MUAP	1281 1282 2281 2282	Applied Voice (2,1,1). Two half-hour lessons each week with a minimum of six hours practice each week. The courses will provide studies for voice placement, support and flexibility. Repertory will include early Italian classics, English songs, and contemporary songs. Performance for recitals and jury required each semester. Course numbers are sequential.
A	MUAP	1185 1186 2185 2186	Applied Woodwind (1,1,1). Individual instruction in instruments for students. Correct tone production, brochure, fingerings for the various instruments. Includes both solo literature and technical work. One half-hour lesson per week with one hour of practice daily. Course numbers are sequential.
A	MUAP	1285 1286 2285 2286	Applied Woodwind (2,1,1). Individual instruction of instrument. A progressive course using Arban, Klose and allied technical studies for the individual student. All major and minor scales, suitable solo material to acquaint the student with both the instrument and the literature for that instrument. Two half-hour lessons weekly, two hours practice daily. Course numbers are sequential.

A	MUEN	1122 1123 2122 2123	Band (1,0,3). The band performs as a concert band during the school year. Open to all students with approval of the director. To be eligible for spring semester activities, a student must participate in both fall and spring semesters or have special permission of the director. This course is required for all instrumental majors.
A	MUEN	1127 1128 2127 2128	Community Band (1,0,3). For persons that have played in concert bands before with a desire to play again. Students must have knowledge of music fundamentals and instrument in good playing condition.
A	MUEN	1131 1132 2131 2132	Small Instrumental Ensemble (1,0,3). Students study and perform all styles of music, including pop and jazz. Student arranging, composing and conducting is encouraged. Students are responsible for providing their own instruments and for participating in concerts or campus appearances as scheduled.
A	MUEN	1141 1142 2141 2142	Choir (1,0,3). The Texarkana College Choir makes local and regional appearances. Open to all students with the approval of the director. Responsibility for public appearances is necessary for membership. Each course carries one hour credit. Course numbers are sequential.
A	MUEN	1147 1148 2147 2148	Texarkana Regional Chorale (1,0,3). The Texarkana Regional Chorale is a performing ensemble for singers in the community or enrolled at T.C. A placement audition is required for all participants. The Chorale performs at least one concert per semester in various venues and also performs with orchestra regularly. Members may not miss more than three (3) rehearsals and are required to attend dress rehearsal in order to perform in concert. Course numbers are sequential.
A	MUEN	1154 1155 2154 2155	Vocal Ensemble (1,3,0). The TC Singers are composed of superior voices selected by the director. This group performs as a single unit as in conjunction with concert choir appearances. Prerequisites: MUEN 1154 is a prerequisite to MUEN 1155, MUEN 1155 is a prerequisite to MUEN 2154, MUEN 2154 is a prerequisite to MUEN 2155. Course numbers are sequential.
A	MUSI	1162	Vocal Diction (1,1,1). This course will provide for molding the pronunciation of lyrics in the principal singing languages. Emphasis on the international phonetic system will be stressed.

A	MUSI	1166 1167	Woodwind Class (1,2,0). This course is offered for those who wish to learn to play and teach clarinet, saxophone, oboe, bassoon, flute, and piccolo. Three hours of lecture and practice are required. Required of music education majors.
A	MUSI	1178 1179	Brass Class I & II (1,2,0). This course is offered for those who wish to learn to play and teach cornet, baritone, trombone, French horn, and bass. Required of music education majors. Three hours of lecture and practice are required.
A	MUSI	1181 1182 2181 2182	Piano Class I, II, III, IV (1,1,1). This course introduces the beginning student to fundamental keyboard technique. The course is designed for non-music majors but will also satisfy the music major applied piano requirement for all music students except piano majors or advanced pianists. The music major will work toward the requirements for a barrier exam. Course numbers are sequential.
A	MUSI	1183 1184 2183 2184	Voice Class I, II, III, IV (1,1,2). This course will provide studies for increasing the power, range and quality in vocal production. Composition from the standard repertory will be performed by individual class members. Two hours per week including lecture and laboratory and two hours practice required each week. Prerequisites: MUSI 1183 is a prerequisite to MUSI 1184, MUSI 1184 is a prerequisite to MUSI 2183, MUSI 2183 is a prerequisite to MUSI 2184. Course numbers are sequential.
A	MUSI	1303	Fundamentals of Music (single semester course) (3,3,0). Introduction to the basic elements of music theory for non-music majors: scales, intervals, Keys, triads, elementary ear training, keyboard harmony, notation, meter, and rhythm (does not apply to a music major degree).
A	MUSI	1304	Foundations of Music (3,3,0). Study of the fundamentals of music education for prospective classroom teachers with an introduction to melodic, rhythmic, and harmonic elements. Emphasis is on participation in singing and reading music.
A	MUSI	1306	Music Appreciation (3,3,0). This course is designed for anyone who wishes a broader knowledge of the great music of civilization. Emphasis will be placed on listening and enjoying music of the masters. Open to all students without prerequisite.
A	MUSI	1308	Music Literature I (3,3,2). A survey dealing with the principal forms from the Ars Antiqua, Ars Nova, Renaissance, Baroque, and Classic Periods.

A	MUSI	1309	Music Literature II (3,3,2). A survey dealing with the principal forms of the large Classic, Romantic, Impressionistic, and Contemporary periods.
A	MUSI	1159 2159	Musical Theater (1,0,3). This course is designed to give the actor and singer practical experience in music theater. A study of integration of music, acting, and staging. The student may pursue this study for two semesters with one credit hour per semester. The course will serve as opera workshop for music majors and minors. No prerequisite necessary.
A	MUSI	1116	Elementary Sight Singing and Ear Training I (1,0,3). This course of study includes singing in the treble and bass clefs, introduction to alto and tenor clefs, major and minor scales, melodies with harmonic backgrounds of the principal chords, aural study of beats, their division and subdivisions, intervals and melodies, and harmonic progressions of the principal chords. Keyboard application theory.
A	MUSI	1117	Elementary Sight Singing and Ear Training II (continued) (1,1,2). Singing melodies with harmonic backgrounds of all diatonic triads, the dominant seventh and supertonic seventh chords. Aural study of syncopation, intervals and melodies with any diatonic harmonic background, diatonic harmonic progression including the dominant seventh and supertonic seventh chords. Keyboard application theory.
A	MUSI	1186 1187 2186 2187	Composition I through IV (1,1,1). Individual or class instruction in music composition. Composing in small forms for simple media in both traditional styles and styles of the student's choice. Emphasis on technical training in advanced harmony and basic counterpoint. Prerequisites: MUSI 1311 and MUSI 1312.
A	MUSI	1192	Guitar Class (1,1,1). Beginning class instruction in guitar. This course is designed for the non-music major. The class covers a variety of genres selected from the interests of class participants. Must furnish own guitar.
A	MUSI	1311	Music Theory I (3,2,3). An introduction to elementary harmony including a study of scales, intervals, major and minor triads, with inversion and application. Part writing of figured bass exercises and melodic harmonizations requiring the principal triads. Prerequisite: Satisfactory score on placement test or MUSI 1303.
A	MUSI	1312	Music Theory II (3,3,2). This course of study includes part writing figured bass exercises and harmonic backgrounds of all diatonic triads, the dominant seventh chords and non-harmonic tones. Enlargement of the period in melodic composition. Prerequisite: MUSI 1311 and MUSI 1116.

A	MUSI	1390	Electronic Music I (3,3,0). (<i>Recording Studio</i>). Introduction to the use of synthesizers, computers, sequencing and music printing software, multi-track recorders and other MIDI (Musical Instrument Digital Interface) devices in the notation, arrangement, composition and performance of music.
A	MUSI	2116	Advanced Sight Singing and Ear Training I (1,1,1). Singing modulations to closely related keys modal melodies. Aural study of superimposition, compound intervals, melodic and harmonic modulation. All diatonic seventh chords. Keyboard application of theory. Prerequisite: MUSI 1312 and MUSI 1117. This course must be taken in conjunction with MUSI 2311.
A	MUSI	2117	Advanced Sight Singing and Ear Training II (1,1,2). Singing remote modulations and more difficult melodies. Aural study of unusual and mixed meters, remote modulation, altered chords, 9th, 11th, and 13 th chords. Keyboard application of theory skills. Prerequisite: MUSI 2116. This course must be taken in conjunction with MUSI 2312.
A	MUSI	2311	Music Theory III (3,2,3). Part-writing of figured diatonic seventh chords and modulations, styles of writing other than chorales. Prerequisite: MUSI 1312 and MUSI 1117.
W	NURA	1160	Clinical for Nurse Assistant/Aide (1,0,5) A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.
W	NURA	1301	Nurse Aide for Health Care (3,2,3) Knowledge, skills, and abilities essential to provide basic care to residents of long-term care facilities. Topics include resident's rights, communication, safety, observation, reporting and assisting residents in maintaining basic comfort and safety. Emphasis on effective interaction with members of the health care team.
W	NURA	1407	Body Systems (4,4,0) A basic study of the structures and functions of the human body.
W	OSHT	1307	Construction Site Safety and Health (3,3,0). Introduction to safety requirements for construction sites including occupational health and environmental controls.

A	PHED	1100	Beginner Jazz Dance (1,0,2). A unique introduction and complete exercise program designed for the dancer and non-dancer alike including warm-up, floor progressions and dance combinations. Great for flexibility, toning, and strengthening every part of the body.
A	PHED	1103	Beginner Ballet (1,0,2). This course will focus on stretching techniques for the upper and lower body as well as basic barre routines. Students will learn to use ballet as an artistic fitness program. The course also includes learning basic floor routines, positions, and proper terms in preparation for performance ballet.
A	PHED	1104	Advanced Bowling (1,0,2).
A	PHED	1105	Bowling (1,0,2).
A	PHED	1106	Beginning Tennis (1,0,2).
A	PHED	1107	Weight Training I & II (1,0,2). A combination workout of weight-training and strength-training. Cardio vascular exercise and anaerobic workout required.
A	PHED	1108	Cross Training for Fitness and Weight Control (1,1,1). A cardiovascular conditioning program designed to improve muscle tone and maintain a healthy body weight. Activities include lifting weights, Stair Master, running or walking and correct dietary habits.
A	PHED	1109	Golf (1,0,2). Basics and fundamentals for new golfers.
A	PHED	1110	Advanced Golf (1,0,2).
A	PHED	1111	Swimming (1,0,2). A course for beginning swimmers. Designed to overcome fear and acquaint the student with the four basic strokes.
A	PHED	1114	Swimming and Conditioning (1,0,2). This course includes basic stroke work and is recommended for students who are interested in taking lifeguard, scuba, and sailing courses.

A	PHED	1115	Karate (1,0,2).
A	PHED	1116	Volleyball (1,0,2).
A	PHED	1118	Water Exercise (1,0,2).
A	PHED	1121	Intermediate and Advanced Tennis (1,0,2).
A	PHED	1122	Basic Foil Fencing (1,0,2). This course will cover basic to advanced techniques in foil fencing. Appropriate for both the beginner and the more advanced student.
A	PHED	1124	Rhythmic Aerobics I (1,0,2). Aerobic and anaerobic workouts using music to gain the aerobic training effects of cardiovascular and to tone/ sculpt for those who are seeking definition of muscle.
A	PHED	1125	Racquetball (1,0,2). This course includes the playing and rules of racquetball with emphasis on developmental skills.
A	PHED	1126	Intermediate Ballet (1,0,2). A continuation of skills learned in Beginner Ballet.
A	PHED	1127	Rhythmic Aerobics II (1,0,2) A continuation of Rhythmic Aerobics I. Aerobic and anaerobic workouts using music to gain the aerobic training effects of cardiovascular and to tone/ sculpt for those who are seeking definition of muscle.
A	PHED	1128	Yoga/Pilates for Fitness (1,1,1). Yoga and Pilates methods of body conditioning are unique systems of stretching and strengthening exercises. A combination of these will strengthen and tone muscles, improve posture, provide flexibility and balance, unite body and mind, and create a streamlined body-shape.
A	PHED	1129	Yoga/Pilates for Fitness II (1,0,2). Yoga and Pilates methods of body conditioning are unique systems of stretching and strengthening exercises. A combination of these will strengthen and tone muscles, improve posture, provide flexibility and balance, unite body and mind, and create a streamlined body-shape.
A	PHED	1133	Bench Stepping (1,0,2).
A	PHED	1134	Walking for Fitness (1,1,1). The objective of this course is to design an individualized training program for each student so that walking may become a lifetime activity. Goals of the course include increasing cardiovascular endurance and maintaining a desirable body weight. In addition, students will have the opportunity to develop muscular strength, muscular endurance and flexibility. Three hours of activity each week.

A	PHED	1140	Cardio Kickboxing (1,1,1). A cardiovascular workout designed to burn calories and increase muscle definition through the use of punching and kicking techniques used in boxing and martial arts.
A	PHED	1141	Body Sculpting (1,0,2). For those individuals who are seeking a better body by conditioning and toning in a safe and consistent workout with the use of deep and healthy breathing and coordination of strength and flexibility.
A	PHED	1143 2143	Athletic Conditioning I & II (1,0,2).
A	PHED	1151	Scuba Diving I (1,0,2). This is a NAUI certified course which includes all required instruction for national certification. Students must furnish personal equipment which includes masks, fins, and snorkels. (The instructor needs to be contacted prior to purchasing personal equipment).
A	PHED	1152	Scuba Diving II (1,0,2).
A	PHED	1153	Lifeguard Training (1,0,2).
A	PHED	1202	Water Safety (2,0,2). This includes Advanced Life Saving, CPR, First Aid, and pool maintenance. (A Red Cross certified lifeguard course).
A	PHED	1238	Introduction to Physical Fitness and Sport (2,1,1). This course includes a cardiovascular conditioning program designed to improve muscle tone and maintain a healthy body weight. Foods and/or food products which are desirable for consumption by those desiring a healthy lifestyle and correct dietary habits will be examined. Activities include lifting weights, fitness machines, walking and lecture.
A	PHED	2301	Introduction to Holistic Health (3,3,0). This is designed to teach students ways to maintain good health throughout their life. It will focus on health, exercise, nutrition, and coping with stress. This course satisfies a requirement for elementary education majors. Lecture class.
A	PHIL	1301	Introduction to Philosophy (3,3,0). A study of major issues in philosophy and/or the work of major philosophical figures in philosophy. Topics in philosophy may include theories of reality, theories of knowledge, theories of value, and their practical applications.
A	PHIL	2306	Introduction to Ethics (3,3,0). This course is designed to include study of the major moral theories. Students will have the opportunity to apply these theories to today's most pressing concerns.

W	PHRA	1202	Pharmacy Law (2,2,0) Overview of federal and state laws governing the practice of pharmacy. The role of the pharmacy technician and the pharmacist and their associated responsibilities. Includes Code of Ethics, patient confidentiality, and a comparison of legal and ethical aspects.
W	PHRA	1243	Pharmacy Technician Certification Review (2,2,0) A review of major topics covered on the national Pharmacy Technician Certification Examination (PTCE).
W	PHRA	1301	Introduction to Pharmacy (3,3,0) An overview of the qualifications, operational guidelines, and job duties of a pharmacy technician.
W	PHRA	1304	Pharmacotherapy and Disease Process (3,3,0) A study of the disease state and therapeutic properties of drugs used in pharmaceutical therapy.
W	PHRA	1305	Drug Classification (3,3,0) A study of pharmaceutical drugs, abbreviations, classifications, dosages, side effects, and routes of administration.
W	PHRA	1309	Pharmaceutical Mathematics I (3,2,2) Solving pharmaceutical calculation problems encountered in the preparation and distribution of drugs.
W	PHRA	1313	Community Pharmacy Practice (3,2,2) Introduction to the skills necessary to process, prepare, label, and maintain records of prescriptions in a community pharmacy to include customer service, count and pour techniques, prescription calculations, drug selection and preparation, over-the-counter drugs, inventory management and legal parameters.
W	PHRA	1315	Pharmacy Terminology (3,3,0) A study of word origins and structure through the introduction of prefixes, suffixes, and root words as it relates to a pharmaceutical setting. Focuses on translation and recognition of commonly used pharmacy abbreviations.
W	PHRA	1360	Clinical – Pharmacy Technician/Assistant (3,0,10) A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.
W	PHRA	1449	Institutional Pharmacy Practice (4,3,2) Fundamentals of the diverse roles and practice of pharmacy technicians in an institutional pharmacy setting. In-depth coverage of hospital pharmacy organization, work flow and personnel, safety techniques, data entry, packaging and labeling operations, inpatient drug distribution systems including investigational drugs, continuous quality improvement and inventory control.
A	PHYS	1401	<p>College Physics I (lecture + lab) (4,3,3) Designed primarily for students such as premedical, pre-pharmacy, geology, and architecture, who do not expect to do additional work in engineering or physics. Elementary vector algebra, mechanics, heat, thermodynamics, and sound. Prerequisites: MATH 1314, MATH 1316, or concurrent enrollment.</p> <p>This lecture and lab course should combine all of the elements of PHYS 1301 (lecture) and PHYS 1101 (lab), including the learning outcomes listed for both courses.</p>

A	PHYS	1301	College Physics I (lecture) (3,3,0). Fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces; with emphasis on problem solving. Prerequisite: MATH 1314 AND MATH 1316, or MATH 2312/2412 or concurrent enrollment. Recommended co-requisite: PHYS 1101.
A	PHYS	1101	College Physics I (lab) (1,0,4). This laboratory-based course accompanies PHYS 1301. Laboratory activities will reinforce fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces; emphasis will be on problem solving. . Pre/Co-requisite: PHYS 1301
A	PHYS	1302	College Physics II (lecture) (3,3,0). Fundamental principles of physics, using algebra and trigonometry; the principles and applications of electricity and magnetism, including circuits, electrostatics, electromagnetism, waves, sound, light optics, and modern physics topics; with emphasis on problem solving. Prerequisite: PHYS 1301 or permission of instructor. Recommended co-requisite: PHYS 1102.
A	PHYS	1102	College Physics II (lab) (1,0,3). Laboratory class for PHYS 1302. Laboratory activities will reinforce fundamental principles of physics, using algebra and trigonometry; the principles and applications of electricity and magnetism, including circuits, electrostatics, electromagnetism, waves, sound, light optics, and modern physics topics; with emphasis on problem solving. Pre/Co-requisite: PHYS 1302.
A	PHYS	1303	Stars & Galaxies (lecture) (3,3,0). Study of stars, galaxies, and the universe outside our solar system. (Cross listed as ASTR 1303). Recommended co-requisite: PHYS 1103.
A	PHYS	1103	Stars & Galaxies (lab) (1,0,3). Laboratory class for PHYS 1303. (Cross listed as ASTR 1103) Pre/Co-requisite: PHYS 1303.
A	PHYS	1304	Solar System (lecture) (3,3,0). Study of the sun and its solar system, including its origin. (Cross listed as ASTR 1304) Recommended co-requisite: PHYS 1104.
A	PHYS	1104	Solar System (lab) (1,0,3). Laboratory class for PHYS 1304. (Cross listed as ASTR 1104) Pre/Co-requisite PHYS 1304.
A	PHYS	1305	Elementary Physics I (lecture) (3,3,0). Topics will include mechanics, properties of liquids and gases, heat, electricity and magnetism, waves,

			sound, optics, and modern physics with emphasis on medical applications. Recommended co-requisite: PHYS 1105.
A	PHYS	1105	Elementary Physics I (lab) (1,0,3). Laboratory class for PHYS 1305. Pre/Co-requisite: PHYS 1305.
A	PHYS	1315	Physical Science I (lecture) (3,3,0). A survey of the principles of physics, astronomy, geology, and weather with more emphasis on physics and geology. Recommended co-requisite PHYS 1115.
A	PHYS	1115	Physical Science I (lab) (1,0,3). Laboratory class for PHYS 1315. Pre/Co-requisite PHYS 1315.
A	PHYS	1317	Physical Science II (lecture) (3,3,0). A survey of the principles of physics, astronomy, geology, and weather with more emphasis on astronomy and weather. This course may be taken before or after Physical Science I. Recommended co-requisite: PHYS 1117.
A	PHYS	1117	Physical Science II (lab) (1,0,3). Laboratory class for PHYS 1317. Pre/Co-requisite: PHYS 1317.
A	PHYS	2325	University Physics I (lecture) (3,3,0). Fundamental principles of physics, using calculus, for science, computer science, and engineering majors; the principles and applications of classical mechanics, including harmonic motion, physical systems and thermodynamics; and emphasis on problem solving. . Prerequisite: MATH 2413. Co-requisite: MATH 2414. Recommended co-requisite PHYS 2125.
A	PHYS	2125	University Physics I (lab) (1,0,3). Laboratory class for PHYS 2325. Pre/Co-requisite: 2325.
A	PHYS	2326	University Physics II (lecture) (3,3,0). Principles of physics for science, computer science, and engineering majors, using calculus, involving the principles of electricity and magnetism, including circuits, electromagnetism, waves, sound, light, and optics. Prerequisite: PHYS 2325 or permission of instructor. Co-requisite: MATH 2415 and Recommended co-requisite PHYS 2126.
A	PHYS	2126	University Physics II (lab) (1,0,3). Laboratory class for PHYS 2326. Pre/Co-requisite: PHYS 2326.
W	POFI	1191	Computer Basic Skills (1,1,0). This course is designed to acquaint a student with the basic components of a computer system. This is for the student that has never or rarely used a computer. The use of the mouse, keyboard, and windows will be demonstrated. Computer terminology, hands-on lab assignments and demonstrations will provide the student with a foundation to take more computer courses.

W	POFI	2340	Advanced Word Processing (3,3,1). This course is designed to acquaint the student with principles of data entry and word processing. Extensive formatting for technical documents, merging techniques, macros, graphics and desktop publishing are covered. Emphasis on business applications will be incorporated by implementing advanced features; importing data; and incorporating graphics, collaborative, and special functions to enhance documents.
W	POFM	1317	Medical Administrative Support (3,1,7) Study of current medical office skills including communications, office management, financials, insurance and coding, billing, reimbursements, and collections.
W	POFM	1327	Medical Insurance (3,1,7) Study of medical insurance and billing, claim coding, claim preparation and filing, claim follow-up and payment processing, and hospital services.
W	POFM	2286	Internship—Medical Office Assistant (2,0,6) An experience external to the college for an advanced student in a specialized field involving a written agreement between the educational institution and a medical facility. Mentored and supervised by a workplace employee, the student achieves objectives that are developed and documented by the college and that are directly related to special occupational outcomes. This may be a paid or unpaid experience.
W	POFT	1127	Introduction to Keyboarding (1,1,5). Skill development in keyboarding with emphasis on alphabet, number and symbol keys by touch. Skills can be applied to computers, tablets and other equipment with keyboards.
W	POFT	1231	Business Machine Applications (2,1,5). Skill development in the operation of a numeric keypad used in business environment.
W	POFT	1291	Special Topics in Business Communications (2,1,2). Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency.
W	POFT	1309	Administrative Office Procedures I (3,1,7). Study of current office procedures including telephone skills, time management, travel and meeting arrangements, mail processing, and other duties and responsibilities in an office environment.
W	POFT	1313	Professional Workforce Preparation (3,1,7). Preparation for career success including business ethics, interpersonal relations, professional attire, and advancement.

W	POFT	1319	Records and Information Management I (3,1,7). Introduction to basic records information management filing systems including manual and electronic filing.
W	POFT	1329	Beginning Keyboarding (3,1,7). Skill development keyboarding techniques. Emphasis on development of acceptable speed and accuracy levels and formatting basic documents.
W	POFT	1492	Special Topics in Administrative Assistant/Secretarial Science, General (4,1,5). Topics address skills, knowledge, and/or attitudes and behaviors relevant to the professional development of the student in his/her specialized areas of interest. The student completes a minimum of three of the ten special topics mini courses offered including Medical Terminology, Medical Office Procedures, Medical Machine Transcription, Legal Office Projects, Legal Terminology and Transcription, Excel Spreadsheets, Computerized Accounting, Internet Office Projects, Microsoft PowerPoint Presentations
W	POFT	2203	Speed and Accuracy Building (2,1,5). Review, correct, and improve keyboarding techniques for the purpose of increasing speed and improving accuracy. This course is designed to be repeated multiple times to improve student proficiency.
W	POFT	2287	Internship-Admin. Assist/Sec. Science Gen. (2,0,6). An experience external to the college for an advanced student in a specialized field involving a written agreement between the educational institution and a business or industry. Mentored and supervised by a workplace employee, the student achieves objectives that are developed and documented by the college and that are directly related to special occupational outcomes. This may be a paid or unpaid experience. This course may be repeated if topics and learning outcomes vary. Must be taken in conjunction with at least one POFT class.
W	POFT	2333	Advanced Keyboarding (3,1,7). Study of advanced concepts in a variety of office-simulated correspondence activities with emphasis on organization, prioritizing, decision making, composition, placement, accuracy, and speed development.
W	POFT	2387	Internship-Admin. Assist/Sec. Science Gen. (lecture and lab hours will vary by program). An experience external to the college for an advanced student in a specialized field involving a written agreement between the educational institution and a business or industry. Mentored and supervised by a workplace employee, the student achieves objectives that are developed and documented by the college and that are directly related to special occupational outcomes. This may be a paid or unpaid experience. This course

			may be repeated if topics and learning outcomes vary. Must be taken in conjunction with at least one POFT class.
W	POFT	2401	Intermediate Keyboarding ((4,1,7). A continuation of keyboarding skills in document formatting, speed, and accuracy. Emphasis on proofreading, editing, following instructions, and keying documents from various copy.
W	PSTR	1301	Fundamentals of Baking (3,1,6). Fundamentals of baking including dough, quick breads, pies, cakes, cookies, tarts, and doughnuts. Instruction in flours, fillings, and ingredients. Topics include baking terminology, tool and equipment use, formula conversions, functions of ingredients, and the evaluation of baked products.
A	PSYC	0034	College Success Strategies (3,3,1)(Non-Transferable). An introduction to strategies that assist students in being successful in their college experience. Topics include, but are not limited to, college basics, personal responsibility, goal setting, handling stress, learning styles, career planning, improving communication skills, reading critically, note-taking, organization and time management, preparing for and taking exams, writing critically, financial management.
A	PSYC or EDUC	1300 1300	Learning Frameworks (3,3,0) A study of the: research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as PSYC 1300)
A	PSYC	2301	General Psychology (3,3,0). A study of the basic principles in psychology bearing on growth, motivation, learning, drives, emotions and similar aspects of human behavior. Prerequisite: Successful completion of the reading portion of the TSI test.
A	PSYC	2308	Child Psychology (3,3,0). A study of the principles of child care, child development, and early childhood learning. This course presents in systematic fashion the known facts about children - all children – as these facts have been discovered by educators, psychologists, pediatricians, anthropologists, and many others who have devoted themselves to the scientific study of child behavior. Prerequisite: none; PSYC 2301 recommended.
A	PSYC	2314	Lifespan Growth and Development (3,3,0). The study will concern the physical, mental, and emotional characteristics of the individual from

			conception throughout the lifespan. Specific topics will include: basic theories and research in developmental psychology; parent-child relationships; identification, peer relations; self-concepts; language learning, perceptual and cognitive development. Course will give special focus to crises which occur as persons live out their lives.
A	PSYC	2315	Psychology of Adjustment (3,3,0) . This course is a presentation of psychological principles which are fundamental to personal and social adjustment.
A	PSYC	2389	Academic Cooperative in Social Sciences (Psychology) (3,3,0) . A course designed to integrate on-campus study with practical hands on experience in local psychology resources. In conjunction with a psychology course, the individual student and the professor will set specific goals and objectives.
A	PSYC or SOCI	2310 2326	Social Psychology (3,3,0) . Theories of individual behavior on the social environment are surveyed. Topics include the socio-psychological process, attitude formation and change, interpersonal relations, and group processes. Prerequisite: PSYC 2301 or SOCI 1301.
W	PSYT	2331	Abnormal Psychology (3,3,0) . Examination and assessment of the symptoms, etiology, and treatment procedures of mental, emotional, and behavioral disorders.
W	RBTC	1401	Programmable Logic Controllers (4,3,3) . A study in programmable logic controllers (PLC). Topics include processor units, numbering systems, memory organization, relay type devices, timers, counters, data manipulators, and programing.
W	RNSG	1160	Clinical Nursing-Registered Nurse (Transition) (1,0,3) . A health related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201 and AHA/BLS-HCP. Co-requisites: RNSG 1251 and 1327.
W	RNSG	1201	Pharmacology (2,2,0) . Introduction to the science of pharmacology with emphasis on the actions, interactions, adverse effects, and nursing implications of each drug classification. Topics include the roles and responsibilities of the nurse in safe administration of medications within a legal/ethical framework. Prerequisite: Meet TSI Math Requirement.
W	RNSG	1251	Care of the Childbearing Family (2,2,0) . Study of concepts related to the provision of perinatal nursing care for childbearing families. Content may include selected complications. Content includes knowledge, judgment,

			skills, and professional values within a legal/ethical framework. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201 and AHA/BLS-HCP. Co-requisites: RNSG 1160 and 1327.
W	RNSG	1260	Clinical Nursing -Registered Nurse Training (CDM) (2,0,6). A health related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisites: BIOL 2301/2101, 2302/2102 and 2320/2120; PSYC 2301 and 2314; RNSG 1201, 1413, 1360; and AHA/BLS-HCP. Co-requisites: ENGL 1301; RNSG 1431, 1412, and 1261.
W	RNSG	1261	Clinical Nursing-Registered Nurse Training (Childbearing/Childrearing) (2,0,6). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201, 1413, 1360; and AHA/BLS-HCP. Co-requisites: ENGL 1301; RNSG 1431, 1412, and 1260.
W	RNSG	1327	Transition to Professional Nursing (3,2,3). Content include health promotion, expanded assessment, analysis of data, critical thinking skills and systematic problem solving process, pharmacology, interdisciplinary teamwork, communication, and applicable competencies in knowledge, judgment, skills, and professional values within a legal/ethical framework throughout the lifespan. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201 and AHA/BLS-HCP. Co-requisites: RNSG 1251 and 1160.
W	RNSG	1360	Clinical Nursing-Registered Nurse Training (Foundations) (3,0,9). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201 and AHA/BLS-HCP. Co-requisites: RNSG 1413.
W	RNSG	1412	Nursing Care of the Childbearing and Childrearing Family (4,3,3). Study of the concepts related to the provision of nursing care for childbearing and childrearing families; application of systematic problem-solving processes and critical thinking skills, including a focus on the childbearing family during the perinatal periods and the childbearing family from birth to adolescence; and competency in knowledge, judgment, skill, and professional values within a legal/ethical framework. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG, 1413, 1360, and AHA/BLS-HCP. Co-requisites: ENGL 1301; RNSG 1261, 1431, and 1260.

W	RNSG	1413	Foundations for Nursing Practice (4,3,3). Introduction to the role of the professional nurse as provider of patient-centered care, patient safety advocate, member of health care team, and member of the profession. Content includes fundamental concepts of nursing practice, history of professional nursing, and a systematic framework for decision-making and critical thinking. Emphasis on knowledge, judgment, skills and professional values within a legal/ethical framework. This course lends itself to a blocked approach. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201 and AHA/BLS-HCP. Co-requisites: RNSG 1360.
W	RNSG	1431	Principles of Clinical Decision-Making (4,3,3). Examination of selected principles related to the continued development of the professional nurse as a provider of patient-centered care, patient safety advocate, member of health care team, and member of a profession. Emphasis on clinical decision making for clients in medical-surgical settings experiencing health problems involving fluid and electrolytes; perioperative care; pain; respiratory disorders; peripheral vascular disorders; immunologic disorders; and infectious disorders. Discussion of knowledge, judgment, skills, and professional values within a legal/ ethical framework. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120. PSYC 2301 and 2314; RNSG 1201,1413, 1360; and AHA/ BLS-HCP. Co-requisites: ENGL 1301; RNSG 1260, 1412, 1261.
W	RNSG	1443	Complex Concepts of Adult Health (4,4,0). Integration of previous knowledge and skills related to common adult health needs into the continued development of the professional nurse as a provider of patient-centered care, patient safety advocate, member of health care team, and member of a profession in the care of adult patients and families with complex medical-surgical health care needs associated with body systems. Emphasis on complex knowledge, judgments, skills, and professional values within a legal/ethical framework. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; ARTS 1301 or MUSI 1306 or DRAM 1310; RNSG 1201, 1413, 1360, 1431, 1260, 1412, 1261, 1447, 2460, and 2213 for Basic Students. RNSG 1327, 1251, 1447, 2460, and 2213 for Transition students; and AHA/BLS-HCP. Co-requisites: RNSG 2560 and 2121.
W	RNSG	1447	Concepts of Clinical Decision-Making (4,3,3). Integration of previous knowledge and skills into the continued development of the professional nurse as a provider of patient-centered care, patient safety advocate, member of health care team, and member of the profession. Emphasis on clinical decision-making for clients in medical-surgical settings experiencing health problems involving gastrointestinal disorders, endocrine and metabolic disorders, reproductive and sexual disorders, musculoskeletal disorders, eye-ear-nose-throat disorders and integumentary disorders. Discussion of knowledge, judgment, skills, and professional values within a legal/ethical framework. Prerequisites: BIOL 2301/2101, 2302/2102, and

			2320/2120; PSYC 2301 and 2314; RNSG 1201, 1413,1360, 1431, 1260, 1412, 1261; for Basic Students; RNSG 1327, 1251, and 1160 for Transition Students; and AHA/BLS-HCP. Co-requisites: ARTS 1301 or MUSI 1306 or DRAM 1310; RNSG 2460 and 2213.
W	RNSG	2121	Professional Nursing: Leadership and Management (1,1,0). Exploration of leadership and management principles applicable to the role of the professional nurse. Includes application of knowledge, judgment, skills, and professional values within a legal/ethical framework. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; ARTS 1301 or MUSI 1306 or DRAM 1310; RNSG 1201. Co-requisites: RNSG 1443 and RNSG 2560.
W	RNSG	2213	Mental Health Nursing (2,2,0). Principles and concepts of mental health psychopathology, and treatment modalities related to the nursing care of clients and their families. Prerequisites: BIOL 2301/2101, 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201, 1413, 1360, 1431, 1260, 1412, 1261; for Basic Students RNSG 1201, 1327, 1251, and 1160 for Transition Students; and AHA/BLS-HCP. Co-requisites: ARTS 1301 or MUSI 1306 or DRAM 1310; RNSG 1447 and 2460.
W	RNSG	2460	Clinical Nursing-Registered Nurse Training (CDM/Mental Health) (4,0,12). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisites: BIOL 2301/2101 or 2302/2102, and 2320/2120; PSYC 2301 and 2314; RNSG 1201, 1413, 1360, 1431, 1260, 1412, 1261 for Basic Students; RNSG 1327, 1251, and 1160 for Transition Students; and AHA/BLSHCP. Co-requisites: ARTS 1301 or MUSI 1306 or DRAM 1310; RNSG 1447 and 2213.
W	RNSG	2560	Clinical Nursing-Registered Nurse Training (CDM/Management) (5,0,12). A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisites: BIOL 2301/2101 or 2302/2102, and 2320/2120; PSYC 2301 and 2314; ARTS 1301 or MUSI 1306 or DRAM 1310; RNSG 1201, 1413, 1360, 1431, 1260, 1412, 1261, 1447, 2460, and 2213 for Basic Students; RNSG 1327, 1251, 1160, 1447, 2460, 2213 for Transition Students; and AHA/BLS-HCP. Co-requisites: RNSG 1443 and 2121.

W	RSTO	1221	Menu Management (2,1,2). A study of the food service principles involved in menu planning, layout, and evaluation for a variety of types of facilities and service methods. Emphasis on analysis of menu profitability, modification, commodity use, and other activities generated by the menu.
W	RSTO	1304	Dining Room Service (3,3,0). Introduces the principles, concepts, and systems of professional table service. Topics include dining room organization, scheduling, and management of food service personnel.
W	RSTO	1313	Hospitality Supervision (3,3,0). An overview of the information needs of food and lodging properties. Emphasis on both front, back, and material management utilizing computer systems.
W	RSTO	1325	Purchasing for Hospitality Operations (3,2,2). Study of purchasing and inventory management of foods and other supplies to include development of purchase specifications, determination of order quantities, formal and informal price comparisons, proper receiving procedures, storage management, and issue procedures. Emphasis on product cost analysis,

			yields, pricing formulas, controls, and record keeping at each stage of the purchasing cycle.
W	RTVB	1321	TV Field Production (3,2,3) Pre-production, production, and post-production process involved in field television production. Topics include field camera setup and operation, field audio, television directing, and in-camera or basic continuity editing with an emphasis on underlying principles of video technology.
W	RTVB	2335	Television Production (3,2,3) Pre-production, production, and post-production process involved in multiple-camera studios. Includes advanced instruction in camera operation, lighting, audio, and television directing.
W	RTVB	2337	TV Production Workshop (3,2,3) Design and production of video content for location or studio shoots adhering to deadline and quality control restrictions.
W	SCWK	1303	Ethics for Social Service Professionals (3,3,0). Ethical considerations based on social and human services standards. Includes comparison of ethical codes, confidentiality, dual relationships, guidelines for web counseling, ethical considerations dealing with broadcast media, diversity and multiculturalism.
W	SCWK	2301	Assessment and Case Management (3,3,0). Exploration of procedures to identify and evaluate an individual's and/or family's strengths, weaknesses, problems, and needs in order to develop an effective plan of action. Topics include oral and written communications essential for assessment, screening, intervention, client information, and referral.

A	SGNL	1301	Beginning American Sign Language I (3,3,2). Introductory course in American Sign Language. Includes fingerspelling, vocabulary, syntax, history of deaf education, background information on manual communication, moralism and total communication.
A	SGNL	1302	Beginning American Sign Language II (3,3,2). Advanced course in American Sign Language. Emphasis on vocabulary expansion, a study of English idioms, American Sign Language idioms and basic interpreting.
W	SMER	1331	Small Engine Tune Up (3,2,2) Instruction in tune up procedures for small engines including analysis, valve train, ignition fuel, starter, cutter, and safety compliance systems. Emphasis on the use of appropriate equipment and procedures.
W	SMER	1428	Small Engine Service Principles (lecture and lab hours vary by program) Principles of operation of small engines and associated systems. Emphasis on troubleshooting and analysis of faulty systems and components.
A	SOCI	1301	Introductory Sociology (3,3,0). A general introduction into the behavior of individuals in social groups, particularly, a study of important phases of life such as culture, population, institutions, social control, the major social processes, and analysis of the simpler relations of daily living as illustrative material. Prerequisite: Successful completion of the reading portion of the TSI test.
A	SOCI	1306	Social Problems (3,3,0). Survey of some of the major difficulties to which American society is seeking adjustment. A detailed analysis of courses, social significance, and constructive programs pertinent to difficulties incurred in society. One problem will be selected for intensive study. Prerequisite: SOCI 1301 or sophomore standing.
A	SOCI	2301	Marriage and Family (3,3,0). A study of marriage relationships, events and attitudes leading to marriage, problems and experiences associated with marriage, and development of a philosophy regarding marriage and family life. Prerequisite: Sophomore standing or permission of the instructor.

A	SOCI	2336	Criminology (3,3,0). Historical study of American crime problems; social and public policy factor affecting crime; impact of crime and its trends; social characteristics of specific crimes; crime prevention.
A	SOCI	2389	Academic Cooperative in Social Sciences (Sociology) (3,3,0). A course designed to integrate on-campus study with practical hands-on experience in local sociology resources. In conjunction with a sociology course, the individual student and the professor will set specific goals and objectives.
A	SOCI or PSYC	2326 2319	Social Psychology (3,3,0). Theories of individual behavior in the social environment are surveyed. Topics include the socio-psychological process, attitude formation and change, interpersonal relations, and group processes. Prerequisite: PSYC 2301 or SOCI 1301.
A	SPAN	1300	Beginning Spanish Conversation I (3,3,0). This course is designed to improve the student's oral communication skills and pronunciation. The study includes audio-lingual activities, basic vocabulary, practice life situations. This course may not substitute for Spanish 1411 or be counted as part of the core requirements for a baccalaureate degree or majors in Spanish.
A	SPAN	1411	Beginning Spanish I (4,3,2). A beginning level course which introduces students to fundamental language skills in listening comprehension, speaking, reading and writing. Study includes basic vocabulary, grammatical structures, and culture of the Spanish-speaking peoples. Two hours a week in laboratory practice required.
A	SPAN	1412	Beginning Spanish II (4,3,2). Continuation of Spanish 1411 with emphasis on communication skills. Two hours a week in laboratory practice required. Prerequisite: Spanish 1411, two units of high school Spanish, or an appropriate score on placement test.
A	SPAN	2311	Intermediate Spanish I (3,3,0). An intermediate level course designed to improve the student's language skills. Review of language structures, greater emphasis on conversation, vocabulary building, reading, guided composition, and culture. Class conducted mostly in Spanish. Prerequisite: Spanish 1412, three units of high school Spanish, or an appropriate score on placement test.
A	SPAN	2312	Intermediate Spanish II (3,3,0). Continuation of Spanish 2311. More advanced study in oral and written expression, reading periodicals and literature. Prerequisite: Spanish 2311.
A	SPCH	1144 1145 2144 2145	Forensic Activities I, II, III, IV (1,1,0). A study of forensic activities for performance and competition. Laboratory practice in debate, oration, oral interpretation extemporaneous speaking, and discussion. Majors and minors are required to enroll each semester.

A	SPCH	1315	Public Speaking (3,3,0). A basic course in the study of effective communications through speech. Emphasis is placed upon content, organization, and delivery of speeches for various purposes and occasions. Prerequisite: Successful completion of the reading portion of the TSI test.
A	SPCH	1318	Interpersonal Communication (3,3,0). Application of communication theory to interpersonal relationship development, maintenance, and termination in relationship contexts including friendships, romantic partners, families, and relationships with co-workers and supervisors. Prerequisite: Successful completion of the reading portion of the TSI test.
A	SPCH	1321	Business and Professional Speaking (3,3,0). Fundamentals of oral communications; study of special types and techniques of speeches most common to business and professional people; practice in business situations; oral reports; sales talks. Includes panel and committee discussions, and special occasion speeches. Prerequisite: Successful completion of the reading portion of the TSI test.
A	SPCH	1342	Voice and Diction (3,3,0). A study of the voice mechanism and the International Phonetic Alphabet in order that the student may improve vocal performances and correct careless and ineffective speech habits. Required of speech majors.
A	SPCH	2341	Oral Interpretation (3,3,0). A study of the techniques of effective oral reading. Attention is given to pitch, pronunciation, and articulation. Practical experience in Readers Theatre Productions. Prerequisite: none.
A	TECA	1303	Families, School, & Community (3,3,0). A study of the relationship between the child, the family, the community, and early childhood educators, including a study of parent education, family and community lifestyles, child abuse, and current issues.
A	TECA	1311	Educating Young Children (3,3,0). An introduction to the profession of early childhood education, focusing on developmentally appropriate practices, types of programs, historical perspectives, ethics, and current issues.
A	TECA	1318	Wellness of the Young Child (3,2,2). A study of nutrition, health, safety, and related activities, including skill development in management of issues, guidelines, and practices in nutrition, as well as community health, hygiene, safety, and legal implications. Integration of these principles applied to a variety of settings.

W	TECM	1191	Special topics in Applied Mathematics (1,0,4). Math skills applicable to business and industry for successful on-the-job performance
W	TECM	1403	Technical Calculations (4,3,2). Specific mathematical calculations required by business, industry, and health occupations.
W	VNSG	1219	Leadership and Professional Development (2,2,0). Study of the importance of professional growth. Topics include the role of the licensed vocational nurse in the multi-disciplinary health care team, professional organizations, and continuing education. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG 1304, VNSG 1330, VNSG 1334, VNSG 1400, VNSG 1402, VNSG 1509, VNSG 1561, VNSG 2662, VNSG 1509, VNSG 1510. Co-requisite: VNSG 2663.
W	VNSG	1304	Foundations of Nursing (3,3,0). Introduction to the nursing profession including history, standards of practice, legal and ethical issues, and role of the vocational nurse. Topics include mental health, therapeutic communication, cultural and spiritual diversity, nursing process, and holistic awareness. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201. Co-requisites: VNSG 1400, 1402, and 1561.
W	VNSG	1330	Maternal – Neonatal Nursing (3,3,0). A study of the biological, psychological, and sociological concepts applicable to basic needs of the family including childbearing and neonatal care. Utilization of the nursing process in the assessment and management of the childbearing family. Topics include physiological changes related to pregnancy, fetal development, and nursing care of the family during labor and delivery and the puerperium. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG, 1304, VNSG 1400, VNSG 1402, VNSG 1561. Co-requisites: VNSG 1334 and 2662.
W	VNSG	1334	Pediatrics (3,3,0). Study of the care of the pediatric patient and family during health and disease. Emphasis on growth and developmental needs utilizing the nursing process. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG, 1304, VNSG 1400, VNSG 1402, VNSG 1561. Co-requisites: VNSG 1330 and 2662.

W	VNSG	1400	Nursing in Health and Illness I (4,3,3). Introduction to general principles of growth and development, primary health care needs of the patient across the life span, and therapeutic nursing interventions. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG 1304. Co-requisites: VNSG 1304, 1402, and 1561.
W	VNSG	1402	Applied Nursing Skills I (4,2,6). Introduction to and application of primary nursing skills. Emphasis on utilization of the nursing process and related scientific principles. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201. Co-requisites: VNSG 1304,1400, and 1561.
W	VNSG	1509	Nursing in Health and Illness II (5,5,0). Introduction to common health problems of the adult requiring medical and surgical interventions. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG 1304, VNSG 1400, VNSG 1402, VNSG 1561. Co-requisites: VNSG 1510 and 2663.
W	VNSG	1510	Nursing in Health and Illness III (5,5,0). Continuation of Nursing in Health and Illness II. Further study of common medical-surgical health problems of the adult including concepts of mental health. Incorporates knowledge necessary to make the transition from student to graduate vocational nurse. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG 1304, VNSG 1400, VNSG 1402, VNSG 1561. Co-requisites: VNSG 1509 and 2663.
W	VNSG	1561	Clinical-Licensed Practical/Vocational Nurse Training (5,0,15). A health related work based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201. Co-requisites: VNSG 1400, 1402, and 1561.
W	VNSG	2662	Clinical-Licensed Practical/Vocational Nurse Training (6,0,24). A health related work based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG, 1304, VNSG 1400, VNSG 1402, VNSG 1561. Co-requisites: VNSG 1330 and 1334.

W	VNSG	2663	Clinical-Licensed Practical/Vocational Nurse Training (6,0,21). A health related work based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisite: American Heart BLS, Computer Introduction for LVN's through Allied Health Continuing Education, BIOL 2401, BIOL 2402, RNSG 1201, VNSG, 1304, VNSG 1400, VNSG 1402, VNSG 1561. Co-requisites: VNSG 1509 and 1510.
W	WLDG	1307	Introduction to Welding using Multiple Processes (3,1,8). Basic welding techniques using some of the following processes: Oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW) and gas tungsten arc welding (GTAW).
W	WLDG	1337	Introduction to Welding Metallurgy (3,1,6). A study of ferrous and nonferrous metals from the ore to the finished product. Emphasis on metal alloys, heat treating, hard surfacing, welding techniques, forging, foundry processes, and mechanical properties of metal including hardness, machinability, and ductility.
W	WLDG	1391	Special Topics in Welder/Welding Technologist (3,2,4). Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency.
W	WLDG	1413	Introduction to Blueprint Reading for Welders (4,1,9). A study of industrial blueprints. Emphasis placed on terminology, symbols, graphic description, and welding processes. Includes systems of measurement and industry standards. Also includes interpretation of plans and drawings used by industry to facilitate field application and production.
W	WLDG	1421	Welding Fundamentals (4,2,6). An introduction to the fundamentals of equipment used in oxy-fuel and arc welding, including welding and cutting safety, basic oxy-fuel welding and cutting, basic arc welding processes and basic metallurgy.
W	WLDG	1428	Introduction to Shielded Metal Arc Welding (4,2,5). An introduction to the shielded metal arc welding process. Emphasis placed on power sources, electrode selection, oxy-fuel cutting, and various joint designs. Instruction provided in SMAW fillet welds in various positions.

W	WLDG	1430	Introduction to Gas Metal Arc (4,1,9). Principles of gas metal arc welding, setup and use of Gas Metal Arc Welding (GMAW) equipment, and safe use of tools/equipment. Instruction in various joint designs.
W	WLDG	1434	Introduction to Gas Tungsten Arc (GTAW) Welding (4,1,9). Principles of gas tungsten arc welding (GTAW), including setup, GTAW equipment. Instruction in various positions and joint designs.
W	WLDG	1535	Introduction to Pipe Welding (5,4,2). An introduction to welding of pipe using the shielded metal arc welding process (SMAW), including electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 1G and 2G using various electrodes.
W	WLDG	2288	Internship-Welding Technology/Welder (2,0,6). A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer.
W	WLDG	2443	Advanced Shielded Metal Arc (4,2,6). Advanced topics based on accepted welding codes. Training provided with various electrodes in shielded metal arc welding processes with open V-groove joints in all positions.
W	WLDG	2553	Advanced Pipe Welding (5,2,9). Advanced topics involving welding of pipe using the shielded metal arc welding (SM+A548:D554AW) process. Topics include electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 5G and 6G using various electrodes.

VIII. OVERSIGHT & EMPLOYEES
2014 TEXARKANA COLLEGE BOARD OF TRUSTEES

Mr. Kyle Davis

Mr. Terry Taylor

Mrs. Jane Daines

Mr. Ernie Cochran

Mrs. Kaye Ellison

Mrs. Anne Farris

Mr. Ken Reese

ADMINISTRATION

James Henry Russell, M.Ed., CPA..... President
Donna McDaniel, Ph.D. Vice President of Instruction
Kim Jones, B.B.A., CPA..... Vice President of Finance & CFO
Mike Dumdei, M.S. Vice President of Information Technology

PROFESSIONAL STAFF

Larry Andrews, M.A..... Director of Student Retention
Katie Andrus, B.B.A..... Executive Director for TC Foundation
Jamie Ashby, M.S..... Director of Institutional Research and Effectiveness
Rick Boyette..... Director of Facilities Services
John Dixon Boyles, Ed.D..... Director of SACSCOC Reaffirmation
Lori Rochelle, Ed.D. Testing Center Coordinator
Kristi Cobb, M.S. Registrar
Jeff Cottingham..... Director of Public Safety
Karen Cowan, B.B.A. Business Office Manager
Danny Haflich Bookstore Manager
Phyllis Deese, M.S. Director of Human Resources
Jennifer Walker Harrington, M.B.A., CPA..... Controller
Kristi Hart, B.B.A. Director of Continuing Education
Brandon Higgins, M.B.A..... Director of Advising and Registration
Scotty Hayes, B.S. Director of TC@TexAmericas Center
Susan Johnston, B.B.A. Director of Financial Aid
Brad Hoover, B.A., CPA Director of Purchasing
Suzy Irwin, M.S. Director of Institutional Advancement
Tonja Mackey, Ed.D. Director of Library Sciences/TRIO
Theresa McDonald, Ph.D. Director of Enterprise Resource Planning
Steve Mitchell, B.S. Director of KTXK Radio Station
Traci Pitman, B.S. Design & Creative Services Coordinator
Scott Randall, B.S. Assistant Director of Financial Aid
Joanne Rose, B.S. Coordinator of Allied Health Continuing Education
Lee Williams III, M.Ed. Director of Admissions

INSTRUCTIONAL DEANS

Ronda Dozier, M.S..... Workforce & Continuing Education
Catherine Howard, Ed.D. Science, Technology, Engineering, & Math
Robert Jones, M.S..... Students
Courtney Shoalmire, M.S.N. Health Science
Mary Ellen Young, M.Ed. Liberal & Performing Arts

FACULTY

Kathleen Anglin, M.S.N., R.N. (1993)

Associate Professor, ADN Program
B.S.N. Texas Woman's University, M.S.N. Walden University

Laronda Bailey (2011)

Associate Professor, English/Journalism
B.A., M.A. Jackson State University

Leslie Banister, M.S.N., R.N. (2010)

Assistant Professor, Vocational Nursing Program
B.S.N. University of Arkansas for Medical Sciences, M.S.N. Walden University

Tony Bennett (1998)

Assistant Professor, Auto Body Repair

Teresa Benton (2011)

Instructor, Cosmetology
A.A.S. Texarkana College

Marc-Andre Bougie (2007)

Associate Professor, Music
B.A. Musi, Universite de Montreal, M.M. University of Missouri-Columbia

Casey Boyette (2010)

Instructor, Construction Technology, B.A. University of Mississippi

Alyce Bunting (1994)

Professor, Sociology/Psychology
B.A., M.A. Stephen F. Austin State University, Texas A&M-Texarkana, Ed.D. Texas A&M-Commerce

Michael L. Buttram (1971)

Professor, Chemistry, Coordinator for Clean Rivers Grant
B.A., M.A. Texas A&M-Commerce, Ph.D. University of Louisville

Samuel Butts (2014)

Instructor, Electronics
A.A. Electrical Engineering Technology, Daytona State University
A.A. Computer Engineering Technology, Daytona State University

Stephanie Carpenter (2011)

Assistant Professor, Mathematics

B.A. University of Arkansas, M.A. Texas A&M University – Texarkana

Tammy Cochran (2011)

Pharmacy Tech Instructor

A.D.N. Texarkana College, B.S.N. University of Texas-Arlington, Certified Pharmacy Technician.

Denice Collier (2009)

Instructor, Cosmetology

Career Academy, A.A.S. Texarkana College

Letha Colquitt, MNSc, R.N., F.N.P. (1998)

Associate Professor, ADN Program

A.D.N. Texarkana College, B.S.N. & M.N.Sc. University of Arkansas for Medical Sciences

Michael Cooper (1988)

Professor, Drama

A.A. Pasco-Hernando Community College,

B.F.A. Florida State University, M.F.A. Illinois State University

Robyn Cornelius, M.S.N., R.N. (2008)

Assistant Professor, Vocational Nursing Program

B.S.N. Henderson State University

M.S.N. Walden University

Kenneth Crane (2011)

Professor of Biology

B.S. University of Texas - Austin, M.S., Ph.D. University of Texas - Arlington

Monica Davis (2012)

Instructor, Mathematics

B.A., University of Arkansas – Fayetteville

Whitney Dean, M.S.N. RN (2013)

Assistant Professor, ADN

ADN Texarkana College, M.S.N. Walden University

Elizabeth Delevan M.S.N., R.N. (2011)

Health Simulation Coordinator, Associate

Professor, ADN Program B.S.N. Laurentan University, M.S.N. Texas A&M

University – Texarkana

Delbert Dowdy (1978)

Professor, Physics/Dual Credit Peer Evaluator

B.S. University of Texas at Arlington,

M.S. University of North Texas

Everett, Kimberly, M.S.N, RN (2014)

Assistant Professor, ADN Program
B.S.N. Henderson State University,
M.S.N. Regis University

Kristen Floyd, M.S., R.N. (2008)

Associate Professor, ADN Program
B.S.N., M.S. Texas Woman's University

David Gafford (2010)

Associate Professor, Drug & Alcohol Counseling Program, B.A.A.S., M.S. Texas A&M
University-Texarkana

Phyllis Abel Gardner (1997)

Professor, Psychology/Sociology B.A.A.S., M.S.I.S. Texas A&M University - Texarkana, Ph.D.
Texas Woman's University, University of North Texas

Stephen Gass (2013)

Assistant Professor, Criminal Justice
A.A. Texarkana College, B.A.A.S., M.S. Texas A&M University-Texarkana

Jessica Geffert (2013)

Instructor, Culinary Arts
Certificate, Le Cordon Bleu

John Gladstein (2014)

Associate Professor, Foreign Language B.S. Mississippi State University, M.A. Indiana
University, West Texas A&M University of New Mexico

Mary Scott Goode (2005)

Associate Professor, Music
B.A. Eastman School of Music, University
of Rochester, M.M. Florida State University,
University of Arkansas – Fayetteville

Karin Grisham (2013)

Assistant Professor, Chemistry
B.S. University of Oklahoma-Norman, M.S.
Texas A&M University-Texarkana

Patricia Harman (1994)

Professor, Chemistry

A.S. Texarkana College, B.G.S. Texas A&M University - Texarkana, M.S. Texas A&M University - Commerce, Texas A&M University - Texarkana, Texas A&M University - Commerce, Montana State University, Miami (Ohio) University

Tony A. Hartman (1983)

Professor, Mathematics

Texarkana College, B.S.E., M.Ed. Southern

Arkansas University, East Texas State University - Texarkana, University of Arkansas

Lauren Hehmeyer (1985)

Professor, History/Government

B.S. Education, University of Missouri

M.S. Texas A&M University-Texarkana

Dianne Henline (1987)

Associate Professor, Office Careers

A.A. Austin Junior College, B.S. Winona State University, Kearney State University

Pamela Owney (2009)

Associate Professor, English/Journalism

B.A. Stephen F. Austin State University, M.A. Texas A&M University – Texarkana

Jerry Hutchison, R.N., NREMP/T/P (1995)

Coordinator, Associate Professor - EMT

Program

A.A. Business Administration, A.A.S. EMT,

A.A.S. Nursing - Texarkana College, B.A.

Western Illinois University - Macomb, B.S.N. University of Texas – Arlington

Kelli Collier Jarman (2004)

Associate Professor, English B.S., M.S. Texas A&M University – Texarkana

Denise Johnson (2001)

Associate Professor, Biology

B.S. Texas Woman's University, M.S. Louisiana State University – Shreveport

Lisa Jones (2008)

Assistant Professor, English, Developmental Education Coordinator

Texarkana College, B.A. Southern Arkansas

University, M.S. Texas A&M University -

Texarkana

Mark Jones (2012)

Instructor, Automotive Technology

B.S. Pittsburgh State University

Robert Jones (1989)

Professor, Mathematics
B.S.E., M.S. Arkansas State University

Dianna Patterson Kinsey (1997)

Professor, Computer Technology and
Information Systems
A.A.S. Texarkana College, B.B.A., M.B.A.
Texas A&M University - Texarkana, University of Houston, Texas A&M University – Commerce

Robert Laird (1993)

Professor, Biology
B.S. University of Central Oklahoma, M.P.H. University of Oklahoma Health Science Center,
Texas A&M University – Commerce

Curt Langford (2012)

Assistant Professor, Accounting
B.S., Texas A&M University – College Station, M.S. Texas A&M University – Texarkana

Edward Williams (2007)

Instructor, Welding (FCI)

Texarkana College

IX. SUPPLEMENTAL INFORMATION

A. COOPERATIVE PROGRAMS

TC offers the following cooperative programs with other institutions:

Texas A&M Texarkana

Biology
Business
Computer Information Sciences
Criminal Justice
Education
Electrical Engineering
English
General Studies
History
Mass Communications
Mathematics
Nursing (RN to BSN)
Political Science
Psychology
Sociology

UA Medical Science Center

B.S. in Nursing
Health Information Management
Medical Technology
Nuclear Medicine
Respiratory Care

UT Tyler

B.S. in Nursing

For more information, contact Texarkana College Advising center at 903-823-3283.

University of Arkansas for Medical Sciences Programs

The University of Arkansas for Medical Sciences and Texarkana College have a partnership/articulation agreement to offer the following health-related professions programs in Texarkana.

- Health Information Management (Associate of Science)
- Medical Laboratory Science (Bachelor of Science)
- Nuclear Medicine
- Nursing (Bachelor of Science)
- Respiratory Care (Bachelor of Science)

For more information contact the Texarkana College Advising Center. The following pre-professional courses are required from an accredited college or university or may be completed at Texarkana College.

Health Information Management Professional Curriculum

Students take the General Education (GE) courses listed below at any regionally accredited college or university of their choice, and these are transferred to UAMS as they are completed. Students may take the GE courses before or during the time they are enrolled in the HIM program. The HIM program director provides a Curriculum Plan of Study, which is individualized for every student upon his/her admission into the program. Any remaining GE courses that need to be taken are placed into the Curriculum Plan while the student is taking the HIM courses, so that upon graduation all courses are completed at the same time. There is no time limit for the GE courses that a student transfers into the program with the exception of the computer applications course. This course cannot have been completed more than seven years prior to the date the student applies for admission to the HIM program. This is due to rapidly changing technology that has occurred in the computer science field. This course is the only pre-requisite to the HIM program.

General Education Courses	Credit Hours
College Algebra or higher level mathematics – MATH 1314	3
Anatomy & Physiology*,** (BIOL 2301/1301 and BIOL 2302/1302)	8
English I – ENGL 1301	3
English II – ENGL 1302	3
U.S. History/Government – HIST 1301 or HIST 1302 or GOVT 2305	3
Social Sciences – SOCI 1301 and PSYC 2301	6
Speech – SPCH 1315	3
Computer Science – BCIS 1305 (must be taken prior to acceptance into the program.)	3
Fine Arts or Humanities – ART 1301, DRAM 1310, MUSI 1306, ENGL 2322, ENGL 2323, ENGL 2327, ENGL 2328, ENGL 2332, ENGL 2333, PHIL 1301, PHIL 2306, (Political Science courses will also satisfy the humanities requirement)	6

* Anatomy & Physiology courses must cover all body systems and include accompanying laboratory sections. If taken at a college where this is offered in one course, the student must take an additional 4 SC laboratory biology course to satisfy the 8 SC of laboratory science.

/ Students must complete Anatomy & Physiology, Medical Terminology (HIM 1301), and Pathophysiology (HIM 1304) prior to beginning the sequence of coding courses (HIM 1309,, HIM 2302, and HIM 2305).

Medical Laboratory Science Prerequisite Courses

General Education Requirements:			Min. Semester Credit
English Composition			6
ENGL	1301	Composition I	
ENGL	1302	Composition II	
History/World Civilization/Government (2 of 5 required)			6
HIST	1301	U.S. History I	
HIST	1302	U.S. History II	
GOVT	2305	Federal Government	
HIST	2321	World Civilizations I	
HIST	2322	World Civilizations II	
Social Science (2 of the 5 required)			6
ANTH	2346	General Anthropology	
ANTH	2351	Cultural Anthropology	
ANTH	2301	Physical Anthropology	
SOCI	1301	Introductory Sociology	
PSYC	2301	General Psychology	
GEOG	1303	World Regional Geography	
ECON	2301 or 2302	Principles of Economics I or II	
Communications			3
SPCH	1315	Public Speaking	
Fine Arts			3
ARTS	1301	Art Appreciation	
DRAM	1310	Introduction to Theater	
MUSI	1306	Music Appreciation	
Humanities			3
ENGL	2332 or 2333	World Literature I or II	
PHIL	2306	Introduction to Philosophy	
GOVT	2304	Introduction to Political Science	
Biological Sciences (2 of the 4 required)			8
BIOL	1406 or 1407	Principles of Biology I or II & Lab	
BIOL	2402	Anatomy & Physiology II & Lab	
BIOL	1413	General Zoology & Lab	
Math			3
MATH (or higher level)	1314	College Algebra	
Biology			8
BIOL	2401	Anatomy & Physiology I & Lab	
BIOL	2420	Microbiology & Lab	
Chemistry			8
CHEM	1411	General Chemistry I & Lab	
CHEM	1412	General Chemistry II & Lab	
**Electives			16

A minimum of 70 semester credits (SC) are required from a regionally accredited college or university and must fulfill all college requirements regarding the acceptance of transfer credit. Student must complete 61 SCH, including all of the science and mathematics requirements, prior to enrollment in the professional program. Upon acceptance into the program, an additional 6 SCH of general education requirements must be reflected on the student's degree plan.

**** Recommended electives** include introductory courses in Computer Science, Statistics, Management, Genetics, Organic Chemistry, Biochemistry, and Quantitative Analysis.

A minimum grade point average of 2.50 is required in the science/mathematics courses and in the general education courses to be considered for admission to the program.

These course numbers are based off what is offered at Texarkana College, course numbers may vary at different Universities.

Nuclear Medicine Imaging Sciences Prerequisite Courses

The following **Texarkana College** courses comprise the pre-professional curriculum required for entry into the nuclear medicine imaging sciences. **This information is based on the 2013-2015 CHP Catalog. Because requirements change periodically, please consult your advisor at least annually for updates.** Admissions requirements include, but are not limited to, completion of the pre-professional courses; i.e., completion of these courses does not, by itself, guarantee admission. For complete information, consult the current CHP Catalog, UAMS website (healthprofessions.uams.edu) and/or the CHP department chairman/director.

SCIENCE & MATHEMATICS REQUIREMENTS – 23 SC

Chemistry (4SC)	CHEM 1311/1111	General Chemistry I & Lab
Physics (4 SC)	PHYS 1301/1101	College Physics I & Lab
*Anatomy & Physiology (8 SC)	BIOL 2301/1101 & BIOL 2302/2102	Anatomy & Physiology I & Lab AND Anatomy & Physiology II & Lab
Bio Sci/Microbiology (4 SC)	BIOL 2320/2120 or BIOL 1306/1106	Microbiology & Lab OR Biology for Science Majors & Lab
Mathematics (3 SC)	MATH 1314	College Algebra OR Higher level math

GENERAL EDUCATION REQUIREMENTS – 24 SC

English (6 SC)	ENGL 1301 & ENGL 1302	Composition I AND Composition II
History (3 SC)	HIST 1301 or HIST 1302 or GOVT 2305	U. S. History I or U.S. History II or Federal Government
Speech Communication (3 SC)	SPCH 1315	Public Speaking
Social Sciences (6 SC)	ECON 2301 ECON 2302 GEOG 1303	Principles of Economics I Principles of Economics II World Regional Geography

	PSYC 2301	General Psychology
	SOCI 1301	Introductory Sociology
Fine Arts (3 SC)	MUSI 1306	Music Appreciation
	ARTS 1301	Art Appreciation
	DRAM 1310	Introduction to Theater
Humanities (3 SC)	PHIL 2306	Introduction to Ethics
	ENGL 2322	British Literature I
	ENGL 2323	British Literature II
	ENGL 2327	American Literature I
	ENGL 2328	American Literature II
	ENGL 2332	World Literature I
	ENGL 2333	World Literature II
	Political Science courses will also satisfy humanities requirement	

In addition to the above courses, applicants must complete a minimum of 33 additional semester credit hour electives. At least six (6) of these 33 SC hours must be upper level (Junior-3000, Senior-4000) credit hours.

Notes:

*Human anatomy & Physiology course(s) must cover ALL BODY SYSTEMS and include accompanying laboratory sections.

Up to 9 SC of course work indicated may be taken as co-requisites. Those applicants who have completed 80 SC or more of the pre-professional curriculum prior to enrollment will have priority in admission decisions.

Nursing, Baccalaureate Program

Courses from Texarkana College – Texarkana, TX

HRS	Prerequisite ^s	Course Numbers
BIOPHYSICAL SCIENCES		
4	Chemistry & Lab	CHEM 1305/1105 or CHEM 1411/1111
4	Microbiology & Lab	BIOL 2320/2120
8	Anatomy & Physiology & Labs	BIOL 2301/2101 & BIOL 2302/2102
SOCIAL SCIENCES		
3	Introductory Sociology	SOCI 1301
3	History (U.S. or Amer. Govt.)	HIST 1301 or GOVT 2305
3	General Psychology	PSYC 2301
3 ^b	Lifespan Growth & Development	PSYC 2314
3	World Civilizations	HIST 2321 or HIST 2322

HUMANITIES AND ENGL. COMP.		
3	English Composition I	ENGL 1301
3	English Composition II	ENGL 1302
3	Introduction to Ethics	PHIL 2306
3	Public Speaking	SPCH 1315
ADDITIONAL COURSES		
3^C	College Algebra	MATH 1314
3	Introductory Statistics	MATH 1442
3	Nutrition	BIOL 1322
--	Elective credits Enough to TOTAL 58 Hours (remedial, technical, and nursing courses CANNOT be used)	
58		

- All applicants, including those with a previous baccalaureate or higher degree, must have a minimum grade point average of 2.5 or greater on a 4.0 scale with a grade of “C” or better in all CON general education prerequisite courses.
- Prefer to include growth through the life-span. Will accept infancy through adolescence.
- College Algebra or its equivalent is required by Arkansas State Law.

Respiratory Care Prerequisite Courses

The following **Texarkana College** courses comprise the pre-professional curriculum required for entry into the nuclear medicine imaging sciences. **This information is based on the 2013-2015 CHP Catalog. Because requirements change periodically, please consult your advisor at least annually for updates.** Admissions requirements include, but are not limited to, completion of the pre-professional courses; i.e., completion of these courses does not, by itself, guarantee admission. For complete information, consult the current CHP Catalog, UAMS website (healthprofessions.uams.edu) and/or the CHP department chairman/director.

B. CONTINUING EDUCATION DIVISION

Community Services and Allied Health Programs

Community Services and Allied Health courses, workshops, and seminars are offered throughout the year. These courses have been carefully organized to provide opportunities for individuals to prepare for new jobs and upgrade occupational skills. Other courses are offered in arts and crafts and sports and recreation to enhance the enjoyment of leisure time. In presenting these educational services, we have committed ourselves to the values of quality in everything we do, creatively developing new courses and constantly improving the existing ones.

Length of courses depends upon the time needed to cover the subject. Fees vary, as do the actual costs of conducting each course; however, fees are not structured so as to prohibit anyone who is genuinely interested in continuing their education. Schedules are printed in the spring, summer, and fall, and copies are available in the Continuing Education Office located on the 1st floor of the Administration Building. Those interested in current course offerings may call 903-823-3270 to have a Community Services/Allied Health schedule mailed to them. The schedule can also be accessed by going and clicking on the Community and Business Tab and then the Continuing Education tab. You may choose from any community service or allied health class. Offerings vary from semester to semester depending on current demands and trends.

CEUs Awarded: Continuing Education Units (CEUs) are a nationally recognized measure of skills or work-related training gained in a Community Services or Allied Health course that meets established criteria, including “responsible sponsorship, capable direction, and qualified instruction.” One CEU represents ten classroom hours of participation. Certification of CEUs will be presented to all students who successfully complete Community Services or Allied Health courses.

Community Services and Allied Health Courses

Business and Computer Education:

Computer Literacy
 Quickbooks Pro
 Excel
 Troubleshooting/Repair Common PC Problems
 Microsoft Office

Bladesmithing School:

Introduction to Bladesmithing
 Damascus Steel Blades
 Handles and Guards

Crafts, Music, and Language:

Country and Western Dance
 Floral Design
 Photography
 Piano Preparatory/Voice
 Pottery
 Sign Language
 Spanish
 Cake Decorating
 Ballroom Dance

Online Classes:

Accounting
 Grant Writing
 Insurance/Financial Services C.E.
 Medical Terminology/Coding
 Microsoft Office
 Real Estate
 Web Design
 Administrative Assistant
 CDL Permit Preparatory Course

Special Interests:

Spanish In The Workplace
 Financial Planning
 Gardening
 Landscaping
 Paralegal
 Cooking Classes
 Dale Carnegie Classes
 Do-it-Yourself Home Repair

Sports and Recreation:

Body Sculpting
 Fencing
 Gymnastics
 Kickboxing
 Swimming courses for all ages
 Water Workouts for Women
 Yoga
 Lifeguard Training
 Cheerleading
 Age Group Swim
 Zumba Gold

Allied Health:

Healthcare Professional Seminars
 (TBA)
 ACLS Courses
 Basic Cardiac Life Support (CPR)
 BCLS Instructor Training
 Certified Nurse Aide Course
 Medical Coding Courses
 Computers for LVNs (class for LVN)

Clinical Medical Assistant
Externship
Phlebotomy Externship
Dental Assisting Courses
Emergency First Aid for Children
Emergency Medical Responder
(Emergency Care Attendant -ECA)
Paramedic Refresher Courses
Medication Aid Training/Updates

Mental Health Update
NCLEX-RN/NCLEX-PN
Nurse Refresher Course
Pediatric Advanced Life Support
Training (PALS)
Pharmacy Technician Course

Allied Health offerings serve the professionals in the community by providing approved continuing educational opportunities which help update and review skills and knowledge needed to maintain quality care. Allied Health programs also provide training for individuals entering specific health occupations.

Texarkana College's Allied Health offerings are submitted for prior approval when applicable from the following agencies:

Nursing Home Administrators
Arkansas Department of Health for EMS
Texas Department of Health for Activity Directors
Texas State Board of Examiners for Professional Counselors for LPCs
The National Registry of Emergency Medical Technicians for EMTs and EMT-Ps
National Board for Certified Counselors, Inc., for NCCs and NBCCs
Texas State Board of Physical and Occupational Therapy Examiners
Texas, Arkansas, Louisiana and Oklahoma Department of Human Services for Social Workers
The American Heart Association, Inc., for CPR training
Texas Department of Health Division of Emergency Medical Services for EMTs and EMT-Ss
Texas Department of Criminal Justice
Community Justice Assistance Division – Probation Officers
Texas Juvenile Probation Commission
Texarkana College has been awarded Provider Status by the Texas Nurse Association through
the American Nurse Credentialing Center
Texas State Board Examiners for Marriage and Family Therapists
American Association for Respiratory Care
National Academy of General Dentistry
National Certification Council for Activity Profession
Texas Speech-Language – Hearing Association
National Association of Long Term Care Administrator Boards
Texas Department of Aging and Disability Services for Nurse Aide and Medication Aide
Training
Texas Certification Board of Addiction Professionals (TCBAP)

Associate Degree Nursing Program

Associate of Applied Science in Nursing

The Associate Degree Nursing program at Texarkana College began in 1959, with the first class graduating in 1962. The program is approved by the Texas Board of Nursing and accredited by the Accreditation Commission for Education in Nursing. The Accreditation Commission for Education in Nursing (ACEN) is responsible for the evaluation and accreditation of nursing education schools/programs.

Accreditation Commission for Education in Nursing
3343 Peachtree Rd. N.E. Ste. 850
Atlanta, GA 39326
404-975-5000 –website: www.acenursing.org

At its origin, the program was designed to be completed in two years; however, currently most students take at least three years to complete the entire curriculum –a year for general education requirements and two years for nursing courses.

The curriculum prepares graduates to assume beginning staff positions under supervision as providers of care, coordinators of care, and members of a profession. On completion of the program, graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-RN) to become licensed as Registered Nurses. Employment may be sought in a variety of structured health care settings, including hospitals, nursing homes, outpatient clinics, ambulatory care centers, home health and hospice, schools and other community settings.

There are two educational tracks in the Associate Degree Nursing Program: the basic (for unlicensed students) and the transition (for licensed vocational/practical nurses). Students who wish to transfer from another institution are managed on an individual basis and must contact the Division Dean or the Assistant Division Dean/Coordinator.

Legal Limitations for Licensure

The Texas Board of Nursing may refuse to admit a candidate to the licensing examination and refuse to issue a license to any applicant who has been convicted of a felony or misdemeanor involving moral turpitude or who has been hospitalized or treated for mental illness and/or chemical dependency.

Note for All Applicants:

The faculty of the Health Science Division reserve the right to alter the curriculum and admission policies whenever change is deemed necessary. Notification to all enrolled students and those who have completed the application process will constitute means to effectuate policy changes.

Philosophy and Outcomes of the Associate Degree Nursing Program

Texarkana College

The faculty believes that associate degree nursing education should be an integral part of a community college. We therefore accept the democratic philosophy and objectives of Texarkana College as it fulfills its mission to meet the diverse educational needs of the community. In keeping with the goals of the college, the associate degree nursing program prepares a graduate for immediate employment, provides courses that may be acceptable for transfer to other colleges should graduates seek a higher degree and provides programs for development and/or expansion of skills.

We believe that humans are holistic beings who are unique and complex with biological, psychological, sociological and communication needs that vary throughout life. The faculty believes that health, defined as the process of well-being, is the right of every individual. Health services should be available to each through the cooperative efforts of a wide range of professions and disciplines, commonly called the interdisciplinary health team. The inherent dignity of the individual gives one the right to actively participate with the health team in decisions which affect one's state of health.

Nursing works independently as well as collaboratively with other health disciplines to provide individualistic and cost effective care with clients of all ages. The faculty believes that nursing includes the promotion of health, prevention of illness, and the care of the ill, disabled, and dying people. Advocacy, promotion of a safe environment, and education are also key nursing roles. (Adapted from the International Council of Nurses, 2003). Furthermore, the faculty believes that nursing should constantly encourage client independence.

The knowledge base and practice of the nursing profession include promotion of health, management and monitoring of health and management of common, uncommon, complex and rehabilitative problems with predictable and unpredictable outcomes. The knowledge base and practice of the associate degree nurse is directed toward use of the nursing process to provide or coordinate direct nursing care for a limited number of clients with common, complex, or rehabilitative problems in structured acute and long-term health care settings. Such clients are identified as individuals or family/significant others.

Acute and long-term healthcare settings, for which the graduate is prepared to enter, include geographical or situational environments where the policies, procedures, and protocols are established to support critical thinking decisions, and there is available consultation. The associate degree nurse functions in accordance with the differentiated essential competencies of graduates of Texas nursing programs in the role of member of the profession, provider of patient-centered care, patient safety advocate, and member of the healthcare team. Upon graduation, the associate degree nurse is prepared for a beginning staff position under supervision in various healthcare settings.

The faculty believes that individuals learn in a variety of ways and come into the learning situation in different stages of development; therefore, learning is believed to be:

1. Composed of cognitive, affective and psychomotor components.
2. An additive process, progressing from simple to complex.
3. Demonstrated by a change in behavior.
4. Enhanced by a multi-sensory approach.
5. Individualistic, according to life experiences and personal characteristics.

As the effort and energy put into learning is under personal control, learning is ultimately the responsibility of the student. The faculty shares the responsibility to the extent that they are accountable for curricular planning and for the creation of the learning environment. Throughout the learning process, the faculty will encourage development of a nursing conscience based upon professional, moral, ethical and legal standards.

The faculty further believes that as needs of society change, so do learning needs of the professionals who serve it. Continuing education after graduation is an inherent part of one's professional obligation. In coordination with existing college continuing education services and with community groups, the nursing faculty responds to learning needs by identifying, planning, and otherwise insuring implementation of continuing education opportunities for health care personnel.

Program Student Learning Outcomes

The following student learning outcomes are the outcomes which shape the curriculum and are the criteria for measurement of its success. They reflect the differentiated essential competencies of the graduates of Texas nursing programs as a member of the profession, provider of patient-centered care, patient safety advocate, and member of the healthcare team. The graduate will:

1. Provide patient-centered nursing care using evidence-based outcomes and the nursing process to accommodate society /cultural differences and communicate the same to other members of the healthcare team.
2. Respect the rights of patients to participate in decisions affecting their health by promoting patient-centered care and ensuring confidentiality.
3. Act as a patient safety advocate by establishing compassionate, caring and therapeutic relationships in a physically and psychologically safe environment.
4. Accept and make assignments and delegate tasks to other members of the healthcare team that take into consideration patient safety, organizational policies, and scope of practice and demonstrated abilities.
5. Demonstrate professional responsibility as an associate degree nurse by assuming responsibility and accountability for quality of nursing care, maintaining continued competence, adhering to ethical and legal standards and promoting a positive image of professional nursing.
6. Serve as an advocate for continuity of care and promote quality and access to healthcare for the patient and family.

Associate Degree Nursing Program

Admission Requirements

Basic Admission Procedure

Candidates for the nursing program are expected to be proficient in communication skills, math, science, computer, and learning skills, as well as have physical and mental abilities to practice nursing. To be considered for admission, the candidate must complete the procedures listed below. (Incomplete files are not considered).

Steps for Admission to be completed by the program application deadline (posted to the TC website).

1. Register for mandatory information sessions with the Enrollment Advisor (903) 823-3351.
2. Complete an “Application for Admission” to Texarkana College listing Nursing as your major.
3. A cumulative GPA of 2.5 (on a 4.0 scale) or above on all college-level work.
4. TSI met (see advisement staff).
5. A “New Applicant Counseling Interview” form (dated after February 1st). Call the Health Science Division Office to schedule an appointment (903-823-3401).
6. An “overall” score of 60 or greater on the TEAS V is required for admission to the program. The TEAS V score must be within 2 years of the program application date. A maximum of three TEAS V attempts within a 12-month period is allowed. TEAS V exam scores taken at proctored testing sites other than Texarkana College may be submitted. A minimum of 15 days is required between testing attempts to allow for remediation of content. Students may go on-line to pay for and schedule the TEAS V test at www.atitesting.com.
7. The student must achieve a score of “proficient” level or greater on the Reading portion of the TEAS V to be considered for admission.
8. An official high school transcript, GED score or transcripts from all colleges attended. High school seniors must submit a current transcript with a cumulative GPA of 3.0 (on a 4.0 scale) by the program application deadline.
9. A current physical examination on the “Nursing Physical Examination” form, negative drug screen and satisfactory Texas Board of Nursing background check. NOTE: The physical includes proof of childhood immunizations, including a completed Hepatitis B vaccine series, which takes a minimum of 4 months, a meningitis vaccine (unless age 22 or above), as required by Texas law, and a TB skin test or chest x-ray. This is required after notification in writing of “Conditional Acceptance” into the nursing program. The applicant must bring proof of having at least begun the Hepatitis B series when completing their interview.
10. American Heart Association Basic Life support Healthcare Provider course (AHA/BLS/HCP), Must be current throughout enrollment in the program. The course must be completed prior to enrollment in RNSG 1413 (Basic Students) and RNSG 1327

(Transition Students). Students are encouraged to take the course after May for the year of acceptance or after the “Conditional Acceptance” is received to ensure the course is current throughout enrollment. Contact the Continuing Education Office regarding registration.

Additional Information

1. If all required documentation (TB test/CPR/drug screen/fingerprinting) is not submitted by the deadline, the student will be **removed from the “Conditional Acceptance” list and will have to reapply to the program.** The “Conditional Acceptance” spot will be forfeited.
2. If a Declaratory Order is required by the Board of Nursing (BON) for a prior offense on the criminal background check, the applicant will be given until **July 1st to obtain clearance from the BON, otherwise the “Conditional Acceptance” to the program will be revoked.**
3. If low grades earned early in the applicant’s college career are making the GPA less competitive, the student is encouraged to ask about the “Second Chance” Policy. See Second Chance Policy in the TC Catalog/Handbook.
4. Turn in the Admission Checklist to the Enrollment Advisor with an original signature and date.

Process for Selection of Students

1. **Points System:**
 - a. Students applying to the Associate Degree Nursing Program will be ranked according to the “Points System Admission Process” (Appendix A). Students will be accepted until all available spots are filled. Students not accepted will be placed on an alternate list. Alternate list applicants may be admitted if another student’s “Conditional Acceptance” is forfeited or revoked, provided they have met the other application requirements.
2. **Notification of Selected Applicants**
 - a. Selected applicants will be sent notification of their “Conditional Acceptance” pending receipt of the required documentation to the Office of the Health Sciences Enrollment Advisor.
 - b. Applicants who were not selected initially will be placed on an alternate list.
 - i. In the event of cancellations or forfeitures, eligible applicants from the alternate list will be notified.
 - ii. The alternate list will be maintained until the current class begins the semester.
 - iii. Applicants who are not selected for admission and those that decline a position must re-apply to the program to be considered for admission.
 - iv. Any questions regarding the status of an application should be directed to the Health Sciences Enrollment Advisor.

Re-Entry Admission Procedure

Any student who is dismissed from the ADN program due to professional and/or ethical violations is not eligible for re-entry. In addition, any student who has had a clinical failure due to unsafe clinical practice is not eligible for re-entry into the program.

Under extenuating circumstances, the student may petition the Admissions Committee for an additional admission.

Re-entry candidates should submit paperwork for re-entry no later than mid-term of the Fall or Spring semester prior to re-entry.

Paperwork for re-entry includes:

1. All Basic Admission Criteria (retake of the TEAS V is not required).
2. A completed "Health Science Re-Entry Counseling Interview form." See the Dean or designated faculty member of the Health Sciences Division.
3. **Students must re-enter within 2 years to retain credit for nursing courses. Some remedial work may be required prior to re-admission.**
4. **Credit will not be granted for nursing courses taken more than 2 years prior to application for re-entry. A student applying for re-entry after 2 years will be required to retake the TEAS V for admission.**

Transfer Procedure

Transfer candidates should submit paperwork for transfer no later than midterm of the Fall or Spring semester prior to entry.

Paperwork for transfer includes:

1. All Basic Admission Requirements (pg.1), including the TEAS V Proctored Assessment (passing results of the TEAS V taken within two years of application may be accepted).
2. A "New Applicant Counseling Interview" completed with the Dean or designated faculty member of the Health Sciences Division.
3. An official transcript and nursing course syllabi, or outlines with earned grades.
4. Written permission and the address of the previous school of nursing for Texarkana College to obtain a letter of reference. (Late applications may result in delay of transfer process).

NOTE: Credit will not be granted for nursing courses taken more than 2 years prior to application. Some remedial work may be required prior to admission as a transfer student.

Transition Candidates

The candidate must be a licensed vocational nurse, or a recent graduate from a vocational nursing program and eligible to take the licensure examination. **Students who have been unsuccessful in the Basic Associate Degree Nursing Program or Transition Program previously are NOT eligible for the Transition Program.**

Paperwork for transition includes:

The following items should be on file with Health Sciences Enrollment Advisor by the first Monday in April:

1. All Basic Admission Criteria (pg. 1) must be met.
2. An Official Transcript from the Vocational Nursing program.
3. A copy of the LVN/LPN license. Recent graduates of Vocational Nursing programs who have not taken the Licensure Exam must show the license before they register for the Transition Courses.

Vocational Nursing Program

In cooperation with the Texas Higher Education Coordinating Board, the Texas Board of Nursing, and affiliated agencies, Texarkana College offers a prescribed course in vocational nursing. The program was established in 1956. Graduates are eligible to apply to take the examination for state licensure, and upon passing the examination, are authorized to practice as licensed vocational nurses.

Philosophy and Objectives of the Vocational Nursing Program

The philosophy of the Vocational Nursing (VN) program is consistent with the mission, vision, and institutional goals of Texarkana College in order to provide for the educational needs of a diverse community. It incorporates the legal, ethical, and educational standards of vocational nursing, and is sensitive to the diverse cultural and ethical backgrounds of the students and the community they serve.

The VN faculty believes that the teaching/learning process is an interactive process in which specific learning outcomes are achieved. The curriculum is composed of objectives in which cognitive, affective, and psychomotor components progress from simple to complex. Emphasis is placed on accountability and professionalism with a commitment to lifelong learning.

The VN faculty further believes that it is important to facilitate the learning process by guiding, encouraging, and inspiring students to problem solve and become confident in their nursing practices. The students must be proactive in this teaching/learning process by assuming the responsibility and accountability for their own learning.

The VN program prepares the graduate to be able to think critically, using the nursing process to make decisions and arrive at safe conclusions. The graduate is prepared to meet the differentiated essential competencies (DECs) set forth by the Texas Board of Nursing. The vocational nursing role represents the beginning level of the nursing practice continuum as a member of the profession, provider of patient-centered care, patient safety advocate, and member of the health care team.

Upon completion of the program, the graduate will have the ability to:

1. Utilize the nursing process to assist with identifying patients' physical and mental health status, their needs, and the preference of culturally, ethnically and socially diverse patients and their families based on interpretation of health related data.
2. Observe, report, and document pertinent nursing information including alterations in patient responses to therapeutic interventions.
3. Safely perform nursing and medical interventions according to the Vocational Nurse level of practice.
4. Implement teaching plans that are based upon accepted scientific principles in order to give direct care with skill and safety.
5. Provide compassionate care which maintains comfort and dignity.

6. Assign nursing care to others for whom the nurse is responsible based upon an analysis of patient and unit needs, continuing to supervise this assignment through its completion.
7. Use psychological principles to demonstrate effective interpersonal relationships with patients and others.
8. Communicate and collaborate with members of the interdisciplinary health care team in order to set goals and outcomes that will aid in reducing patient risks.
9. Practice within legal and ethical nursing standards.
10. Acknowledge the value of continuing education and participating in lifelong learning.

Admission Requirements Checklist for VN Applicants

General Admission Criteria Required of all Eligible Applicants

Applicants for the Vocational Nursing Program are expected to be proficient in communication, computer and learning skills as well as to have the physical characteristics to practice nursing. Applicants are advised to check each item to ensure that they have met the criteria. All admission steps must be completed by October 1 for the January class and June 1 for the August class.

ADMISSION REQUIREMENTS

1. Register for a **Mandatory Informational Session** with the Enrollment Advisor at 903-823-3351.
2. A college Application for Admission indicating Vocational Nursing as your major and the date of desired enrollment.
3. A personal guidance interview with Enrollment Advisor. Contact the Health Science Division for an appointment.
4. Entrance Exam/TSI: all applicants must satisfy the requirements of the Texas Success Initiative. A copy of scores must be submitted with application.
5. An official high school transcript or GED scores and transcripts from all colleges attended. High school seniors must submit a 7-semester transcript with a completed transcript to be on file 2 weeks prior registration.
6. *Completion of BIOL 2301/2101, BIOL 2302/2102 and RNSG 1201 with a C or better.
7. Overall GPA and Nursing GPA of 2.5 or higher prior to the beginning of the program.
8. Any student on suspension or probation must be cleared through the Admissions Office.
9. Transcripts of high school or college computer application course with a grade of C or higher, or a non-credit computer course.
10. Successful completion of American Heart Association Basic Life Support of Health Care Providers. This is available from the Texarkana College Continuing Education Division. Card/Certificate must not expire prior to expected date of graduation.
11. Prior to acceptance, a physical examination, negative drug screen, and satisfactory criminal background check. These are not required until notification in writing of “Conditional Acceptance” into the nursing program has been received.

12. Completed Immunizations: Several are required. Please discuss with the Enrollment Advisor. **Note: Hepatitis B vaccine series**: It takes 4-6 months to complete this vaccine series. Please allow time for this prior to application
13. Return checklist to the Office of Admissions with an original signature and date.

Completion of one's file does not constitute admission to the Nursing Program. Be aware that it is your responsibility to complete the appropriate admissions requirements by the stated deadlines. In addition, be aware that Texarkana College Health Science Division requires pre-admission drug screening and criminal background check.

***Please note: In order to achieve a 2.5 GPA in the Nursing requirement, a grade of "B" or higher must be achieved in at least one of the BIOL 2301/2101 or BIOL 2302/2102 courses.**

For Your Information

1. You may ask the college Advisement Office staff for a math review sheet.
2. BIOL 2301/2101, BIOL2301/2102 and/or RNST 1201 may be transferred.
3. Experience in a health agency is recommended prior to admission (i.e. volunteer, nurse's aide, etc.).
4. Notification of acceptance or rejection will be mailed to all candidates. Any questions after the deadline date should be directed to the Office of Admissions.

Re-Admission Procedures

Any student who is dismissed from the Vocational Nursing (VN) program due to professional and/or ethical violations is not eligible for re-entry. In addition, any student who has had a clinical failure due to unsafe clinical practice is not eligible for re-entry into the Vocational Nursing program.

Candidates for re-admission to the nursing program must complete the re-admission procedures. Re-admission into the program will be considered on an individual basis, and on a space availability basis. Instructor recommendation is required. A student who leaves the program for any reason other than a professional/ethical violation or clinical failure will be permitted one other opportunity to re-enroll. Re-enrollment must occur within 12 months after leaving the program. The re-entering student must complete courses as prescribed by the nursing department. Some courses may need to be repeated. If the request for re-admission is greater than one year, the student will be required to re-enter as a beginning student. **NOTE:** The student accepted for re-admission will be under the current policy and procedures of the Health Science Division program at the time of re-admission. Candidates who re-apply, meet the criteria, and are accepted for re-admission will be offered two opportunities to re-enter the program. If the candidate declines re-entry both times, they are removed from the list of applicants and will be required to apply as a new applicant into first semester.

Steps for Re-Admission

1. Complete the Health Science Application for re-entry form.
2. Have a personal guidance interview. Call the Health Science Division to schedule an appointment.
3. Have a conference with the Division Chair or his/her designee.
4. A current physical examination, negative drug screen and satisfactory criminal background check. These are not required until notification in writing of “Conditional Acceptance” into the nursing program has been received.
5. Completed Hepatitis B Series and meningitis vaccine (unless age 30 or older).

Transfer Applicants (Includes ADN Transfers)

Transfer students will be evaluated and placed in the Vocational Nursing Program on an individual basis as space allows.

Steps for Transfer/Admission:

1. Complete the First Admission process. (Admission scores from other programs or a college GPA may be accepted).
2. Have a personal guidance interview with the Enrollment Advisor.
3. Submit course syllabi or outlines of previous nursing classes.
4. Sign permission for obtaining a letter of reference from the previous school of nursing.
5. Prior to acceptance, a physical examination, negative drug screen, and satisfactory criminal background check. These are not required until notification in writing of “Conditional Acceptance” into the nursing program has been received.
6. Completed Hepatitis B Series and meningitis vaccine (unless age 30 or older).

Specific Admission Criteria for Priority Rankings

Admission is based on space availability. Students who are not admitted are responsible for re-applying for the next class.

Priority I

- A. Meet the general admission criteria.
- B. RNSG 1201, BIOL 2301/2101 and BIOL 2302/2102 with a grade of C or higher.
- C. Complete an additional 7 credit hours of Associate Degree in Nursing pre-requisites prior to application.
- D. A resident of the geographical service area.*

Priority II

- A. Meet the general admission criteria.
- B. RNSG 1201, BIOL 2301/2101 and BIOL 2302/2102 with a grade of C or higher.
Remaining biology course completed **before** the first day of class.
- C. A resident of the geographical service area.

Priority III

- A. Meet the general admission criteria except for #5.
- B. RNSG 1201, BIOL 2301/2101 and BIOL 2302/2102 with a grade of C or higher.
Remaining biology course completed **before** the first day of class.
- C. A resident of the geographical service area.

Priority IV

- A. Meet the general admission criteria except for #6.
- B. RNSG 1201, BIOL 2301/2101 and BIOL 2302/2102 with a grade of C or higher.
Remaining biology course and Pharmacology completed **before** the first day of class.
- C. A resident of the geographical service area.*

Priority V

- A. Meet the general admission criteria except for #6.
- B. RNSG 1201, BIOL 2301/2101 and BIOL 2302/2102 with a grade of C or higher.
completed **before** the first day of class.
- C. Outside geographical service area.*

Ranking within each priority will be decided based on the highest number of credit hours completed in nursing courses and GPA if necessary.

*Geographic Service Area includes these counties: **Texas:** Bowie, Cass, Red River, Marion, Morris, Titus. **Arkansas:** Miller, Columbia, Hempstead, Howard, Lafayette, Little River, Nevada, Sevier. **Louisiana:** Caddo. **Oklahoma:** McCurtain
